University City High School Career and Education Planning Guide

2022 - 2023

Applicants for admission or employment, students, parents of elementary and secondary school students, employees, sources of referral and applicants for employment and all professional organizations that have entered into agreements with the School District of University City ("School District") are hereby notified that the School District does not discriminate on the basis of race, color, national origin, sex, age or disability in admission or access to, or treatment or employment in, its programs and activities. In addition, the School District provides equal access to the Boy Scouts of America and other designated youth groups. Any person having inquiries concerning the School District's compliance with the laws and regulations implementing Title VI of the Civil Rights Act of 1964 (Title VI), Title IX of the Education Amendments of 1972 (Title IX), the Age Discrimination Act, Section 504 of the Rehabilitation Act of 1973 (Section 504), Title II of the Americans with Disabilities Act of 1990 (ADA) or the Boy Scouts of America Equal Access Act, is directed to the respective Compliance Coordinator listed below, who oversees the School District's efforts to comply with the laws and regulations implementing the laws and regulations cited above. The School District has established grievance procedures for persons unable to resolve problems arising under the statutes above. The School District's Compliance Coordinator will provide information regarding those procedures upon request. Any person who is unable to resolve a problem or grievance arising under any of the laws and regulations cited above may contact the Office for Civil Rights, Region VII, at One Petticoat Lane, 1010 Walnut Street, Suite 320, Kansas City, MO 64106 or 816-268-0550. Adult and Employee Compliance Coordinator: Kashina Bell., deputy superintendent, School District of University City, 700 Olive Blvd, University City, MO 63130, 314-290-4021. Student Compliance Coordinator: Gary Spiller, executive director for Student Services and Innovations, Sc

PREFACE

University City High School (UCHS) has designed the UCHS Career and Education Planning Guide to help students and families choose the best possible program of study based upon a student's aspirations once he/she has graduated from high school. The UCHS faculty has ensured that students have access to a well-rounded high school curriculum consisting of core courses in English language arts, mathematics, social studies and science, in addition to a second language, physical education, the arts, and career and technical education. The faculty further ensures that the current curriculum offers both the substance and the practicality needed to prepare students for their future careers.

Course selection is a cooperative endeavor involving students, parents, teachers, and counselors. Parents and students are encouraged to read the UCHS Career and Education Planning Guide and jointly make decisions regarding course selection.

The UCHS Career and Education Planning Guide provides a brief description of material to be studied in each course. Because choosing the right courses often requires making difficult decisions, it is suggested students and parents follow the steps listed below:

- Before making course selections, the student should speak with a counselor about credits earned and discuss any concerns or questions in regards to their current course of study;
- Preview the entire UCHS Career and Education Planning Guide with particular attention to the Educational Development Plan, Graduation Requirements, and Preparing for Post University City High School; and
- Make course selections jointly that are academically appropriate for the student's course of study, as determined by the student's chosen career pathway.
 - o Please note that final course offerings may be determined based on a minimum of 15 students seeking enrollment in a course.

The UCHS Career and Education Planning Guide assists students and parents with registration for the upcoming school year and helps students choose a program of study, including four years of high school and the year following graduation. UCHS urges students and their parents to read the course descriptions carefully to ensure the course relates to the student's educational and vocational objectives, interests, and abilities. Attention should be given to prerequisites (courses needed prior to a course being taken) and the grade level required for each course. The counseling department will explain the procedures for course selection and course registration starting in January of 2019. Students should give considerable thought to the career pathway and course selection process and are urged to seek assistance from parents, teachers, and school counselors in determining the courses that will best prepare them for their future educational and/or occupational goals.

Academic advisement is an ongoing process with final course submission completed by mid-February. Students will be able to review choices submitted and make course changes once schedules are distributed – usually by mid-summer.

Students will work closely with their counselor to develop their "Career Pathway" program of study, which will provide an opportunity to develop, monitor, and manage an educational plan through a structured, systematic individual planning system. This process begins in eighth grade and is monitored by the school counselor. Contact the Counseling Office with any questions or concerns.

GRADUATION REQUIREMENTS

The requirements for graduation are as follows as established by the University City Board of Education in accordance with the Missouri Department of Elementary and Secondary Education:

| SUBJECT AREA | CREDITS (Years) | Recommended for students who plan to attend a 4 year College/University |
|---|--------------------|--|
| English Language Arts | 4 | 4 |
| Mathematics | 3 | 4 |
| Science | 3 | 3-4 |
| Social Studies * .5 Government, 1 credit US History | 3* | 3-4 |
| Fine Arts | 1 | 1 |
| Practical Arts | 1 | 1 |
| Physical Education | 1 | 1 |
| Health Education | 0.5 | |
| Personal Finance | 0.5 | |
| Electives General (4 Credits) Core (3 Credits in English language arts, mathematics, science and/or social studies) | 7 | |
| World Language | | 2 |
| TOTAL | 24 | |

Graduation Progress

In order to remain on track for graduation students should meet the following minimum requirements.

- 6-7 credits by the Fall of 10th grade year
- 12-14 credits by the Fall of 11th grade year
- 18+ credits by the Fall of 12th grade year

PLANNING FOR COLLEGE AND CAREERS

The UCHS counseling office is an extraordinary resource for our students and families as it relates to the post secondary planning process. In addition to connecting students with information, including 2 year/4 year colleges and universities, technical schools, scholarship searches, financial aid, post secondary training programs, and career interest assessments, the office regularly organizes both virtual and F2F visits for students to interact with colleges, potential employers, and service providers.

ScholarPath

INDIVIDUAL CAREER AND ACADEMIC PLANNING PLATFORM

The School District of University City uses the Scholar Path online platform to match students with suitable careers, colleges and postsecondary options based upon their personality, skills, strengths, and interests. In addition to matching students with potential careers and colleges, Scholar Path securely tracks student data to show them how "on-track" to college and career readiness they are in real time.

ScholarPath is a comprehensive app and platform designed to help school districts implement career pathways curriculum and programs for their students. ScholarPath helps high school students find and fund their path, whether finding the right university or two year college, participating in a union or manufacturing training program, entering the workforce, or joining the military.

Starting in 8th grade students will work with their School Counselors to utilize the Scholar Path platform and begin their Individual Career and Academic Plan, a form that will follow them through high school similar to their transcript. This form will serve as a five year plan (high school and beyond) in addition to compiling information needed for a high quality resume, such as extra-curricular activities, assessment scores, employment experience and community service.

MISSOURI CONNECTIONS

https://www.MissouriConnections.org

Missouri Connections is a web-based resource to help Missouri citizens determine their career interests, explore occupations, establish education plans, develop job search strategies, and create resumés. Sponsored by the Department of Elementary and Secondary Education and the Department of Economic Development, Missouri Connections is available to students, parents, school counselors, educators, and job seekers.

COLLEGE BOUND

College Bound provides promising high school students with the academic enrichment, social support, and life skills needed to apply, enroll, and succeed in four-year colleges. The College Bound program begins in the spring of freshman year and select students remain in the program throughout high school and college. The program includes weekly, off-campus sessions focused on college knowledge, financial literacy, career exploration, weekend study sessions at Washington University, summer programs on college campuses, ACT prep, assistance applying for financial aid, college tours, application assistance, internships, community service, cultural field trips, and support for students in college.

Prerequisites include 2.5+ cumulative GPA, entering sophomore or junior year and must be enrolled or willing to enroll in Honors, AP, and/or Dual Credit coursework.

MIDDLE SCHOOL COURSES ON HIGH SCHOOL TRANSCRIPT

Algebra, Geometry and World Language Courses taken in Middle School will appear on a student's high school transcript and will count towards credits needed for high school graduation provided the student successfully passes an exit exam. While courses will appear as credit towards high school graduation, the student's middle school grade in that course will not be included in the student's high school cumulative GPA calculation.

GRADING

The grading scale is based on the goals, objectives, and skills to be achieved by students as developed by the staff members in each department. The basic grading scale is used for all reports and consists of grades as shown below.

| Letter Grade | Numerical Grade | Grade Point Average | Meaning |
|-----------------|--------------------|------------------------|--|
| A | 90-100% | 4.0 | Outstanding achievement of the goals, objectives, and skills of course |
| В | 80-89% | 3.0 | Very good achievement of the goals, objectives, and skills of course |
| С | 70-79% | 2.0 | Satisfactory achievement of the goals, objectives, and skills of course |
| CR | 60-69% | 1.0 | Minimum achievement of the goals, objectives, and skills of the course |
| NC | below 60% | | Minimum achievement not met, no weight |
| CR | | | Satisfactory completion of course |
| NC | | | Unsatisfactory completion of course |
| Ι | | | Incomplete course; the student is given a set period of time to complete missing work. |

Semester grades are calculated by averaging term grades and the final exam.

LAUDE SYSTEM AND GPA

The Laude system recognizes the academic achievement of our students with five designations:

- Summa Cum Laude: 3.9+ GPA
- Magna Cum Laude: 3.75-3.89 GPA
- *Cum Laude:* 3.5-3.74 GPA
- High Merit: 3.2-3.49 GPA
- Merit: 3.0 3.19 GPA

- A 4 points
- B 3 points
- C 2 points
- CR 1 point
- NC No academic weight

This is based off of an updated grading system:

The Laude system replaces the grade point average/class rank system previously used and also eliminates the naming of an annual valedictorian and salutatorian based on the highest two GPAs.

HONORS COURSES

Honors classes engage students in active, high-level learning, thereby ensuring that students develop the skills, habits of mind, and strategies to succeed in Advanced Placement, Dual Credit and Dual Enrollment courses. Honors courses offered at UCHS include:

- Honors English I & II
- Honors Geometry & Algebra II
- Honors Biology and Chemistry
- Honors U.S. History

ADVANCED PLACEMENT PROGRAM

AP (Advanced Placement) courses follow a national curriculum provided by The College Board, the publishers of the SAT college entrance exam. These courses give students the opportunity to earn college credit while still in high school. Each May, AP exams are offered to students as they complete their coursework. Students earning a minimum score on the exam may be eligible to receive either elective credit or course replacement credit, depending on the college or university policy. Parents and students are encouraged to review these policies on the college website for the colleges in consideration. These are college-level courses that reflect a student's willingness to follow the demands and rigor of college-level studies. AP courses assist students in stretching themselves to think and learn at a higher level and will help students stand out in the college admission process. A fee is required for each AP exam. The following AP courses are offered at UCHS:

- AP Biology
- AP Calculus AB
- AP Calculus BC
- AP Chemistry
- AP Computer Science Principles
- AP Computer Science A
- AP Language and Composition
- AP Literature and Composition
- AP Latin

- AP Spanish
- AP Studio Art: Drawing
- AP Government
- AP World History
- AP Psychology
- AP Drawing

The cost of the AP exam is approximately \$84. Many students may qualify for a reduced rate based upon need. Please note additional AP courses may be available through Launch.

GRADING IN HONORS, DUAL CREDIT/ENROLLMENT AND ADVANCED PLACEMENT COURSES

Honors, dual credit, dual enrollment, and Advanced Placement course grades are calculated into a student's Grade Point Average on a weighted scale. Below are the weighted scales for GPA calculations

| Honors | AP and Dual Credit/Enrollment |
|---------|-------------------------------|
| A=4.5 | A = 5.0 |
| B=3.5 | B = 4.0 |
| C=2.5 | C = 3.0 |
| CR= 1.0 | CR=1.0 |
| NC | NC |
| | |

PASS AND NO CREDIT

Any student enrolled in University City High School may select one course each semester to receive a pass or no credit for the course. Students who select the option of pass/no credit are expected to participate in the class and fulfill the requirements of the course. The teacher will grade the student by indicating that s/he receives credit for the course, or that s/he receives no credit for the course. In either case, the results of the student's effort will be recorded on the permanent record as follows:

- Pass: Indicates satisfactory completion in the course and credit will be given
- NC: Indicates failure in the course taken and no credit will be given

A course taken for P/NC will not be used in computing the grade-point average or class rank.

All students who select the option of P/NC will have six weeks to complete the proper form and submit to the counseling office. P/NC forms are also available in the counseling office. At an administrator's discretion, in emergency situations, students may apply for multiple courses and/or after the six week period.

INDEPENDENT STUDY

Students may apply to take one course per semester of independent study for credit. An application for independent study must be approved by the teacher, counselor, and grade level administrator. Independent study may be arranged for courses that are offered but cannot be scheduled due to irresolvable conflict. See the counselors to determine eligibility for a course. Faculty members who sponsor students on independent study are responsible for complete, specific information on the Independent Study Form. Teachers are also responsible for documenting that the contracted readings, assignments, and conferences are completed before awarding credit for the study. In no instance is an independent study credit to be awarded without adequate performance. Independent Study Forms can be obtained from the guidance office.

THE FORMS MUST BE COMPLETED AND SUBMITTED BY THE THIRD WEEK OF THE SEMESTER.

