

# Microsoft Office 365 Home Install for Students

**Microsoft Office** is available for students of Fargo Public Schools to download and install on a home computer/device. When you are no longer associated with Fargo Public Schools, the home install of Office will stop working.

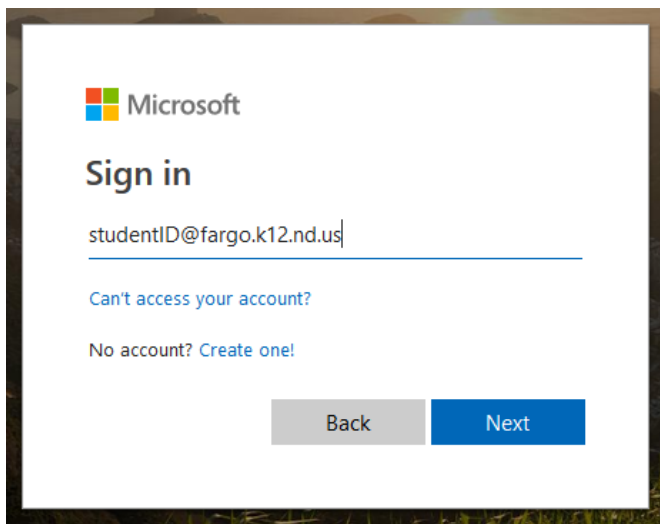

**PLEASE NOTE:** Students with assigned devices from Fargo Public Schools should not use these instructions to install Office on an FPS-issued device. Please contact your building Net Manager for assistance with installing Office. This installation of Office should NOT be loaded on a computer meant for a college student family member. That family member should request Office from their college/university.

**Install Directions** - Follow the steps listed below to take advantage of this offer.

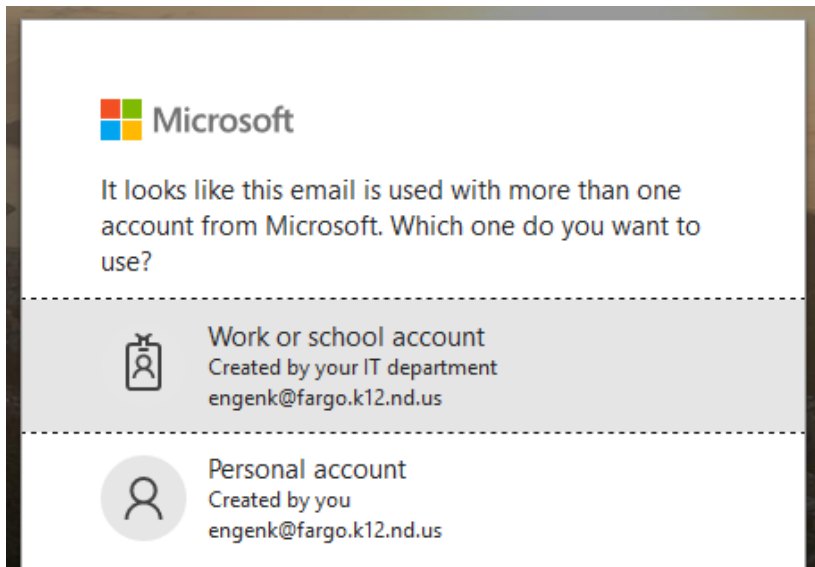

- 1) Go to **office.com** in any browser and click **Sign in**.

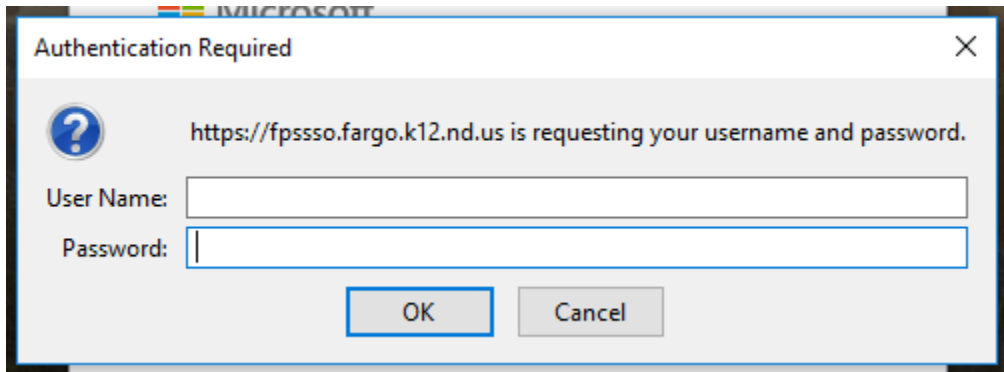

- 2) Enter your **studentID@fargo.k12.nd.us** and click **Next** (For instance, if your FPS student ID number is 12345, you would type in 12345@fargo.k12.nd.us).

3. Select the **Work or school account** option:

4) Enter your FPS assigned **Student ID Number** and **Password**:

5) From the Office 365 welcome screen, you will be able to click the **Install Office** and begin the local install process on your home computer/device:
