Dear Parent or Guardian:

The health history you completed for your child indicates he/she has **INSULIN DEPENDENT DIABETES.**

.

The school requires the following:

1. For each new school year, you must submit a new medication order from the Physician for your child's insulin and glucagon if it is to be used during school hours.

Students are not permitted to carry or self-administer medication in school without a physician order and directives. All medicines should be taken to the health office immediately. Students with an insulin pump obviously will have the medication with them to self administer given that the prescribing physician, CRNP, or PA provides the appropriate guidelines.

2. An individualized health care plan, an action plan, and treatment parameters should be updated annually so that medical management in school can be accomplished effectively.

Your prompt attention to the above matter is appreciated. We would welcome an opportunity to meet with you to discuss your child's diabetic condition and how we can implement a personalized health management plan.

We are very concerned with your child's safety during school hours. Thank you for your help and cooperation.

Sincerely,

Ringgold School Nurse

Please provide the above by the date of: **FIRST DAY OF SCHOOL**