ONLINE LEARNING: Edgenuity

Edgenuity is a computer-based instructional program designed to provide students with the opportunity to fulfill requirements for graduation through credit recovery of a previously failed course. All course work is aligned to Missouri state standards and the Common Core standards. Students are able to learn at their own pace and make meaningful academic gains. Edgenuity provides learning opportunities for students in traditional, non-traditional, at-risk, homebound, or other alternative settings to recover credits through online courses in a flexible and engaging environment. Counselors and administrators can assign, monitor, and assess student progress through management, tracking, and reporting tools.

Edgenuity provides classes for students in grades 9-12 in the elective and core content areas including mathematics, science, language arts, and social studies courses. Enrollment requirements are as follows:

- Students may be enrolled in Edgenuity courses for credit recovery only
- Students may be enrolled in the Edgenuity class during the regular school schedule in lieu of an elective class.
- Students may also be enrolled outside the school day for credit recovery.
- If a student is enrolled in the course during the day, the student will be assigned to a classroom. The teacher/computer lab aid will help with technical problems but does not instruct the student. The teacher will take attendance, help with any problems accessing the course or online materials, any technical issues, or computer problems.
- Edgenuity courses are not approved by the NCAA Eligibility Center

ONLINE LEARNING: LAUNCH

https://fueledbylaunch.com/

Launch provides course access for students in need of flexible, personalized learning options. The Launch course catalog offers a variety of courses including synchronous/asynchronous, credit acquisition, credit recovery, AP, and NCAA Eligibility Center approved courses. Course options are available online and in a detailed course catalogue. See your School Counselor for more information and a catologue of courses offered at UCHS. Please note that synchronous Launch courses follow the Springfield Public Schools calendar.

LIEBERMAN LEARNING CENTER

The Lieberman Learning Center (LLC) is an option that provides a learning experience for students apart from the traditional high school environment. The goal of the program is to provide an opportunity for students to continue earning credits during a period in which they may experience difficulty in meeting expectations and requirements of the traditional high school. The LLC will provide:

- Flexible schedules,
- Smaller class sizes,
- An opportunity for more individualized instruction, and
- An opportunity to earn credit through employment and/or community service.

Students are admitted to the program through an application process. A student, parent/guardian, counselor, social worker, or administrator can initiate an application through the Counseling Office. After the counselor has spoken with the student and a parent/guardian, the application is sent to the LLC, along with a copy of the student's transcript, and attendance and discipline records. The application is then evaluated based upon the number of specific credits needed to determine if the LLC can assist the student. Students are then notified of acceptance into the program. All students accepted into the program must then have a student parent/guardian conference with the program administrator prior to being admitted.

Applications are accepted by June 1 for the fall semester and by December 15 for second semester. Student acceptance for second semester will be based on available space.

EARLY SENIOR GRADUATION

Seniors may depart from school before their anticipated graduation date if the criteria detailed below have been met.

- All graduation requirements have been fulfilled.
- Written parental consent is submitted to the school counselor.
- The student makes a formal application at least one semester before the proposed completion date. Late applications are accepted only if extenuating circumstances merit special consideration.

Please note that early graduates are able to participate in any and all student activities during the second semester that do not require regular attendance in school. All fees must be paid prior to graduation. Final approval for early graduation is made by the grade level administrator in conjunction with the counselor. If interested, see the counselor for an early graduation application form.

DESCRIPTION OF COLLEGE AND CAREER READINESS ASSESSMENTS

The University City School District offers testing sites within the district for many of the tests listed below. Please contact the Counseling Office at school to obtain information regarding testing dates, sites, and costs. The Guidance Department also offers a number of resources to help students prepare for the tests.

PSAT/NMSQT (10th or 11th Grade) Preliminary Scholastic Aptitude Test/ National Merit Scholarship Qualifying Test (PSAT/NMSQT)

The PSAT/NMSQT measures verbal, writing, and mathematics reasoning skills important for academic success in college. It serves three purposes:

- It gives the student practice for SAT I
- It is the first step in qualifying for scholarships sponsored by the National Merit Scholarship Corporation and other scholarship programs
- It gives the student the opportunity to participate in the Student Search Service.

This test is approximately two hours in length and is primarily taken in the junior year. Sometimes it is appropriate for the student to take this test during his/her sophomore year for practice. Students should consult their counselors for additional information.

SAT I & II (11th-12th Grades) SAT I: Reasoning Test (Scholastic Aptitude Test)

SAT is an assessment used to predict students' performance in college. Required by some schools as part of the application process, this test has two sections — verbal and mathematics. Questions in the verbal section are divided into reading passages, analogies, and sentence completion. Questions in the mathematics section cover standard multiple-choice, quantitative comparisons, and grid-in answers. The Counseling Office can provide the student with additional information or students can go to www.collegeboard.org. It is recommended that students take this test during their sophomore or junior year.

ACT (11th-12th Grades) American College Testing Program

The ACT consists of four examinations in communication arts, math, reading, and science reasoning, each of which yields separate scores measuring developed abilities in those areas. The test is required by some colleges as part of the application process for admission. The ACT assessment also offers an optional writing test. Check with colleges to determine if they require this assessment. The Guidance Office can provide the student with additional information.

ACT WorkKeys Assessment

ACT WorkKeys is a job skills assessment system that helps employers select, hire, train, develop, and retain a high-performance workforce. This series of tests measures foundational and soft skills and offers specialized assessments to target institutional needs.

As part of ACT's Work Readiness System, ACT WorkKeys has helped millions of people in high schools, colleges, professional associations, businesses, and government agencies build their skills to increase global competitiveness and develop successful career pathways.

Successful completion of ACT WorkKeys assessments in Applied Mathematics, Locating Information, and Reading for Information can lead to earning ACT's National Career Readiness Certificate (ACT NCRC), a portable credential earned by more than 2.3 million people across the United States and over 300 business in the St. Louis Region. Source: http://www.act.org/products/workforce-act-workkeys/

Armed Services Vocational Aptitude Battery (ASVAB)

Parents interested in having their son or daughter take an aptitude and career interest test should encourage students to sign up for the Armed Services Vocational Aptitude Battery (ASVAB). The Missouri Department of Elementary and Secondary Education has this to say about the ASVAB: "The Armed Services Vocational Aptitude Battery (ASVAB), the most widely used multiple aptitude battery in the United States and the most up-to-date, provides measures of aptitudes for general academic areas and for career areas that encompass most of the civilian as well as the military world. It is an excellent and useful test for all high school students' grades 10 through 12." The UCHS Counseling Office has information about this valuable test. The ASVAB is free with no military obligation attached.

<u>NOTE:</u> In addition to the tests described above, some colleges require their own on-campus placement tests before college enrollment is completed. UCHS suggests that each college-bound student explore the issue of college-related testing with the UCHS Guidance Department.

ACCUPLACER Placement Test and Multiple Measures

St. Louis Community College uses the Accuplacer Placement Test, an untimed, computerized placement test to evaluate academic skills and place students into appropriate courses. In addition, a student's GPA can be used as another measure of placement. Placement Test Scores indicate areas in which students are strong and areas in which they may need help. Following testing, you and your advisor or counselor can review your results and determine coursework that will be appropriate to your academic skills and chosen program of study.

The Accuplacer Placement Test is required of all students unless academic credentials are submitted that qualify students to take such courses without testing. STLCC may waive all or part of the placement test if students provide documentation of one of the following:

- A college transcript or grade report documenting successful completion (with a grade of "C" or higher) of reading, writing or mathematics course prerequisites
- A college degree from an accredited institution
- An ACT score earned within the last three years documenting:
 - A reading score of 18 or above to waive the reading test
 - An English score of 18 or above to waive the writing test
 - A math score of 23 or above to waive the math test
- An SAT score earned within the last three years documenting:
 - A critical reading score of 500 or above to waive the reading and writing tests
 - A math score of 580 or above to waive the math test

In addition, some selective admission programs may require additional assessment exams or skills tests. If you cannot document that you have met the alternative assessment criteria noted above, you will be required to take the appropriate placement test(s) through STLCC before enrollment. If you have a disability that requires accommodations for the entry assessment, please call the Access office at the campus or school of your choice for an appointment prior to testing. Documentation will be required.

For more information about the Accuplacer placement test, view the preparation video and the online guide. Call or visit the Assessment Center at the campus of your choice to obtain the testing schedule.

Other Required Assessments for High School Graduation

Missouri and U.S. Constitution Tests

Per the Department of Elementary and Secondary Education, to be eligible for graduation from high school, a student must satisfactorily pass a test or tests on the provisions and principles of the U.S. and Missouri constitutions in order to graduate. At University City High School, the tests are administered in U.S. Government courses.

End-Of-Course Exam (EOC)

As part of the Missouri Assessment Program, UCHS requires End-of-Course (EOC) assessments in the subject areas of Algebra I, Lit & Comp II, Biology and Government. EOC assessments are taken when a student has received instruction on the course-level expectations for an assessment, regardless of grade level.

DUAL CREDIT

Dual Credit is an opportunity for qualified sophomore, junior and senior students to enroll in college courses that earn both high school and college credit simultaneously without having to leave the high school campus. Dual Credit is a platform that provides for a seamless transition from secondary to postsecondary education. It involves close collaboration between high school and college educators through ongoing communication and planning for an integrated program of study. There are several benefits and challenges associated with dual credit courses. The majority of UCHS Dual Credit courses are part of the Missouri CORE 42, which means they are transferable to any public college or university in the State of Missouri. **The School District of University City will pay the St. Louis Community College dual credit tuition fee (\$25 per credit hour) for all Core 42 courses. This includes dual credit courses that serve as a prerequisite for Core 42 and pathway courses. Please note that students and families will be required to reimburse SDUC for any courses that the student does not successfully complete with a passing grade.**

Benefits:

- Provides a head start on postsecondary core requirements
- Lowers cost of college (credits earned are discounted to the student)
- Extends the variety of classes available to high school students

UCHS offers the following courses for dual credit at the high school.:

- BIO 109: Human Biology
- ENG 101: College Comp I
- ENG 102: College Comp II
- HST 101: US History to 1865
- HST 102: US History from 1865
- HST 115: Ancient and Medieval History to 1865
- HST 128: Western Civilization from 1500 to Present
- HST 137: African American History Through Reconstruction
- HST 138: African American History From Reconstruction to the Present
- MTH 140: Intro to College Algebra
- MTH 160: Pre-calculus Algebra
- MTH 170: Pre-calculus Trigonometry
- MTH 210: Analytic Geometry and Calculus I
- MTH 220: Analytic Geometry and Calculus II
- MUS 114: Music Appreciation
- STR 100: Smart Start
- PSC 101: Introduction to American Politics
- PSC 103: State and Local Politics
- ED PSY 2212: Child and Adolescent Development (University of Missouri-St. Louis)
- TBA-UMSL Foundation of Education

DUAL ENROLLMENT

Dual enrollment is an option available to qualified junior and senior students. Students may enroll in a college-level course for college and/or high school credit while remaining enrolled at UCHS.high school. Enrollment in a class that is below college level will be taken for high school credit only. To be eligible, seniors must:

- Have a cumulative 2.0 GPA or higher;
- Have met or are meeting all graduation requirements through the regular high school program; and
- Enroll in a college course that is not available in the high school program, either because it is not offered or because of a conflict of time in the schedule.

Dual enrollment is available through the University of Missouri-St. Louis, St. Louis Community College, and Harris Stowe State University, as well as other area colleges. This option is generally open to seniors only and requires parent, counselor, and administrator approval prior to enrollment. Dual Enrollment Forms should be obtained from the Counseling office. As most college and university semesters do not coincide with high school calendars, forms must be completed and submitted by the colleges' deadlines.

To arrange dual enrollment, students must meet with their counselor after locating the course they wish to take. The counselor will examine records and write the permission letter for all qualifying students. Students will earn 1.5 high school credits for 5 credit hour college courses and 1 high school credit for 3 credit hour college courses.

EARLY COLLEGE EXPERIENCE

Identified sophomores are invited to apply for the Early College Experience, an early-entrance-to-college program that allows students to earn college credit towards an associate degree while still in high school at no cost to the family. Students will take dual enrollment courses at St. Louis Community College-Forest Park beginning the summer between their sophomore and junior year. As juniors, participating students will take dual credit courses at UCHS. As seniors, they will complete their remaining coursework on the STLCC-Forest Park campus. Successful candidates can graduate with not only a UCHS diploma, but also an associate's degree in general studies. Our Early College graduates are routinely admitted into competitive colleges and universities across the country . Applications are due in early March of sophomore year. For more details contact: Dr. Samuel Martin, Coordinator of Student Transition and Strategic Partnerships, stmartin@ucityschools.org or call 314-290-4104.

SAINT LOUIS COMMUNITY COLLEGE ARTICULATED CREDIT

What is articulated credit? Articulated credit is college credit earned while a student is in high school. The credit is awarded for a high school course that is associated with a comparable college-level course, for which there is a signed articulation agreement developed by St. Louis Community College (STLCC) faculty and agreed upon by administration at both the high school and college level. Articulated credit can be applied at STLCC toward an Associate in Applied Science degree or certificate program.

