

Title: Student Fees

All student fees, both optional and required, will be presented annually for approval to the Board of Directors. Student fees authorized are: textbook fees, school supplies, eye and ear protective devices, driver education instructional fee, tuition for summer school and transportation for resident pupils attending public school who are not entitled to free transportation. The Board recognizes that some students may not be able to pay these fees. No pupil will be denied an education or be restricted from participation in co-curricular programs because of his/her inability to pay these fees. Student fees may be waived as determined through the District fee waiver process and as required by Iowa law. Fee waiver applications are made available along with the application for free and reduced price meals. Information submitted to qualify for the fee waiver will be kept confidential as provided by law. An appeal process shall be provided.
