

## COORDINATOR, CURRICULUM AND INSTRUCTION

### Basic function

Under the supervision of the Director, Equitable Learning Systems, provide support services to districts and schools in the areas of mathematics, science, computer science and/or related fields. Support includes assisting teachers, administrators, and other educational partners with developing and enriching effective teaching and learning in these content areas. Support mathematics, science, computer science initiatives and STEAM grants and provide specialized consultation, facilitation, and coaching.

### Supervision

Directly responsible to the Director, Equitable Learning Systems.

### Representative duties

- Facilitate professional learning in face-to-face, hybrid, and virtual environments with a focus on instructional design to improve teaching and learning.
- Provide direct support to school personnel through planning, meetings, coaching, reflective conversations, and presentations to increase the effectiveness of instructional and structural supports.
- Engage in research and development to anticipate the needs and future focus areas for schools and districts related to mathematics, science, and computer science.
- Develop, implement, and communicate customized work plans for professional learning.
- Research and recommend effective instructional strategies and programs.
- Participate in, coordinate, support, and/or facilitate a variety of meetings, committees, trainings, workshops, conferences and communities of practice.
- Analyze a range of data sources to inform all aspects of planning and implementation.
- Assist districts in the selection and implementation of curricular resources.
- Collaborate with other managers in the Curriculum and Instruction Division to support programs, initiatives, and professional learning.
- Prepare and present reports as requested.
- Perform other related duties as assigned.