What classes at University City High School are articulated with STLCC?

- Child Development and Advanced Child Development
- Family Living and Parenting
- Office Productivity Suite I and II (equivalent to Computer Applications I & II)
- Hospitality and Restaurant Management I & II
- Drafting Design

So if I take these courses and earn articulated credit can it only be applied to STLCC?

Yes. These articulation agreements are exclusive with STLCC Career and Technical Education programs. These credits are not transferable to other colleges or universities.

If I take these courses and earn these credits, do I have to pay for them at STLCC?

No, if students earn the credit at UCHS, then they are college credits earned FREE of charge! But students will only be eligible to use the articulated credit within three years of graduating from UCHS.

What must I do to earn the articulated credit other than being enrolled in the course at UCHS?

Students must earn a "B" or better.

How can I get more information?

Check with a school counselor or a faculty member in the CTE Department.

A+ Program

Missouri's A+ Program provides scholarship funds to eligible graduates of A+ designated high schools who meet certain A+ criteria and choose to attend a participating public community college, vocational/technical school or state university. Educational incentives for participating institutions will be provided as long as state funds are appropriated by the legislature.

UCHS students are encouraged to enroll in the A+ Program during their freshman year to allow students and parents to receive information on the A+ Program from the A+ Coordinator. Interested seniors must enroll in the A+ program no later than January in order to complete the 50 required hours of tutoring/mentoring before graduation.

As of January 2015, A+ candidates must graduate with a grade point average (GPA) of at least 2.5 on a 4.0 scale, maintain at least a 95 percent cumulative attendance record in grades 9-12, maintain a good record of citizenship in alignment with the school's citizenship requirements, have at least a 17 or above on ACT Math, 43 on COMPASS pre-algebra or 1 on COMPASS algebra exams and perform at least 50 hours of unpaid tutoring/mentoring to other students that is verified by the high school's A+ coordinator.

Students interested in participating in the A+ Program should contact UCHS' A+ coordinator, Linda Pritchard at lpritchard@ucityschools.org or 314-290-4100 ext. 2102. More information about the A+ Program including A+ Agreement. A+ Partnership Plan and A+ Manual are available at uchs.ucityschools.org.

THINKING ABOUT TECHNICAL SCHOOL?

North County Technical High School offers students in grades 10-12 the opportunity to earn professional licenses and certifications, college credits through articulation and dual enrollment agreements, and advanced placement in 12 apprenticeship programs. Course offerings range from traditional technical fields, such as precision machining and construction, to high-demand fields such as health sciences and network administration. Students must complete an application for admission. For additional information, please see a guidance counselor and visit <u>www.sssdmo.org/ssd_services/tech_ed.html</u>. A complete list of courses is listed below delineated by career cluster.

Advanced Manufacturing

- Precision Machining
- Welding

Arts and Communication

- Architectural Design and Geospatial Technology
- Fashion Design
- Graphic Design
- Graphic Production and Printing

Business and Information Technology

- Business and Financial Management
- CISCO Networking Academy
- Hospitality, Tourism and Event Planning
- Web and Computer Programming

Construction

- Carpentry
 - Construction Trades
 - Electrical Trades
 - Heating, Ventilation and Air Conditioning

PATHWAY TO ENGINEERING

The Project Lead the Way (PLTW) Pathway to Engineering (PTE) program is a sequence of courses that follows a hands-on, real-world problem-solving approach to learning. Throughout PTE, students learn and apply the design process, acquire strong teamwork and communication proficiency and develop organizational, critical-thinking, and problem-solving skills. Students discover the answers to questions like how are things made and what processes go into creating products?

Students use the same industry-leading 3D design software used by companies like Intel, Lockheed Martin and Pixar. They explore aerodynamics, astronautics and space life sciences. Students apply biological and engineering concepts related to biomechanics, such as robotics. They design, test and actually construct circuits and devices such as smartphones and tablets and work collaboratively on a culminating capstone project. Project Lead the Way is STEM (Science Technology Engineering and Mathematics) education and is at the heart of today's high-tech, high-skill global economy.

Course offerings include, Introduction to Engineering Design (IED), Principles of Engineering (POE) and Computer Science Principles (CSP) and Engineering Design and Development (EDD).

BIOMEDICAL SCIENCES

Professionals in biomedical science are tackling some of the biggest health challenges in order to make the world a healthier place. By discovering treatments for cancer or engaging in healthy lifestyle choices with their communities, biomedical professionals are making a difference.

PLTW Biomedical Science students are taking on these same real-world challenges - and they're doing it before they even graduate from high school! Working with the same equipment and tools used by lab professionals, PLTW Biomedical Science students are empowered to explore and find solutions to some of today's most pressing medical challenges. Through scaffolded activities that connect learning to life, students step into the roles of biomedical science professionals and investigate topics including human medicine, physiology, genetics, microbiology, and public health. Students work together in teams to find unique solutions, and in the process, learn in-demand, transferable skills like critical thinking and communication.

Course offerings include, Principles of Biomedical Science, Human Body Systems, Medical Interventions, and Biomedical Innovation.

UCHS NAF ACADEMIES

https://www.ucityschools.org/NAF

What is NAF?

NAF solves some of the biggest challenges facing education and the economy by bringing education, business, and community leaders together to transform the high school experience. Since 1982, NAF has been partnering with high schools across the country to help students prepare for successful careers by implementing NAF academies. Our five career themes enable NAF students to #BeFutureReady in any field they choose, all while providing them real-world experience through internships and other work-based learning opportunities.

NAF at UCHS

In the 19-20 school year, UCHS launched two NAF Academies, including the *Academy of Engineering and Computer Science* and the *Academy of Health Sciences*. Both Academies will build on our Project Lead the Way programs and provide students who complete the programs with a lifetime NAFTrack Career Certification. NAFTrack Certification will provide students with preferential interviews and hiring at major corporations that partner with NAF, including MasterCard, World Wide Technology, and Hewlett-Packard to name a few.

NAFTrack Certified students will have completed a rigorous program of study in their chosen field and successfully participated in a paid, 120 hour internship.

Benefits for Students

As a NAF student, you are one of more than 100,000 current students from 36 states! When you graduate, you will be part of a national network full of fellow future-ready alumni at different stages in their career. You have access to tons of exclusive opportunities, including scholarships and preferential hiring at prestigious multinational companies. We are committed to helping you prepare for a successful career and future, and we have resources to help you every step of the way. The promise of NAF doesn't end at high school graduation – it's just the beginning. The benefits of being a NAF student include:

- Access to scholarship opportunities for undergraduate and graduate school
- Curriculum developed with the help of industry leaders
- Potential paid internship opportunities
- Opportunities to network with businesspeople
- Mentorship opportunities with successful NAF alumni
- Exclusive NAF networking and alumni events
- Preferential hiring at companies that recognize NAFTrack Certification

ATHLETIC ELIGIBILITY

University City High School is a member of the Missouri State High School Activities Association (MSHSAA) and abides by all the rules and regulations pertaining to eligibility for student-athletes and the rules and regulations as established by the Association. The School District of University City has placed increased standards on student-athletes and expects all participants to meet both MSHSAA and District guidelines for participation.

- Participation in athletics and activities is considered a privilege and not a right.
- Students must be considered a "credible citizen" to be eligible to compete. This includes actions at school and in the community and is in effect 365 days a year.
- MSHSAA Academic Eligibility Standards require that students be enrolled in a minimum of 3.0 credits (typically 6 classes) in the semester they compete.
- MSHSAA Academic Eligibility Standards require that students earn a minimum of 3.0 credits
- (6 classes) the semester prior to competition. (Summer may be included.)
- University City High School requires students that have below a 2.5 cumulative GPA to attend academic tutoring and be enrolled in the Academic Improvement Program (AIP) in order to gain the privilege of competition.
- If students are not permitted to attend school for disciplinary reasons, they are not allowed to participate in interscholastic athletics. Students who receive Out-of-School Suspension (OSS) may not practice or compete until they complete a full day of attendance. Students that receive In-School Suspension (ISS) may practice but not compete until they complete a full day of attendance.
- Students must report all arrests and actions taken by law enforcement to the Athletic Director within 24 hours (excluding traffic violations) to determine if the action will have an effect on athletic eligibility.
- If a student-athlete is absent after the completion of the first period, they may practice but not compete until they complete a full day of attendance. Students absent on Fridays may not compete over the weekend. Absences may be approved by the Athletic Director in rare cases if permission is granted in advance, such as for a doctor's appointment, college visit, funeral, etc.
- Students who represent University City High School by participating in interscholastic athletics may not compete as members of a non-school team in the same sports season. Students may compete with an organized non-school team in a different sport if there is no practice or competition for the in-school team on that day.
- Students must maintain their amateurism and may not accept any award directly tied to athletics or performance in excess of \$25.
- Students and parents are required to read and abide by the "Student-Athlete Handbook" located on the District website at uchs.ucityschools.org.

** See the Athletic Director for additional information or any questions **

High School Eligibility FAQs

In order to play sports at the high school level, a student must earn a minimum of 3.0 credits in the prior semester to participate in MSHSAA sanctioned Activities and Athletics. In addition, the student must have a <u>Pre Participation Physical</u> <u>Evaluation</u> completed by a physician, parent and student.

Here are some common questions about high school eligibility:

When do we calculate the credits?

Credits are calculated on the last day of the semester. This means that once the semester is over, a student can not turn in more work to get a passing grade.

Can I take an incomplete to make up work and still be eligible?

No, an incomplete means that you did not earn a credit. Therefore, you would not be eligible for the next semester. Do credits earned in online courses count towards athletic eligibility?

Online courses must be completed by the last day of the semester to count for the following semester.

What about summer school?

During the summer you can earn up to one (1.0) credit toward eligibility for the next semester. However, the course must count toward a graduation requirement.

NATIONAL COLLEGE ATHLETIC ASSOCIATION (NCAA) ELIGIBILITY STANDARDS

Core Courses:

NCAA Divisions I and II requires 16 core courses. This rule applies to any student first entering any Division I college or university. Core courses include courses in the following areas: English, Math, Natural/Physical Science, Social Science, World Language, and Comparative Religion/Philosophy.

Test Scores:

- Divisions I and II have sliding scales for test score and grade point average.
- The SAT score used for NCAA purposes includes the critical reading and math sections.
- The ACT score used for NCAA purposes is a sum of the four sections on the ACT: English, mathematics, reading and science.
- All SAT and ACT scores must be reported directly to the NCAA Eligibility Center by the testing agency. Test scores that appear on transcripts will not be used. When registering for the SAT or ACT, use the Eligibility Center code of 9999 to make sure the score is reported to the Eligibility Center.

Grade Point Average:

- Only core courses are used in the calculation of the grade point average.
- Be sure to look at the high school's list of NCAA-approved core courses on the Eligibility Center's website at <u>www.eligibilitycenter.org</u> to make certain that courses being taken have been approved as core courses.

Important Information:

Students enrolling at an NCAA Division I or II institution for the first time need to also complete the amateurism questionnaire through the Eligibility Center website. Students need to request final amateurism certification prior to enrollment.

Please note that NCAA Eligibility Center Information is subject to change. For the latest information regarding the eligibility rules, please go to <u>www.NCAA.org</u>

ACADEMIC INTEGRITY FOR FACULTY & STUDENTS

University City High School values academic integrity. Academic integrity requires:

Honesty, which means:

- A commitment to truthfulness, and
- The refusal to steal or mislead, cheat, or plagiarize.

Fairness, which means:

• The willingness to treat others as I would wish to be treated upon careful consideration.

Respect, which means valuing, in attitude and practice:

- All human beings,
- Myself, and
- The University City High School community and beyond.

Responsibility, which means:

- Recognizing that the quality of a UCHS education and the quality of the UCHS experience depend upon my behavior, and
- Accepting, at all times, the consequences of my actions.

As a member of the UCHS community, the students, faculty, and staff are responsible for upholding this value, supporting academic quality, academic rigor and an appropriate high school atmosphere.

ACADEMIC INTEGRITY STATEMENT

University City High School values academic integrity (honesty, trust, fairness, respect and responsibility). It recognizes that individuals can achieve their maximum potential and contribute appropriately to the well-being of the larger community only if they recognize the ethical dimensions of decisions and actions. The school and district assumes all members of the academic community will exhibit academic integrity supporting student access, academic quality, academic rigor, innovation, and collegiality.

DEFINITION OF PLAGIARISM

Plagiarism is defined as representing the words, ideas, or work of another as one's own in any academic exercise. Plagiarism consists of taking the words or substance of another work and either copying or paraphrasing without giving credit to the source. Plagiarism is applicable to written, oral and artistic work. The following examples are only some of the many forms plagiarism may take:

- 1. Word-for-word copying of work written by someone else;
- 2. Failure to give proper credit for ideas, statements of facts or conclusions derived by another;
- 3. Failure to use quotation marks when quoting directly from another, whether a paragraph, sentence or phrase; or
- 4. Close and extended paraphrasing of another's work without acknowledging the source.

DEFINITION OF CHEATING

Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of dishonest, deceptive, or fraudulent means. The following are only some of the many forms cheating may take:

- Copying another's work on a test, paper, or project;
- Using unauthorized materials in an exam or collaborating on work to be turned in for credit where the instructor disallows such collaboration;
- Taking an exam for another student, purposely allowing another student to copy during a test or providing coursework for another student to turn in as his or her own effort;
- Fabricating, falsifying or misrepresenting data or results from experiments, interviews or surveys;
- Submitting the same work in more than one class for credit without permission from the instructor; or
- Knowingly furnishing false information to a college.

MISSOURI CAREER PATHWAYS

What is a Career Path? The state of Missouri has identified six Career Paths as a way to help students become aware of and explore careers in a logical and meaningful way. They include Arts and Communication, Business, Management and Technology, Health Services, Human Services/Transportation, Industrial and Engineering Technology, and Natural Resources and Agriculture.

What is a Career Cluster? Missouri uses 16 Career Clusters as a way of organizing occupations and careers to assist educators in tailoring rigorous coursework and related activities for all students. The Career Clusters include all occupations, even those not usually found in career and technical education.

What is a Career Pathway? Occupations within a Career Cluster are further grouped according to shared commonalities such as skill sets or common roles. This grouping is called a Career Pathway. Each cluster contains two to seven Career Pathways. Career Pathways assist educators in the development of a coordinated and non-duplicative sequence of courses that identifies both secondary and postsecondary education elements; includes challenging academic and career and technical education content; and culminates in one or more of the following: technical skill proficiency, a credential, a certificate, or a degree at the secondary or postsecondary level.

Who can help me understand Career Pathways? A guidance counselor as well as any Career and Technical Education teacher can assist students in understanding Career Pathways – just ask!

Starting in the 8th grade students will begin in-depth explorations into the various career pathways offered at University City High School. Exploratory electives will also help students determine their high school pathway. At the end of the 9th grade year all students will have an identified career pathway and the course selection process will align with a student's chosen program of study.

Where can I get more information regarding the Career Pathways at University City High School? Right here in this book! Read all about them in the pages that follow. Or, visit our website for more information.

| Career Paths | Description | Career Clusters | Possible Careers |
|---|--|---|---|
| Arts and Communication | Creative Path Are you a creative person? Do you like to perform for others or create a work of art? MO CAREER CERTIFICATE CRITERIA

In the State of Missouri students who meet certain requirements will earn a Career Certificate. The requirements for the CTE Certificate are as follows:

1. Meet all requirements set forth in state and local board of education policies related to earning a high school diploma.

2. Qualify as a career and technical education (CTE) concentrator. A CTE concentrator is defined as a student who has earned three or more credits in a sequence in any department-approved career education program area as defined on the student's Individual Career and Academic Plan (ICAP).

3. Maintain a minimum grade point average of 3.0 on a 4.0 point scale in the CTE area of concentration as defined on the student's personal plan of study.

4. Pass an approved Technical Skill Assessment (TSA) and/or earn an approved Industry-Recognized Credential or Certificate (IRC) aligned with the student's CTE area of concentration.

5. Complete a minimum of 50 hours of appropriate work-based learning experiences aligned with the student's CTE area of concentration. Work-based learning experiences may include Registered Apprenticeships, Cooperative Career Education programs, internships, clinical settings, job shadowing, entrepreneurial experiences, school-based enterprises, structured business/industry field trips, service learning or other opportunities that provide students with real-time, authentic work experiences.

6. Maintain at least a 95% attendance record overall for grades 9-12.

7. Demonstrate attainment of soft-skills/business skills. The requirement can be met in one of three ways:

• Active participation in a Career and Technical Student Organization during the junior or senior year; or

• Score at proficient or advanced level on a district-developed or adopted soft skill/ethics assessment during the junior and/or senior year; or

• Three or more letters of recommendation, from at least three different business or industry employers or other individuals who have knowledge of the student and can assure that the student has a high level of soft-skill efficacy and is career ready. Letters may not be from a relative or student.

8. Achieve a score at or above the state standard on any department-approved measure(s) of college and career readiness, for example, the ACT®, SAT®, ACT WorkKeys®, or the Armed Services Vocational Aptitude Battery as determined in the most current MSIP performance standards. Schools are to use the .75 weighted measures described in the Assessment Scores Matrix as the standard. This matrix is found in Appendix C of the MSIP 5 Comprehensive Guide to the Missouri School Improvement Program, 2016.

INDUSTRY-RECOGNIZED CREDENTIALS (IRCs)

High-quality credentials are recognized by multiple employers across an industry. To help better identify and prioritize such credentials, ACTE proposes the following uniform definition of "industry-recognized" be implemented across federal legislation when referencing credentials. The term "industry-recognized," used with respect to a credential, means a credential that—

A. is sought or accepted by employers within the industry or sector involved as a recognized, preferred, or required credential for recruitment, screening, hiring, retention or advancement purposes; and,

B. where appropriate, is endorsed by a nationally recognized trade association or organization representing a significant part of the industry or sector.

SCHOOL DISTRICT OF UNIVERSITY CITY CAREER PATHWAYS AND PROGRAMS OF STUDY

What is a program of study?

Graduation requirements and core classes are still required for all students in the State of Missouri. Programs of study are intended to drive a student's elective choices. A student's chosen program of study should help them earn additional certificates, credentials, college credit or even an Associate's Degree depending upon their career pathway and program of choice.

COURSE DESCRIPTIONS

Course descriptions are by department. Departments are listed in alphabetical order.

ENGLISH LANGUAGE ARTS

4 English Language Arts credits are required for graduation.

| | COMPREHENSIVE LITERACY |
|-------|---|
| COURS | This intervention course is structured to support students who have not mastered their overall literacy skills. Students will be placed in this course based on their performance on multiple criteria, including state and district assessments. Students will engage in lessons that focus on reading essentials including vocabulary, phonics, fluency, and comprehension. This course does not supplant core English courses and requires simultaneous enrollment in Literature and Composition I. <u>Homework:</u> 20-30 minutes of reading daily or a literacy activity Note: This course counts as an elective credit, not an English credit. |
| S1100 | ENGLISH IYEAR COURSE (9) The theme for this course is coming of age . This course is designed to help students improve their reading, writing, and speaking skills through assignments based on a variety of literary works. The basic components of the course include a refinement of study skills, vocabulary skills, and test-taking skills, as well as a strong focus on the communication arts skills of listening, writing, reading, and speaking effectively. <u>Homework:</u> 20-30 minutes of reading daily. |
| S1120 | ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)YEAR COURSE (9-12) This course is for those students whose proficiency in any of the English language arts modalities (reading, writing, listening, or speaking) is significantly below that of their peers. Only students classified as Limited English Language Learners are eligible for this course. |
| S1150 | HONORS ENGLISH IYEAR COURSE (9) This is a course designed for students who want to be challenged and whose reading and writing skills are at or above grade-level. Students will read and study a variety of texts with a focus on analyzing literary devices, theme, tone, and story structure. Detailed writing assignments which develop skills in analysis, synthesis, argument and narrative writing, as well as other expository techniques, are an integral part of the curriculum. Activities also include a refinement of vocabulary, grammar, listening skills, research skills, and presentation skills. Note: Proficient or advanced 8th grade MAP score in English Language Arts is strongly recommended. Homework: 30 minutes of reading and/or writing daily. |
| S1200 | ENGLISH IIYEAR COURSE (10) The theme for this course is culture . Students will be challenged to use evidence from texts in both written and oral responses. For example, students will study the extent to which one's culture influences one's worldview, and incorporate textual evidence in a written argument. Research and film texts also play an important role in this course. Students will enhance their critical thinking skills by performing rigorous reading and writing tasks to synthesize learning. <u>Prerequisite:</u> English I <u>Homework:</u> 20-30 minutes of reading and/or writing daily. |
| S1250 | HONORS ENGLISH IIYEAR COURSE (10) This is a course designed for students who want to be challenged and whose reading and writing skills are at or above grade-level. Students will read and study a variety of texts with a focus on higher order analytical skills, such as discerning symbolism, figurative language and author's message. Students will discover universal truths in texts and make connections between these truths and the author's purpose, then apply this knowledge to their writing while exploring several patterns of development: character analysis, the researched essay, compare/contrast, and literary analysis. <u>Prerequisite:</u> English I Note: Earned a "B" or better in English I (strongly recommended) |

| S1300 | AMERICAN LITERATURE AND COMPOSITION |
|-----------------|--|
| S1370 COURS | ADVANCED PLACEMENT ENGLISH LANGUAGE AND COMPOSITION |
| S1400 (12) | WORLD LITERATURE AND COMPOSITIONSEMESTER COURSE The theme for this class is perspectives . Senior English offers many opportunities for students to synthesize their learning through rigorous writing and speaking tasks. Independent research, film study, and presentations go hand in hand with the study of print texts, and allows students to develop complex and nuanced understandings of the texts, films, and issues in the course. Students will focus on both literary and informational texts that includes film, photography and media coverage of newsworthy events. <u>Prerequisite:</u> American Literature or AP Language and Composition. <u>Homework:</u> 40 minutes of reading and/or writing daily. |
| S1460 (11/12 | ADVANCED PLACEMENT ENGLISH LITERATURE AND COMPOSITION |

an introductory college-level communication arts course. Daily instruction, discussion, and written work will focus on the identification and analysis of the rhetorical devices and strategies employed by writers. Students will be assessed on how well they use the language of rhetoric in analyses of texts, as well as their ability to effectively convey that knowledge in a college-level composition (a 5 or higher on the College Board's 9-point scoring guide). Scoring a 3 or better (out of 5) on the AP exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Completion of a summer reading and writing assignment is required for this course. This includes a commitment to a semester-long undertaking of a self-selected Author's Study project, which the student is expected to present in January.

Prerequisite: American Literature or AP Language and Composition

<u>Recommended:</u> A grade of "B" or higher in either American Literature or AP Language and Composition, a score of proficient or advanced on the English II EOC (if scores are available), teacher recommendation, proficient reading level

Homework: An average of 1 hour of reading and/or writing daily

<u>Note:</u> This course serves as a required prerequisite for all school publications courses unless the student obtains approval from the school publications adviser.

In this course, students create the school newspaper and manage its website. As part of the newspaper staff, students are expected to have the written and oral communication skills needed to publish a quality newspaper and website and may have to spend considerable amounts of time outside of class to complete assignments. <u>Prerequisite:</u> Course application; English I; Introduction to Journalism with a grade of B or above <u>Note:</u> Students may be exempt from this if granted approval by school publications advisor. **This course can be used in place of a Practical Arts credit or it can be repeated one or more times for English elective credit with advisor's approval**. Editors-in-Chief receive weighted grades.

This course is designed to help students develop better speaking and listening skills. Students will be able to

recognize the importance of effective speech communication in everyday life. Developing confidence and improving presentation skills will be explored through speech writing and the delivery of a variety of speeches. Students will learn to accept and give constructive criticism. Students will explore the role of debate and, through participation in a variety of debate formats, students will understand the importance of constructing a valid argument, finding appropriate supporting evidence, and evaluating and refuting the arguments of opponents. Students interested in pursuing a degree in Law, Politics or simply interested in improving their own personal discourse are highly encouraged to enroll in this course. A course in public speaking will better prepare students for required college oral communication courses.

<u>No Prerequisite</u>

Note: This course counts as an English elective credit.

This course focuses on senior-level writing and grammar skills, while highlighting communications skills to enhance job performance in the real world. This includes everyday skills, such as speaking and listening, analyzing reading selections, writing and revising, presentations, research, and collaborative projects. Units of study will include writing for business audiences, work correspondence, persuasive messages, reporting workplace data, developing speaking and listening skills, and communicating for employment. No Prerequisite

Note: This course counts as an English elective credit.

S1810 CREATIVE

WRITING......SEMESTER COURSE

(9-12)

In this course, students will receive a variety of assignments to explore a variety of writing genres and will introduce them to fun and engaging aspects of writing. Students will be encouraged to try new techniques to develop a personal style of writing. This course will center rich, powerful texts from varied genres as mentor texts. Emphasis will be placed on discussion, re-visioning work, class critiques and experimentation. It is through writing that life becomes more meaningful. Writing can clarify, heal, excite, encourage, remind, inspire, and make the world a better place. This class is a beginning for students to become authors, poets, free-lance writers, story tellers, script-writers, non-fiction writers, blog writers, and more.

<u>No Prerequisite</u>

<u>Note:</u> This course counts as an English elective credit.

