2023-2024 Parent and Family Engagement Policy

Hannah-Pamplico Elementary/Middle School (HPEM) is focused on promoting world-class knowledge, world-class skills, and life and career characteristics outlined in the Profile of the SC Graduate. As a school family, we will meet these goals through the following activities:

- Provide family night opportunities to educate parents on academic updates and school wide initiatives. This time will also be used to bring parents and students together in an academic setting.
- Engage parents and families in the planning, review, and improvement of school programs and initiatives through School Improvement Council meetings.
- Communicate to parents/families through use of school newsletters, grade level newsletters, teacher newsletters, class phone apps, weekly calls/voicemails, quarterly interim reports and grading reports, parent-teacher conferences, student-led conferences, family nights, district website, email, and school social media.
- Allow parents/families the opportunity to give feedback in multiple ways. Feedback is always welcomed and appreciated during face-to-face or virtual meetings, the suggestion box in the foyer of the school, and via surveys sent throughout the school year. Any suggestions will receive a response within one week.
- Implement a parent/school compact that outlines how we will work together for improved student achievement.
- Hold an annual Title I meeting near the beginning of the school year to discuss this policy along with the Title I plan and updates.
- Allow parents/families the opportunities to jointly review and update this policy annually. Parents/families can provide feedback about this policy throughout the school year.
- Meet with stakeholders and provide information about the school's Parent and Family Engagement Policy and will inform parents of their right to be involved in the planning and development of their student's education through meetings, surveys, and questionnaires.
- Assist all parents/families in understanding such topics as state report cards, the challenging State academic standards, State and local academic assessments and how to monitor your student's progress and work with educators to improve your student's achievement. Information will be provided in a format, to the extent practicable that families can understand.
