

Update on Chapin High School Athletic Stadium

David Weissman, Executive Director of Operations

Issue: The proposed guaranteed maximum price (GMP) exceeds the capital funding that is allocated for the Chapin High Stadium project (\$8.5 million).

Recommendation: Break into four phases prioritizing each phase to meet athletic needs as funding permits.

Phase 1: Increase seating to meet minimum requirements for South Carolina High School League (SCHSL) playoff games (5,000 seats)

Phase 2: Press Box including concession site, restrooms, and sound system

Phase 3: Visitors locker room and field house

Phase 4: Concourse and infield seating
