

Title: Employee and Student Safety

The District shall provide an environment in which all reasonable precautions have been taken to ensure the safety of students, employees and visitors. The District's Emergency Operations Plan shall be developed and updated annually to guide the planning and response to potential threats against the health and safety of students, employees and visitors. In addition, each principal shall annually complete and submit a Building Emergency Operations Plan with the Chief of Student & Family Services. The plans must detail resources, assembly areas, evacuation sites, and individual roles in emergency planning and response, consistent with District requirements. The plans must provide for the needs of individuals with disabilities.
