

Title: Public Conduct On District Premises

The Board of Directors expects students, employees, Board members and officers, visitors, spectators, volunteers and vendors (“individuals”) to treat each other with respect, engage in responsible behavior, exercise self-discipline and model fairness, equity and respect. Individuals violating this policy will be subject to discipline or other action as provided in this policy. Students will be disciplined consistent with the student conduct policies. Employees will be disciplined consistent with employee discipline policies. Others will be subject to consequences outlined in this policy.

Individuals are permitted to attend school-sponsored or approved activities or visit school premises only as guests of the District, and, as a condition, they must comply with the District's rules and policies and other directives. Individuals will not be allowed to interfere with or disrupt the education program or activity. Individuals are expected to display responsible behavior.

Visitors will conduct themselves in a manner fitting to their age level and maturity and with mutual respect and consideration for the rights of others while attending school events. Visitors failing to conduct themselves accordingly may be asked to leave the premises.

It is the responsibility of employees to report inappropriate conduct. It is the responsibility of the superintendent and principals to take the action necessary to cease the inappropriate conduct. If the superintendent or principals are not available, a school district employee will act to cease the inappropriate conduct. Law enforcement may be contacted for assistance.

If a spectator or visitor has been notified of future exclusion from school-sponsored or approved activities on school premises, and thereafter tries to enter a school building or attend a school-sponsored or approved activity, the spectator or visitor will be advised that his/her continued presence may result in prosecution. The District has the right to prohibit an individual from District premises. Law enforcement may be contacted for assistance. The District may also obtain a court order to exclude the spectator or visitor from the school building or from future school-sponsored or approved activities.

Title: Public Conduct On District Premises

An individual may request a review of the decision to exclude as outlined in the District's Public Compliant Policy 909 and Administrative Regulation 909.1.
