The screenshot shows the NoodleTools interface with the 'My Projects' tab selected. The toolbar at the top includes buttons for 'New project', 'Copy', 'Merge', 'Archive', 'Unarchive', 'Delete', and 'Undelete'. Below the toolbar is a table of projects with columns for Project title, Style, Level, Sources, Notes, Created (EDT), Modified (EDT), Shared?, and Collaborating?. Each row has an 'Options' dropdown menu.

Click “New Project” to begin. You’ll get a pop up box to enter your project name, then click “Submit” to create your new project.

The screenshot shows the 'Project Example (MLA)' dashboard. The 'Project details' section includes fields for Research question, Thesis / Main claim / Hypothesis, History, Paper, and Links. The 'Sharing and collaboration' section has options for Public view, Sharing, and Student collaboration. The 'To-do list' section is partially visible at the bottom.

Once you do this, you will be taken to the Dashboard. This allows you to set up your project, including listing your research question and thesis statement.

At this point, if you are using one of the Gale databases, you can use the “Export to NoodleTools” function and your citation will automatically be created as a source in NoodleTools.

If you are in a Gale database and click “Export to: NoodleTools”, you will see this screen.

You are now ready to begin working with the source to create notecards.

On the Notecards screen, select the green +New button to begin a new notecard.

The notecard screen will walk you through what you need to do. The large box on the left (Copy, paste and annotate here) is where you will put the information you are taking from your article. Having the information copied into this box means you don't have to keep referring back to your article. The top right box (In your own words) is where you will paraphrase what you copied into the previous box. Imagine that you are explaining this information to a child – that's how simply you want to express this.

The final box (Original thinking here) is the most important part of your notecard. This is where you will explain the relevance of the information on your notecard and how it helps to support your thesis. The information in this box from all of your notecards will be the bulk of your research paper.