FINE ARTS

(Visual Arts)

| S6000 (9-12) | INTRODUCTION TO ART AND DESIGN | YEAR COURSE |
|-----------------|---|--|
| | This is the basic exploratory course in art and design. Students are introduced to the elements and design and use them to find unique and individual solutions to artistic problems. Emphasis will be painting, rendering techniques, modeling, construction, art history, art vocabulary, and basic graph Internet as a research tool. This course is a foundational course for students pursuing a career pagraphic design, interior design, fashion design, architecture or other design-related field. (formerly | placed on drawing, nic design using the hway in art, |
| S6130 DRAWI | NG | YEAR |
| COURSI | E(10-12) This is an advanced art course. Students with a special interest in drawing and two-dimensional ar wide variety of techniques and media used by artists. Drawing is a skill that can be learned and hig study and practice. Students will learn about historically important artists, and will use skills, tech to express their personal ideals and beliefs. Emphasis will be placed on developing an art portfolic use in applying to colleges or for obtaining a job in fine arts, graphic arts, interior design, fashion of architectural school. <u>Prerequisite:</u> Aor B in Introduction to Art and Design or permission from Instructor. | rt will investigate a ghly developed with niques and styles appropriate for |
| S6140 | HONORS DRAWINGYEAR Honors Drawing is a preparatory class for juniors who plan to enroll in AP Studio Art in their senior will work to develop mastery of content and techniques within Drawing, 2-D and 3-D design. Stud- build an extensive portfolio of work which will be part of the portfolio submitted to the College Bo year in AP Studio Art. Students in Pre-AP Studio Art will build portfolios to submit to the College Bo credit in their senior year in AP Studio Art <u>Prerequisite:</u> Earned A or B in at least two Visual Arts courses or permission from the Instructor. | or year. Students ents will begin to ard the following |
| S6150 (12) | AP DRAWING | YEAR COURSE |
| | This Advanced Placement class is offered to students who have a special interest in Drawing, 2-D a Students will work to develop mastery of content and techniques within Drawing, 2-D and 3-D des create an extensive portfolio of work which reflects quality, breadth, and sustained investigation. S portfolios to the College Board provides students the possibility to earn college credit. | S6210 (9-12) | CRAFTSSEM | ESTER COURSE |
| | Students will learn about traditional and contemporary crafts and produce objects that are both fu decorative. Students will explore the tools and techniques used by many cultures, especially Native and African craftsmen/artists. Some of the crafts that may be explored are weaving, basket making papier-maché, tin work, and handmade paper. | e American, Indian, |
| S6220 (9-12) | PRINTMAKINGSEMES | TER COURSE |
| () 12) | Students are introduced to traditional and contemporary printmaking techniques. Students will cr prints such as linocuts, collagraphs, etchings, and silkscreen prints. Emphasis will be placed on usi principles as well as technical skills such as creating printing plates, inking, and using a printing pr printing. | ng basic design |
| S6310 | CERAMICS I | on techniques. |

- - This course is devoted to experimentation with a variety of methods, media, techniques, themes, and styles of three-dimensional sculpture from various sources. A cultural overview of art is used as a reference for student art production and study. Students demonstrate appropriate use of equipment in accordance with established safety guidelines.

FINE ARTS COURSES

(Performing Arts)

| S6630 (9-12) | JAZZ BAND |
|-----------------|--|
| | It is required that all students be auditioned. Instruments being utilized in this class include trumpets, trombones, saxophones, keyboards, lead and bass guitar, tuba, and percussion. The class will emphasize performance in the jazz and commercial music styles and will include instruction in jazz improvisation. The students will perform at least one concert each semester. <u>Prerequisite:</u> Audition and concurrently enrolled in Band. |
| \$6640 | BANDYEAR COURSE (9-12) Students will further their skills in interpreting and expressing music through performance of band literature carefully chosen to include classical transcriptions and contemporary band pieces within a comprehensive range of playing styles and periods. Participation at all concerts and public performances is required. Students will also perform as a marching band and pep band at selected athletic events, parades and other activities throughout the metro area. Students who have not been enrolled in Band must be auditioned by the director for proper placement. <u>Note:</u> The number of percussionists will be limited in the band. All students who wish to perform on percussion instruments will be asked to audition privately with the director. All percussionists will attend a special percussion clinic during the summer. <u>Prerequisite:</u> Audition. |
| TBA COURSE | BEGINNING BANDYEAR E (9-12) |
| | The UCHS Beginning Band is designed for students who did not get the opportunity to learn an instrument in middle school, or would like the opportunity to learn a different instrument from one they have previously studied. The goal of this class is to prepare the students for inclusion in the regular Band and Percussion classes at the conclusion of the course. No prior musical experience is necessary. The instruments offered are: Flute, Oboe, Clarinet, Saxophone (Alto, Tenor and Baritone), French Horn, Trumpet, Trombone, Baritone, Tuba and Mallet Percussion. Students are given the opportunity to try the different instruments before they choose one to focus on. Students will be supplied with lesson books but will need to provide their own instruments that are in working condition. Rental and purchase options will be discussed in class. The number of percussionists will be limited and decided upon during the first month of class. Students will perform in at least one concert during the semester. |
| S6650 | PERCUSSIONYEAR COURSE (9-12) Students will further their skills in interpreting and expressing music through performances of band and percussion literature. This literature is carefully chosen to include a wide variety of percussion music with a wide range of playing styles. Students are expected to participate as part of the high school marching band and pep band at events both at UCHS and throughout the St. Louis area. Participation at all performances is required. <u>Note:</u> The number of percussionists will be limited in the band. All students who wish to perform on percussion instruments will be asked to audition privately with the director. All percussionists will attend a special percussion clinic during the summer. <u>Prerequisite:</u> Attendance at summer percussion clinic, audition |
| S6680 | ORCHESTRAYEAR COURSE (9-12) Orchestra at UCHS provides an artistic, project-based, performance experience where students will learn and perform different styles and genres of music together as a group. Students will further their individual technical skills and confidence in performing on their stringed instruments, develop fluency in speaking and writing about the content, and make creative connections among different subjects and to the world around them. Students will perform on one concert per semester with opportunities for additional performance and creative experiences both during and after school." |

| S6665 Coursi | |
|-----------------|---|
| | Beginning Strings at UCHS provides an opportunity for students to learn an orchestral stringed instrument (violin, viola, cello or bass) as a new player that did not participate at the elementary or middle school level. (Students that received some strings instruction prior to high school but do not feel ready to join the full orchestra may also select this option as a refresher course). Students will learn to decode (read) the language of music, and will learn the technical performance skills needed to be successful at any level of playing in a step-by-step, supportive manner. |
| S6730 | CONCERT CHOIRYEAR COURSE (9-12) Admission to this course is by audition only. This is a class for students who want to study advanced music theory, advanced sight singing/aural training, and choral ensemble production. The repertoire will include standard and advanced high school and college literature. Students participating in this class will participate in a variety of appearances throughout the community and state. <u>Prerequisite:</u> Audition. |
| S6740 | WOMEN'S CHOIR |
| S6750 | MEN'S CHOIR |
| | This class is offered to male students interested in singing in a choral performance group. This class emphasizes the basics of singing and performance. |
| | <u>Note:</u> This class can be taken more than one time with permission of the instructor only. The group is required to perform a minimum of two concerts. |
| S6760 | DC MUSIC APPRECIATION |
| | STLCC MUS 114. Music Appreciation (MOTR MUSC 100). 3 Credit Hours. This class is a survey of various aspects of music including the philosophy, science, theory, anthropology, sociology, history, and physical act of producing music. A wide variety of musical styles and associative composers will be used to explore these aspects of music. Prerequisite: Reading Proficiency. |
| | |
| S6810 COURSI | ACTING ISEMESTER |
| | A hands-on course designed to introduce students to various elements of theater and to encourage students in further theater study. Students will examine the role that acting, directing, writing, sound, lights and set play in the creation of a production. Through warm-ups, monologue scene work and improvisation, students will learn how to become more comfortable on stage. Basic techniques of movement, voice projection, character development and performance will be taught. |
| S6820 | ACTING IISEMESTER |
| COURSI | This is a continuation of the work covered in Acting I in an advanced context. Students will engage in more intensive preparation of their craft. The creative, physical, emotional and mental aspects of performance are studied through scene work and audition techniques. This course also includes an introduction to directing and writing for theater. Written critiques and participation in a one-act play will be part of the final class project for the semester. Students may be able to take this course in multiple years with permission of the instructor. <u>Prerequisite:</u> successful completion of Acting I, or by permission of instructor. |
| | BEGINNING DANCE: INTRODUCTION TO MOVEMENTYEAR E (9-12) |
| | This course introduces students to an array of dance styles and techniques including classical ballet, jazz, tap, modern, Dunham Technique, African, more! Students will become familiar with basic skills and warm up combinations for each style. Students develop an understanding of the compositional elements of dance, and are required to perform in a school formal dance concert as well as the opportunity to perform in various district and |

| S6920 COURSI | INTERMEDIATE: FUNDAMENTALS OF DANCE |
|-----------------|---|
| | This course is designed for students who are becoming more serious about dance and have an interest in performing. Students must physically and verbally demonstrate a clear understanding of beginning dance vocabulary to participate in this class. Participation in workshops and residency programs (on/off campus) led by professional dancers and choreographers aid in the introduction of compositional elements throughout the year. Students contribute to produced works performed in the required formal dance concert as well as the opportunity to perform in various district and community engagements throughout the school year and summer break. Prerequisite: <i>Students must physically and verbally demonstrate a clear understanding of beginning dance vocabulary to participate in this class.</i> |
| | ADVANCED DANCE: MOVEMENT WITH MEANINGYEAR E (9-12) |
| | This course is for students who have studied dance extensively and desire to make dance a part of their daily lives. Students continue development in classical ballet, modern, tap, jazz, Dunham Technique, African, etc. Students participate in several residency programs throughout the year, workshops on/off campus as well as exposure to |

collegiate recruitment opportunities. Creating a collective within the class allows experimentation with partnering and fusion to develop choreography to be presented in the formal dance concert.

<u>Prerequisite:</u> Instructor Permission; must physically and verbally demonstrate a clear understanding of intermediate dance vocabulary to participate in this class.

S6940 INTERMEDIATE/ADVANCED: DESIGNING CHOREOGRAPHY......YEAR COURSE (9-12)

This course is ideal for students who have studied dance extensively and desire to create choreography. Students continue development in classical ballet, modern, tap, jazz, Dunham Technique, African, etc. Creating a collective within the class allows experimentation with partnering and fusion to develop choreography to be presented in the formal dance concert as well the opportunity to perform in various district and community engagements throughout the school year and summer break.

<u>Prerequisite:</u> Instructor Permission; must physically and verbally demonstrate a clear understanding of intermediate or higher dance vocabulary to participate in this class.

MATHEMATICS COURSES

3 Mathematics credits are required for graduation.

Seniors must enroll in a mathematics course during senior year if not meeting the college readiness benchmark of 22 on the ACT.

| S4105 | ALGEBRA 1 LAB (ELECTIVE CREDIT) |
|-----------------|---|
| S4140 COURSE | ALGEBRA 1YEAR |
| | Algebra 1 is a year-long course. Basic concepts and skills of elementary algebra will be covered. Students will analyze and explain the process of solving equations, and develop fluency writing, interpreting, and translating between various forms of linear equations and inequalities. Students will learn function notation and develop the concepts of domain and range. Additional topics will include translating expressions and equations, operations with real numbers, properties of real numbers, measures of central tendency, ratios and proportions. |
| S4240 COURSE | GEOMETRY |
| | Geometry is a year-long course. Students will study geometric concepts, mathematical logic, and formal deductive proofs. Students will build on their work with the Pythagorean Theorem in 8th grade to find distances, use a coordinate system to verify geometric relationships, including properties of triangles, quadrilaterals, and parallel and perpendicular lines. Students will establish triangle congruence criteria and will use congruence as a foundation for the development of formal proof. Additional topics will include angle relationships, 2-3 dimensional figures as well as embedded algebra concepts. <u>Prerequisite:</u> Algebra 1 |
| S4255 | HONORS GEOMETRYYEAR COURSE (9-10) This course is intended for students who enter with above-average mathematical and problem-solving skills. The students will study the same geometric concepts and topics that are covered in Geometry 1. However, they will be required to do more challenging problems and complex applications. An emphasis will be placed on the student's ability to prove basic theorems using a variety of formats. <u>Prerequisite:</u> Algebra 1. <u>Note:</u> B or better in Algebra 1 and proficient or advanced on Algebra 1 EOC is strongly recommended. |
| S4340 | ALGEBRA 2 |
| | |

generalize what they have learned about a variety of function families. Students will explore systems of equations and inequalities, and find and interpret their solutions. Students will identify zeros of polynomials and make connections between zeros of polynomials and solutions of polynomial equations. Additional topics will include operations with real numbers, rational expressions, factorization, solutions of linear and quadratic equations, graphs, rational, irrational, and complex numbers. Prerequisite: Geometry

S4355 HONORS ALGEBRA 2......YEAR COURSE (9-12)

This course is intended for students who have above-average mathematical and problem-solving skills and above average grades in Algebra 1 and Geometry. Students will study the concept of a function as it relates to algebraic, exponential, logarithmic, and trigonometric expressions. First-semester topics will include solutions of linear and quadratic equations, inequalities, and systems, operations with polynomials, rational and irrational expressions, and algebraic functions. Second-semester topics will include exponential, logarithmic and trigonometric functions, and trigonometric identities and equations. Prerequisite: Geometry 2.

