

Warren Hills Regional High School

Pathways Program

2024-2025

Helping prepare all students for life beyond Warren Hills

The Pathways Program is a college and career readiness program designed to prepare students for life beyond Warren Hills. Students complete a pathway by taking a series of three courses in a specific field of interest. There are currently more than 20 different pathways included in our course of studies. Key components of the Pathways Program include: projects and a portfolio of culminating work, discussions about career opportunities, alumni/industry presentations, and writing resumes and cover letters. It is our hope that students who complete a pathway will graduate with direction and momentum as a result of their experiences.
