

Gift Idea: Tagul Word Clouds

Make a Tagul (Word Cloud) for your mentee with words that you think describe them or that relate to your time together.

- Go to tagul.com
- Click on “Create Now” button
- In the column labeled “Text” put in their name and change the size to “5”. Hit enter and then continue to put in words to describe them. Each of the other words can be size “1”
- If you want words to repeat then keep the checkmark in the repeat column. I let them all repeat except their name.
- When you are done hit the big “Visualize” button on the right.
- To save it you will create an account. It is free of charge and it will house all of your Word Clouds in the future.
- You can also print it, frame it and give it to them as a gift. You can buy a certificate frame at the Dollar Store.

Example of a Tagul made by a mentor for their mentee