Note: B or better in Algebra 1 and Geometry 2 is strongly recommended.

STLCC Math 140. Intermediate Algebra 3 credit hours.

This course is designed to provide the transition from high school algebra courses to college algebra/precalculus algebra. Its design is that of a college-level intermediate algebra course, complete with a college-level textbook. This course will help students avoid taking remedial/developmental math courses in college, which are costly and time-consuming and may not count toward degree requirements. This course can also provide a good foundation for students who want to take Precalculus the following year. Topics include operations on rational expressions, operations on radicals, solving quadratic equations, and the rectangular coordinate system are among the topics covered. This course is available for dual credit at STLCC as Math 140. Prerequisite: Algebra 2 or corresponding Accuplacer Score

S4450 DC PRECALCULUS......YEAR COURSE

(10-12)

1st semester: STLCC Math 160. Precalculus Algebra (MOTR 130). 3 hours 2nd semester: STLCC Math170. Precalculus Trigonometry. 3 hours

This dual credit course will offer students an opportunity to continue the study of advanced algebra topics that will prepare them for the study of calculus. Topics will include polynomial, rational, radical, exponential, logarithmic, and trigonometric functions, and an introduction to conics and vectors.

Prerequisite: Honors Algebra 2 or Intro to College Algebra, or corresponding Accuplacer Score Note: B or better in Honors Algebra 2 or Intro to College Algebra is strongly recommended.

S4610 PROBABILITY AND STATISTICS......YEAR COURSE

(10-12)

This course is designed as a general-purpose introduction to the field of statistics and probability. Students will need a working knowledge of algebra in order to successfully solve the problems in this course. The primary objective of this course is to enhance statistical literacy. Topics include organizing and displaying data using various forms of frequency distributions and analyzing data using measures of central tendency, measures of variation, measures of relative standing, probability, probability distributions, the central limit theorem, confidence intervals and hypothesis testing. Students will solve problems involving permutations and combinations. Prerequisite: Geometry.

STLCC Math 210. Analytic Geometry & Calculus. 5 credit hours.

Students will study and apply principles of calculus. Topics will include limits, derivatives, and integrals of algebraic and transcendental functions, approximations, applications, and modeling. This course is recommended for college-bound students who plan to major in mathematics or a math-related field. Students taking this course are strongly encouraged to take the AP exam offered in the spring. Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation.

<u>Prerequisite:</u> Precalculus

S4520 AP CALCULUS BC......YEAR COURSE (11-12)

STLCC Math 220. Analytic Geometry & Calculus II. 5 credit hours

Students will study the same topics and concepts covered in AP Calculus AB with more detail given to some areas. Additional topics covered include hyperbolic functions, arc lengths and surface of revolutions, indeterminate forms, improper integrals, trigonometric substitution, partial fractions, series, polar coordinates, and vectors. Students taking this course are strongly encouraged to take the AP exam offered in the spring. Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation.

Prerequisite: AP Calculus AB

Note: Students also have the option of taking this course as a semester-long course at St. Louis Community College through a Dual Enrollment agreement.

PHYSICAL EDUCATION COURSES

PRACTICAL ARTS COURSES

(*Career and Technical Education*)

In the introductory course of the PLTW Biomedical Science program, students explore concepts of biology and medicine to determine factors that led to the death of a fictional person. While investigating the case, students examine autopsy reports, investigate medical history, and explore medical treatments that might have prolonged the person's life. The activities and projects introduce students to human physiology, basic biology, medicine, and research processes while allowing them to design their own experiments to solve problems. Note: Students currently enrolled in Biology are highly recommended.

S7870 PLTW: HUMAN BODY SYSTEMS......YEAR COURSE (10-12) Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis in the body. Exploring science in action, students build organs and tissues on a skeletal Maniken®; use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration; and take on the roles of biomedical professionals to solve real-world medical cases. This course can count toward a third unit of Science credit for graduation purposes to be determined with a school counselor.

Prerequisite: Principles of Biomedical Science

In the Medical Interventions course, students will investigate the variety of interventions involved in the prevention, diagnosis and treatment of disease as they follow the lives of a fictitious family. A "How-To" manual for maintaining overall health and homeostasis in the body, the course will explore how to prevent and fight infection, how to screen and evaluate the code in our DNA, how to prevent, diagnose and treat cancer, and how to prevail when the organs of the body begin to fail. Through these scenarios, students will be exposed to the wide range of interventions related to Immunology, Surgery, Genetics, Pharmacology, Medical Devices, and Diagnostics. Each family case scenario will introduce multiple types of interventions and will reinforce concepts learned in the previous two courses, as well as present new content. Interventions may range from simple diagnostic tests to treatment of complex diseases and disorders. These interventions will be showcased across the generations of the family and will provide a look at the past, present and future of biomedical science. Lifestyle choices and preventive measures are emphasized throughout the course as well as the important role scientific thinking and engineering design play in the development of interventions of the future. This course can count toward a third unit of Science credit for graduation purposes. Prerequisite: Human Body Systems

S7890 PLTW: BIOMEDICAL INNOVATIONS......YEAR COURSE (12) In this capstone course, students apply their knowledge and skills to answer questions or solve problems related to the biomedical sciences. Students design innovative solutions for the health challenges of the 21st century as they work through progressively challenging open-ended problems, addressing topics such as clinical medicine, physiology, biomedical engineering, and public health. They have the opportunity to work on an independent project and may work with a mentor or advisor from a university, hospital, physician's office, or industry. Throughout the course, students are expected to present their work to an adult audience that may include representatives from the local business and healthcare community. This course can count toward a third unit of Science credit for graduation purposes.

Prerequisite: Medical Interventions

EMT ACADEMY......SEMESTER TWO COURSE (12) Students admitted into the EMT Academy must turn 18 prior to graduation. Students will take courses at the University City Fire Department two days pers week to prepare for the EMT licensure exam. Students will also receive instruction in driving and take the drivers licensing exam if needed. Students who have a 2.5 GPA or a 250 on the reading portion of the Accuplacer may have the option to take this course for 10 credit hours of dual credit with STLCC. Students who pass the licensing exam will be certified EMTs ready for employment. <u>Prerequisite</u>: Complete application and interview process

S7100 PERSONAL FINANCE.....SEMESTER COURSE (11-12)

Understanding and managing personal finances is key to one's future financial success. This one-semester course is based on the Missouri Personal Finance Competencies and presents essential knowledge and skills to make informed decisions about real-world financial issues. Students will learn how choices influence occupational options and future earning potential. Students will also learn to apply decision-making skills to evaluate career choices and set personal goals. The course content is designed to help the learner make wise spending, saving, and credit decisions and to

make effective use of income to achieve personal financial success. <u>Note:</u> **This course is required for graduation in the State of Missouri.**

S7140 PRINCIPLES OF ACCOUNTING......SEMESTER COURSE (9-10) Principles of Accounting provides students with an understanding of the accounting process and how it facilitates decision making by providing data and information to internal and external stakeholders. Students learn that accounting is an integral part of all business activities. They learn how to apply technology to accounting by creating formulas and inputting data into spreadsheets. Students also examine career opportunities and the professional certifications and designations earned by individuals in the accounting profession.

- S7220 MARKETING AND SOCIAL MEDIA......YEAR COURSE (10-12) An instructional program for students who are interested in a career in the field of marketing and management. This course includes instructional areas designed to provide an understanding of the fundamental marketing processes and an orientation to the American free enterprise system.
- S7160 BUSINESS MANAGEMENT......YEAR COURSE (11-12) This course is designed to help students develop an understanding of skills and resources needed to manage a business. Instruction includes a general overview of American business, forms of business ownership, personnel management, labor-management relations, public and human relations, taxation, and government regulations. The use of computers and software as tools in making business decisions in areas such as accounting, sales analysis, and inventory control is also introduced.

<u>Prerequisite:</u> Entrepreneurship II or Business Management, or concurrently enrolled

S7170 ENTREPRENEURSHIP I......YEAR COURSE (10-12) Using NFTE Curriculum this program provides a background for the development and operation of a business starting with the role of the entrepreneur in the economy to the development of a business plan and the application of specific marketing skills and concepts within the business environment.

S7210 SUPERVISED BUSINESS EMPLOYMENT (ONE OR TWO PERIODS)YEAR COURSE (11-12)

Supervised Business Employment prepares students for employment in the workplace. The academic and practical on-the-job experience relates to the student's career goal. Students who have taken business courses in a particular career path (Business, Management and Administration, Finance and Information Technology, Finance, Information Technology) are given the opportunity to work in a related occupation while still enrolled in school. The teacher-coordinator works with business and industry to place students in an occupation that will further develop competencies acquired by the student through class work. Prerequisite: Concurrently enrolled in a business course.

S7311 FAMILY LIVING AND PARENTHOODSEMESTER COURSE (11-12) This course focuses on the effects of parenting roles and responsibilities on strengthening the well-being of individuals and families. Students analyze roles and responsibilities of parenting; evaluate parenting practices that maximize human growth and development; evaluate external support systems and community resources that provide services for parents; and analyze physical and emotional factors related to beginning the parenting process. Careers related to parenting are investigated. Instruction emphasizes leadership, problem-solving, and communication skills in parenting techniques. This course can be taken in conjunction with Child Development for articulated credit at STLCC.

S7320 CHILD DEVELOPMENT......SEMESTER COURSE (10-12) This course will focus on understanding children's physical, mental, emotional, and social growth. Emphasis will be placed on learning to interact effectively with children, solve problems based upon children's health concerns at various developmental stages, assess the impact of quality child care on the child, family, and society, and make decisions that support ethics and professionalism in child development centers. This course can be taken in conjunction with Advanced Child Development for articulated credit at STLCC.

S7330 Dual Credit ADVANCED CHILD DEVELOPMENT......SEMESTER COURSE (10-12)

This course provides advanced study in child development and guidance, including the physical, social, and intellectual development of children. Actual experience in supervising children provides the opportunity to improve parenting skills, explore careers related to child development, and identify general employment skills. This course can be taken in conjunction with Child Development for articulated credit at STLCC. Prerequisite: Child Development; This class can be taken for UMSL Advanced Credit if taken with Child Development

Dual Credit FOUNDATIONS OF EDUCATION......SEMESTER COURSE (12) TBA This course is an introduction to teaching and includes observation hours at the elementary level. This course is the part of the UMSL Accelerated Credit Program. Prerequisite: Child Development and Advanced Child Development

This class is designed to introduce the principles of food preparation to interested students. Students will become familiar with safety and sanitation techniques, equipment, measuring and following a recipe. The class will spend at least 25% of class time in a hands-on kitchen setting. Food preparation will include quick breads, fruits, eggs and dairy recipes.

S7550 FOUNDATIONS OF RESTAURANT MANAGEMENT I......YEAR COURSE (10-12) The Culinary Arts I course is designed to introduce students to the basics of the restaurant, food service, and lodging industries, as well as employment opportunities within the hospitality industry. Students will review food safety and sanitation principles before they progress to food preparation. Soups, sauces, fruits, vegetables, and grain products will be the areas of study for food preparation. Communication essentials including workplace conduct, management skills, and meeting customer needs and expectations will be addressed, as well as the essentials needed in building a successful career in the food service, restaurant, and lodging industries. Prerequisite: General Foods.

Note: C or better in General Foods is strongly recommended.

S7560 FOUNDATIONS OF RESTAURANT MANAGEMENT II......YEAR COURSE (11-12) The focus of the second year of this two-year program is actual food production. The course will include food preparation techniques to appropriately produce breakfast foods, sandwiches, salads, garnishes, meat, poultry, seafood, desserts, and baked goods. In addition to food preparation, the course will cover nutrition, cost controls, purchasing, inventory management, marketing, and sustainability of the restaurant and food service industry. Prerequisite: Foundations of Restaurant Management.

Note: C or better in Foundations of Restaurant Management is strongly recommended.

S7620 DRAFTING & DESIGN TECHNOLOGY......YEAR COURSE (10-12) Drafting & Design Technology will provide students with the opportunity to become familiar with the fundamentals of technical drawing and the significance it has in 21st century life. This course allows the student to explore the

major areas of machine and electronic drafting. Areas to be covered include sketching, lettering, mechanical drawing, pictorials, views of objects, and dimensioning. Drawings will be assigned with emphasis on accuracy, proper line technique, and neatness. Mechanical drawing and/or Computer Aided Drafting (AutoCAD, Autodesk) will be utilized to complete drawings.

