Net Operational Gap			(\$521,653)	(\$2,995,597)	(\$3,087,068)	(\$3,168,571)		-0.98%

However, BASD cannot raise tax millage above the Act 1 Index.

The primary cost drivers impacting the deficit above include several high dollar mandated costs or programs that often overshadow our success and the outstanding commitment of the entire BASD community including the board, administration, staff, parents and students in the achievements of our school district. The impact of these few areas presents a very difficult challenge in maintaining a fiscally conservative operational approach while still providing exciting, creative and inspiring educational opportunities for our students.

2021-22 Budget Cost Drivers

Salaries	\$5,473,133
Technology	\$2,629,898
PSERS	\$2,179,158
Equipment Replacements	\$1,148,266
Charter Schools	\$989,413
Debt Service	(\$1,598,956)
BEF/SEF/Level Up New Revenue	(\$9,460,653)
General Operations	(\$1,360,259)
Net Deficit Remaining	\$0

2022-2023 Budget
Executive Summary
June 20, 2022

Introduction and Background

Following another year of growth and a return to normalcy, we continue our work to progress emotionally, financially and academically. The resolve and steadfast dedication of our BASD school community can achieve anything when done in unity for a common purpose ... our students. The planning for the 2022-23 operating budget supports this work and our academic improvement plan. Our commitment to all student needs brought forward conservative fiscal planning in recognition of our community challenges.

Bethlehem Area School District (BASD) has developed an operating budget for the 2022-23 fiscal year leveraging the federal education stimulus funding. The receipt of federal stimulus funds allows us to continue academic remediation following a year of in-school learning to advance progress in our math and literacy programs, expand teacher training in reading and math strategies and provide the social and emotional supports for all students. Financial indicators also signal the strength of our economic community with strong local revenue. We are fortunate to have not lost local resources upon which our public schools so strongly rely. In fact, our local economy has grown resulting from a strong logistics sector and our proximity to east coast transportation hubs.

Given continued funding from the American Rescue Plan, the proposed operational budget is approximately 2.24% more than 2021-22 reflecting our conservative and targeted approach focused on student learning and supports. While BASD expects to receive \$51.1 million in federal ESSER funds, these one-time dollars are specifically targeted toward COVID relief and addressing learning loss. They are not to be used for backfilling any operational deficits for ongoing expenses that will remain into the future like mandated costs, utilities, baseline wages, etc.

The mandated 20% set aside for learning loss will be the primary focus of the upcoming federal spending. The chart below illustrates the baseline operational budget versus the academic, social and emotion recovery spending using the federal dollars in addition to our ongoing programs.

The infusion of \$4.3 million continues supports for tutoring, after school and summer ramp up programs to assist students to provide needed skill development and reinforcement of core skills. These offerings are open to all students with focused programs designed for our special needs population and English Language Learners. Math and literacy coaches will remain embedded in classrooms to support student continued academic growth and achievement.

Training will be provided for our staff with targeted coaching in math and literacy along with a Multi-Tiered System of Supports (MTSS) for social and emotional student support. Social Emotional coaches will also directly support students and our community schools are extending this work with students and families to position them for maximum learning potential. Our work on diversity, equity and inclusion for all learners continues to ensure that every student receives the individual supports needed to succeed personally and academically.

The proposed final budget includes \$318 million for ongoing programs with \$6.4 million for academic recovery and other learning supports such as technology upgrades, hot spots and Wi-Fi connectivity for use at home for a total annual budget of \$324.4 million. The use of federal stimulus funds is intentionally tapered by -44% in this fiscal plan to reduce reliance on these one-time resources. This represents approximately 4% increase in ongoing programs and a 2.24% overall increase from the 2020-21 budget of \$302 million. The increase in mandated costs of pension (+\$2.1M), charter schools (+\$1M) and special education (+1M) are included in the operational increase. The growth in these largest mandates have continued to outpace the growth in BASD operating costs for many years.

For 2022-23, Governor Wolf has proposed a very aggressive education funding budget that includes increases to Basic and Special Education subsidies as well as continuation of the Level Up funding for the 100 most underfunded districts. BASD has assumed in this proposal that we would receive 50% of the special education and level up subsidies as well as 20% of the proposed basic education funds. If the final PA budget is not as generous to public schools, then the proposed increased subsidy will be funded by use of district reserves or fund balance. This budget proposal does not include any increase in the tax levy outside of the multi-county rebalancing.

Our annual budget also supports tuition payments to other outside programs such as Bethlehem Area Vocational Technical School at \$7 million, Northampton Community College at \$2.5 million and Colonial Intermediate Unit at \$15.6 million. Our tuition to charter schools is \$34.9 million which is more than the entire operating budget for 44% of PA public schools.

Additionally, the District's *Built by Bethlehem Roadmap* identifies four components necessary for student success: Organizational, Academic, Student Services and School Community/Culture. This "comprehensive" school experience is critical to our mission as a public school and guided our efforts throughout the budget process.

Conclusion

The 2022-23 BASD budget balances educational needs with financial/economic realities. This proposed final budget is designed to protect core educational programs while providing much needed academic and emotional supports. We continue to educate the whole child through student engagement, personal skill development and stretch learning that prepares our students to be productive graduates in whatever career or educational path they chose. The bottom line is that pension and charter school tuition costs are the greatest threat to the financial stability of the district. Ultimately, policy level issues such as the charter school funding formula that protects and increases funding to charter schools while public schools struggle with reduced local revenues must be solved at the state level. In the meantime, local school districts are forced to cut programs and raise taxes to maintain responsible educational programs for the greatest majority of students who are the future. We look forward to fostering our students' success as we continue to meet their instructional and emotional needs in 2022-23.

2022-23 GENERAL FUND BUDGET

Expenditure Summary by Functional Area

June 20, 2022

The Function describes the activities for which a service or material is acquired. The functions of an LEA are classified into five broad areas: 1) Instruction, 2) Support Services, 3) Operation of Non-instructional Services, 4) Facilities Acquisition, Construction and Improvement Services, and 5) Other Financing Uses. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive.

2022-23 GENERAL FUND BUDGET

Expenditures by Functional Area - Expanded View

June 20, 2022

This summarizes the activities for detail area where services are delivered. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive. The expenditure and expense accounting system has been so structured that all the costs within the particular subdivisions of that function can be combined to form a summary total of related costs. Costs are recorded only once so that they are mutually exclusive.

<u>DESCRIPTION</u>	<u>20-21 ACTUAL</u>	<u>21-22 BUDGET</u>	<u>22-23 BUDGET</u>	<u>VARIANCE</u>	<u>% CHANGE</u>	<u>% of BUDGET</u>
1000 <i>Instruction: Instruction includes all those activities dealing directly with the interaction between teachers and students and related costs, which can be directly attributed to a program of instruction. Included here are the activities of aides or classroom assistance of any type (clerks, graders, teaching machines, etc.) that assist in the instructional process.</i>