- S7720 CONSTRUCTION TECHNOLOGY......YEAR (10-12) Students will build upon their learning in Woodworking and prepare for entry in a carpentry pre-apprenticeship or application for North Technical High School's carpentry program. Also suitable for students in the Engineering Program or students who are interested in architecture. <u>Prerequisite:</u> Woodworking and Home Repair
- S7810 PLTW: INTRODUCTION TO ENGINEERING AND DESIGN (IED)......YEAR COURSE (9-12) The major focus of IED is the design process and its application. Through hands-on projects, students apply engineering standards and document their work. Students use industry standard 3D modeling software to help them design solutions to solve proposed problems, document their work using an engineer's notebook, and communicate solutions to peers and members of the professional community.
- S7840 PLTW: ENGINEERING DESIGN & DEVELOPMENT (EDD)......YEAR COURSE (12) The knowledge and skills students acquire throughout PLTW Engineering come together in Engineering Design and Development as they identify an issue and then research, design, and test a solution, ultimately presenting their solution to a panel of engineers. Students apply the professional skills they have developed to document a design process to standards, completing Engineering Design and Development ready to take on any post-secondary program or career.

<u>Prerequisite</u>: Computer Science Principles, Introduction to Engineering Design and Principles of Engineering.

- S7830 AP COMPUTER SCIENCE PRINCIPLES (AP CSP)......YEAR COURSE (10-12) AP Computer Science Principles helps students develop programming expertise and explore the workings of the Internet. Projects and problems include app development, visualization of data, cyber-security, and simulation. Students use Python® as a primary tool and incorporate multiple platforms and languages for computation, this course aims to develop computational thinking. Code.org is recognized by the College Board as an endorsed provider of curriculum and professional development for AP® Computer Science Principles (AP CSP).

S7920 AP COMPUTER SCIENCE A......YEAR COURSE (11-12) AP CS A introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design. These techniques represent proven approaches for development solutions that can scale up from small, simple problems to large, complex problems. By the end of this course, students will be able to: Design and implement computer-based solutions to problems. Use and implement commonly used algorithms and data structures. Develop and select appropriate algorithms and data structures to solve new problems. Write, run, test and debug solutions in the Java programming language. Read and understand programs consisting of several classes and interacting objects. Read and understand a description of the design and development process. Understand the ethical and social implications of computer use. Prerequisite: AP Computer Science Principles

S7930 LAUNCH CODE 101 High School......YEAR COURSE (11-12) LaunchCode 101 is an introductory computer science course where students learn how to think like a developer as they use the Python programming language to solve problems and make cool things happen on the screen. After mastering some fundamental coding skills, students combine Python with HTML and CSS to build interactive web apps. Each semester students develop independent projects to show off what they have learned. *High school Launch Code certificate given with the completion of this course. Students will then qualify for continued learning opportunities with LaunchCode- including possible apprenticeships. Prerequisite: 11th or 12th grade

AIR FORCE JUNIOR RESERVE OFFICER TRAINING CORP COURSES

MINIMUM GRADUATION REQUIREMENTS: None. Course is for elective credit.

The mission of the AFJROTC program is to build better citizens for America. The goals of the program are to instill values of citizenship, service to the United States, personal responsibility, and a sense of accomplishment in high school students. The objectives of AFJROTC are to educate and train high school cadets in citizenship; promote community service; instill responsibility, character, and self-discipline; and provide instruction in air and space fundamentals.

HEALTH & WELLNESS NOTE: All courses include the JROTC wellness program, which is a minimum of one day a week (usually Friday) of physical fitness exercises and the development of an individual lifetime health and wellness plan. Cadets will be given the opportunity to put into practice the wellness concepts that are taught in Leadership Education I. Activities include team sports enhancing team building and leadership skills. Personal improvement will be rewarding. The program comprises 19 exercises (including the 1-mile run). The exercises develop all muscle groups and provide sufficient anaerobic and aerobic intensity.

THE SCIENCE OF FLIGHT/ CITIZENSHIP, CHARACTER, &

AIR FORCE TRADITIONS/DRILL & CEREMONIES

The Science of Flight is designed to acquaint the student with the aerospace environment, the human requirements of flight, principles of aircraft flight, and principles of navigation. The course begins with a discussion of the atmosphere and weather. After developing an understanding of the environment, how that environment affects flight is introduced. Discussions include the forces of lift, drag, thrust, and weight. The portion on the Human Requirements of Flight is a survey course on human physiology. Discussed here are the human circulatory system, the effects of acceleration and deceleration, and protective equipment. Leadership Education 1 introduces cadets to the Air Force Junior Reserve Officer Training Corps (AFJROTC) program providing a basis for progression through the rest of the AFIROTC program while instilling elements of good citizenship. It contains sections on cadet and Air Force organizational structure; uniform wear, customs, courtesies and other military traditions, health & wellness, fitness, individual self-control, and citizenship. Drill & Ceremonies introduces the importance of drill with regards to basic military drill. Cadets will learn basic commands and characteristics of the command voice, identify the types of commands used during the basic military drill movements and the necessary qualities of the command voice. Drill may continue throughout each AS year.

A JOURNEY INTO AVIATION HISTORY/COMMUNICATION, AWARENESS, & LEADERSHIP A Journey into Aviation History focuses on the development of flight throughout the centuries. It starts with ancient civilizations, then progresses through time to modern day. The emphasis is on civilian and military contributions to

aviation; the development, modernization, and transformation of the Air Force; and a brief astronomical and space exploration history. It is interspersed with concise overviews of the principles of flight to include basic aeronautics, aircraft motion and control, flight power, and rockets. Communication, Awareness & Leadership stresses communications skills and cadet corps activities. Much information is provided on communicating effectively, understanding groups and teams, preparing for leadership, solving conflicts and problems, and personal development. Written reports and speeches complement the academic materials. <u>Prerequisite:</u> Pass Aerospace Science 1 and permission of Senior Aerospace Science Instructor/Aerospace Science Instructor.

<u>Prerequisite:</u> Pass Aerospace Science 2 and permission of Senior Aerospace Science Instructor/Aerospace Science Instructor.

<u>Prerequisite:</u> Pass Aerospace Science 3 and permission of Senior Aerospace Science Instructor/Aerospace Science Instructor.

SCIENCE

3 Science credits are required for graduation.

| S3110 (9) | PHYSICAL SCIENCE. | YEAR COURSE |
|------------------|--|-------------------------------|
| | This course includes problem solving by using scientific methods, tools of measurement, and scie covered include properties and structures of matter, physical and chemical changes in matter, law and energy. | |
| S3210 | BIOLOGY | YEAR COURSE |
| (10-12) | Students will be introduced to the scientific study of living things. First semester biology covers of genetics, biotechnology, biochemistry. Second semester biology covers evolution, classification, m ecology, and comparative zoology. Laboratory experiments are frequently performed. Students will End-Of-Course Biology Exam near the end of their second successful semester of Biology. Prerequisite: Physical Science. | icroorganisms, |
| S3250 (9-10) | HONORS BIOLOGY | YEAR COURSE |
| (* 10) | This class is the Pre-AP equivalent of Biology. First semester biology covers cellular biology, genet biochemistry. Second semester biology covers evolution, classification, microorganisms, ecology, z zoology. Laboratory experiments are frequently performed and students will participate in the UC biotechnology debate in the spring. Students will take the Missouri End-Of-Course Biology Exam second successful semester of Honor Biology. <u>Prerequisite:</u> Physical Science or 8th grade teacher recommendation. <u>Note:</u> B or better in Physical Science is strongly recommended. | and comparative CHS annual |
| S3310 | CHEMISTRY | YEAR COURSE |
| (10-12) | Topics covered include chemical bonds, naming compounds, types of reactions, mole and acid/ba <u>Prerequisite:</u> Algebra 1, Biology | se chemistry. |
| S3350 | HONORS CHEMISTRY | YEAR COURSE |
| (10-12) | This course is the Pre-AP equivalent of Chemistry. Topics covered include chemical bonds, naming of reactions, gas laws, stoichiometry, mole and acid-base chemistry. Topics covered in Pre-AP Chemistry and quantitative level than those taught in Chemistry. Students must par Pre-AP Chemistry to remain enrolled in second semester Pre-AP Chemistry. Prerequisite: Algebra 1, Biology Note: B or better in Physical Science, Algebra and/or Biology is strongly recommended. | mistry will be |
| | ECOLOGY | YEAR |
| COURSE | Ecology is the scientific study of living organisms and how they interact with their environment. S examine the social relationships among and between animal species. This study will include a loo effects of environmental factors and geographic distribution of animals and plants. Students will and have experiences in the field and lab. <u>Prerequisite:</u> Biology. | k at causes and |
| S3510 | PHYSICS | YEAR COURSE |
| (10-12) | Students will be introduced to theories (models) of the physical world, and to the relationship of the people and the times in which they were first developed. Topics will include mechanics, elect magnetism, and atomic physics. This course includes extensive problem solving. <u>Prerequisites:</u> Completed Biology and Algebra 2 or taken Algebra 2 concurrently. | |
| S3610 (11-12) | AP Biology | YEAR COURSE |

This is a rigorous college level course. Topics covered include molecular and cellular biology, physiology, population biology, taxonomy, ecology, and behavior. Students are expected to do extensive out of class preparation. Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Students must also enroll in AP Biology Lab. Students must pass first semester AP Biology to remain enrolled in second semester AP Biology. Although not a prerequisite, students should highly consider taking Physics before taking a second biology course. <u>Prerequisites:</u> Physical Science, Biology and Chemistry.

<u>Note:</u> B or better in Physical Science, Biology and Chemistry is strongly recommended

| S3611 (11-12) | AP BIOLOGY LABYEAR COURSE |
|------------------|--|
| (11 12) | This lab course is taken simultaneously with AP Biology. Lab meets during another period of the day to allow for additional laboratory time. |
| S3620 (11-12) | AP CHEMISTRY |
| () | Students will explore the ideas developed in the first-year chemistry course in greater depth as well as learn new material. Topics covered will include quantum theory, measurement, bonding, thermochemistry, thermodynamics, equilibrium, kinetics, and acid-base chemistry. Students are expected to do extensive out of class reading and preparation. Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Students must also enroll in AP Chemistry Lab. Students must pass first semester AP Chemistry to remain enrolled in second semester AP Chemistry. Prerequisites: Biology and Algebra 2. Note: B or better in Biology and Algebra 2 is strongly recommended. |
| S3621 (11-12) | AP CHEMISTRY LAB |
| (11-12) | This lab course is taken simultaneously with AP Chemistry. Lab meets during another period of the day to allow for additional laboratory time. |
| S3631 (11-12) | AP PHYSICS LABYEAR COURSE |
| (11-12) | This lab course is taken simultaneously with AP Physics. Lab meets during another period of the day to allow for additional laboratory time. |
| S3710 | HUMAN ANATOMY AND PHYSIOLOGY (DUAL CREDIT - BIOLOGY 109)YEAR COURSE (11-12) STLCC BIO 109. Human Biology (MOTR LIFS 100). 3 Credit Hours. This course is an introduction to basic human structure, function and the human body's interaction with its surroundings, including cell theory, genetics, systems biology, ecology and evolution. This course does not fulfill any of the Allied Health and Nursing program requirements at St Louis Community College. This course may fulfill Allied Health and Nursing program requirements at other institutions. |

Prerequisites: Physical Science, Biology and Chemistry and reading proficiency.

SOCIAL STUDIES

3 Social Studies credits are required for graduation.

| S2210 | U.S. HISTORY |
|--------------|---|
| (9) | University City requires students to take this course during the sophomore year. Students will survey United States history from the end of the 19th century to the present with emphasis on the 20th century. Students will analyze issues in great detail and read a variety of materials. Special attention will be given to the history of African Americans, Indigenous and Native Americans, women, and the labor movement. This course will trace the ideas and traditions that are fundamental to the American government while focusing on significant individuals and organizations that have influenced the American political system. Considerable emphasis will be placed on current problems, civil rights, world leadership, capitalism, and the U.S. economic system. |
| S2250 (9) | HONORS U.S. HISTORY |
| | University City requires students to take this course during the sophomore year. In this course, students will survey United States history from the end of the 19th century to the present. Study topics include the social, economic, and political development of the nation throughout the 20th century. Study topics also include women, African Americans, and other minorities. Learning activities include research projects, role-playing, primary and secondary source evaluations, debating, inductive and deductive reasoning activities, and other hands-on student learning. Students will complete a major paper or project each semester. <u>Prerequisite:</u> Teacher recommendation. |
| | WORLD HISTORYYEAR |
| COURS | E (10) The purpose of the study of World History is to create a better understanding of why individuals, families, communities, and nations cooperate and compete with one another. Exploring how and why ideas from the past have worked or failed is essential to developing critical and independent thinkers who can make positive contributions to the world. Topics will include Eastern and Western philosophy and major religions; European, Asian, and African foundations; Nationalism, Imperialism, and Democratization; historic events in Africa, Asia, Europe, and the Americas; historical international conflicts; and much more. |
| S2170 | AP/DC WORLD HISTORY |
| | GOVERNMENTYEAR |
| COURS | E (11) Missouri law requires that all students take and pass at least one semester of a government or civics class |
| | and pass the Missouri and U. S. Constitution exams in order to meet state graduation requirements. Students in this course will learn about the foundations of the government of the United States of America, the State of Missouri, and local governments. Students will have learning activities to help understand the three branches of |

government and how they work, including an in-depth study of the political system and the roles of citizens in this process. Students will also compare other political systems and philosophies with the democratic republic of the U.S. A major goal is that students (all of whom will soon be able to vote) will be well-informed citizens who understand the political processes that operate around them locally, statewide, and nationally.

(11-12)

1st Semester: STLCC PSC 101. Introduction to American Politics (MOTR POSC 101). 3 Credit Hours 2nd Semester: STLCC PSC 103. State and Local Politics 3 Credit Hours Missouri law requires that all students take and pass at least one semester of a government or civics class and pass the Missouri and U.S. Constitution exams in order to meet state graduation requirements. Students in this course will learn about the foundations of the government of the United States of America, the state of Missouri, and local government. Students will study in depth the U.S. political system, historical documents, individuals and organizations that have impacted the government from pre-colonial days through the 21st century, and the roles and responsibilities of citizenship. This rigorous course parallels college-level courses and meets the expectations of the College Board for a Government Advanced Placement course. Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Summer reading of designated books and documents are a requirement of this course. Prerequisite: U.S. History. Note: B or better in U.S. History is strongly recommended.

S2510 PSYCHOLOGY.....SEMESTER COURSE

(11-12)

This is a survey course covering various psychological concepts. Topics include development, socialization, perception, communication, deviant behavior, pathology, and personality theory. Students will be required to write at least four analytical papers during this course. Prerequisite: U.S. History.

S2550 AP PSYCHOLOGY......YEAR COURSE (11-12) This is a survey course covering various psychological concepts. Topics include development, socialization, perception, communication, deviant behavior, pathology, and personality theory. Students will be required to write at least four analytical papers during this course. This rigorous course parallels college-level courses and meets the expectations of the College Board for a Psychology Advanced Placement course. Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Summer reading of designated books and documents are a requirement of this course.

Prerequisite: U.S. History. B or better in a prior social studies course is strongly recommended

- S2710 LAW AND YOU.....SEMESTER COURSE (11-12) Law and You is a year-long elective course that teaches the basic understanding of the foundations of law. Major units include basic foundations and principal of legal matters, criminal law, civil law, family law, consumer law, juvenile law, and constitutional law.
- S2720 SOCIAL JUSTICE......SEMESTER COURSE (11-12) Social Justice is a semester course that teaches the basic understanding of the foundations of law and the evolving interpretation of individual civil rights and liberties. Students will be introduced to the tools of inquiry through minor and major projects requiring the individual or team research. Students will be required to seek solutions to social problems using these methods that are scientifically and logically sound. Students will use the sociological perspective to investigate societal conditions and examine the laws relating to social institutions such as family, education. religion, politics, and economics. Students will use the three lenses of sociology: Structural-Functional, Symbolic Interaction, and Critical Theory to discuss the social change in developing and advanced nations and the essentials of ethnic, urban, industrial, and political sociology. Prerequisite: U.S. History

1st Sem: STLCC HST 137. African-American History Through Reconstruction (MOTR HIST 101AA). 3 Credit Hours. 2nd Sem: STLCC HST 138. African American History From Reconstruction to Present (MOTOR HIST 102AA). 3 **Credit Hours**

A dual credit option may be available based upon student enrollment. Students will survey the experiences of

enslaved Africans and their African American descendents from the year 1619-present. This course focuses on the history and culture of African Americans and explores different aspects of contemporary American life, from mass incarceration to rush-hour traffic, that have their roots in slavery and its aftermath. From the Transatlantic slave trade to Reconstruction, students will study the lived and shared experiences and place the legacy of slavery and the contributions of African Americans at the center of our national narrative. <u>Prerequisite:</u> U.S. History.

WORLD LANGUAGE COURSES

| S5110 (9-12) | FRENCH I | YEAR COURSE |
|------------------|--|---|
| (*) | This introduction to the French language is available to students with no prior world language expensive students who explored French in elementary or middle school. Students will emphasize speaking a learning the vocabulary of daily life and such basic skills as making a purchase, asking directions, a menu. The course includes audio and video lessons which supplement the textbook. | nd listening skills, |
| S5120 (9-12) | FRENCH II | YEAR COURSE |
| (*) | Second-year students will practice conversational skills, expand their knowledge of important gran structures and verb tenses, and begin writing original paragraphs in French. There is a special focu the French-speaking world which includes units on the Caribbean and Africa. Students will use the research and greatly expand their French vocabulary. <u>Prerequisite:</u> French I or French Ia and Ib. | s on the cultures of |
| | FRENCH III | YEAR COURSE |
| (10-12) | Third-year students will continue their study of grammatical structures and emphasize writing and Conversational activities will be based on themes, such as leisure activities, health, communication spring semester will include an introduction to French literature. Students will use terminology to interest. <u>Prerequisite:</u> French II. | s, and travel. The |
| S5140 | FRENCH IV | |
| (11-12) | | |
| | French IV combines the study of French grammar, civilization, and literature. Grammatical studies i introduction of the compound tenses, the subjunctive mood, and the appropriate use of pronouns. Survey French civilization, emphasizing vocabulary and conversational skills. The spring semester reading of a novel and the writing of short compositions on topics of historical and literary signification. Prerequisite: French III. | Students will will include the |
| S5160 (11-12) | AP FRENCH | YEAR COURSE |
| (11-12) | This course combines the study of French grammar, civilization, and literature at an advanced level placement course emphasizes skills such as translating articles and editorials from newspapers, manews shows, preparing short speeches in French, comprehending audio programs and excerpts, an selected works of nationally designated authors. All activities and skill acquisition in the target lang student prepare for the AP Exam in the spring. Note: Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Prerequisite: French IV | agazines and daily d reading from guage will help the |
| S5210 (9-12) | LATIN I | YEAR COURSE |
| | This course of study begins with vocabulary and basic grammatical forms. Reading and translation means of practicing these forms. Roman history and culture are examined as the context in which t developed. Correspondence between Latin and English language arts is noted. | |
| S5220 (9-12) | LATIN II | YEAR COURSE |

| | This course of study continues with vocabulary and basic grammatical forms. Reading and translation are used as a means of practicing these forms. Students delve deeper into Roman history and culture as the context in which the Latin language developed. Students continue to learn the relationship between Latin and English language arts. <u>Prerequisite:</u> Latin I or Latin 1a and 1b. |
|------------------|--|
| | LATIN IIIYEAR COURSE |
| (10-12) | As an advanced course, student vocabulary and basic grammatical forms continue to be expanded. Reading and translation focus on more complex text with the study of Latin literature, as well as the practice of complex grammatical forms. Roman history and culture are more deeply examined. <u>Prerequisite:</u> Latin II. |
| S5240 (11-12) | LATIN IVYEAR COURSE |
| | This advanced Latin course prepares students for the National Latin Exam with extensive literature, vocabulary and grammar. Students continue to explore Roman history and culture. <u>Prerequisite:</u> Latin III. |
| S5250 (11-12) | AP LATINYEAR COURSE |
| (11-12) | This course of study is designed to prepare students for the Advanced Placement examination given in May. This course will focus on an in-depth study of the Aeneid, stressing translation, literary devices, essay writing, grammar review, and vocabulary acquisition. Students taking this course are strongly encouraged to take the AP exam offered in the spring. |
| | <u>Note</u> : Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. <u>Prerequisite</u> : Latin IV |
| S5310 | SPANISH IYEAR COURSE |
| (9-12) | Spanish I is a beginning course which introduces basic concepts of Spanish. Emphasis is placed on intensive audio-lingual drills that concentrate on correct pronunciation, intonation, simple conversation, and auditory perception. This additional emphasis on sentence structure, vocabulary, and reading permit greater familiarity with varied aspects of Spanish culture. Games, songs, movies, contests, and theme readings all will add spice to this course. |
| S5320 (9-12) | SPANISH IIYEAR COURSE |
| () 12) | This continuing course after Spanish I presents more challenging concepts from the Spanish language. Students learn more about the lives, countries, and cultures of Spanish-speaking people. Students will learn more advanced grammar and vocabulary in order to improve their basic communication skills. <u>Prerequisite:</u> Spanish I or Spanish 1a and 1b. |
| S5330 (10-12) | SPANISH III |
| () | This course of intermediate Spanish concentrates on speaking and listening skills with an increased emphasis on practical dialogues and conversation. Practice drills are designed to develop facility in the use of the Spanish language while attention is given to the cultures of several Hispanic countries and to Spain. The reading of some introductory literary works enhances the "gusto" of this level of Spanish. <u>Prerequisite:</u> Spanish II. |
| S5340 (11-12) | SPANISH IVYEAR COURSE |
| (11-12) | This more advanced course of presentation and review serves to solidify self-confidence and some research skills of the individual student. Language structure is taken through most tenses with concentrated review in spoken and written formats. Readings in several works of prose brighten the outlook of this course. <u>Prerequisite:</u> Spanish III. |

| S5350 | AP SPANISH | YEAR COURSE |
|---------|------------|-------------|
| (11-12) | | |

(11-12)

The Advanced Placement course emphasizes refining the product of individualized assignments and capabilities. Skills such as translating articles and editorials from newspapers and magazines, preparing short speeches in Spanish, comprehending audio programs and excerpts, and reading from selected works of nationally designated authors all help to ready the student for the AP exam.

Note: Students who take this course are expected to take the AP Exam in May. Scoring a 3 or better on this exam will yield 3-6 credit hours at the vast majority of colleges and universities in the nation. Prerequisite: Spanish I

SPECIAL SCHOOL DISTRICT COURSES

| MATH: PRE ALGEBRA | YEAR COURSE |
|---|---|
| Pre-Algebra offers students an opportunity to continue their study on the fundamental mathemati learned at the middle school level and prepare for transition into Algebra 1. Students will focus on relationships, order of operations, and ways of representing them. Basic characteristics of two and shapes will be covered. Students will learn about the measurable attributes of objects and use app find area and perimeter. Using data displays, students will analyze and make interpretations, calcu median and mode. Students will understand and apply basic concepts of probability. Additional to representing and analyzing mathematical situations using elementary algebra. Students will comp pace compatible with their learning and use supplementary material for multi-sensory experiences <u>Prerequisite:</u> IEP team decision. | rational numbers, l three dimensional ropriate units to late the mean, pics include lete the course at a |
| MATH: PARALLEL ALGEBRA I | EAR COURSE |
| Parallel Algebra 1 is a modified curriculum course which uses supplementary materials and activity basic concepts and skills of elementary algebra. Skills to be covered at a gradual pace include: anal explaining the process of solving equations, writing, interpreting, and translating between forms of and inequalities, function notation, domain and range, translating expressions and equations, open numbers, properties of real numbers, measures of central tendency, ratios and proportions, system exponential functions, and operations with polynomials. <u>Prerequisite:</u> IEP team decision. | yzing and of linear equations rations with real |
| MATH: PARALLEL GEOMETRY. | .YEAR COURSE |
| (9–12) Parallel Geometry is a year-long geometry sequence. Students will study geometric concepts, math deductive proofs. Students will build on their work with the Pythagorean Theorem in the 8th grad use a coordinate system to verify geometric relationships, including properties of triangles, quadriparallel and perpendicular lines. Students will establish triangle congruence criteria with postulat topics will include angle relationships, 2-3 dimensional figures as well as embedded algebra concercomplete the course at a slower pace and use supplemental materials for learning. During the sect students' experience with two-dimensional and three-dimensional objects is extended to include i explanations of circumference, area, and volume formulas. Students will continue to work with the Theorem, including properties of special right triangles. Students will develop the Laws of Sines are to find missing measures of general triangles. Students will study geometric concepts, mathematic deductive proofs. Students will use the languages of set theory to expand their ability to compute a probabilities of compound events. Students will complete the course at a slower pace and use supplementary is a slower pace. | e to find distances, ilaterals, and es. Additional epts. Students will cond semester, nformal e Pythagorean nd Cosines in order cal logic, and and interpret the |
| MATH: PARALLEL ALGEBRA II | YEAR COURSE |
| Parallel Algebra 2 is a modified curriculum course which uses supplementary materials and activity algebra skills and progress to more advanced algebra concepts. Skills to be covered at a gradual pa functions, systems of equations and inequalities, polynomial equations, operations with real numb expressions, factorization, solutions of linear and quadratic equations, exponential functions, and polynomials. <u>Prerequisite:</u> Algebra I, Geometry, and IEP team decision. | ice include: per rational |
| ENGLISH LANGUAGE ARTS: PARALLEL ENGLISH I | |

focus on the choices authors make as they tell their stories. Students will improve critical reading and analysis skills through making inferences, noticing patterns, and recognizing symbolism. There is a focus on grammar and writing skills.

Prerequisite: IEP team decision.

Prerequisite: English I and IEP team decision.

Students will be exposed to a variety of texts which include novels, short stories, poetry, and film which are considered relevant and unique to the American experience. Through specialized instruction, students will understand the historical, social and literary context and relevance of texts. Students will increase, develop and strengthen writing abilities in a variety of academic genres. Students will increase their ability to understand the connections of standard English usage and conventions in formal assignments. Students will increase their interpersonal communications skills through a variety of activities, group projects, and speaking and listening exercises in the classroom.

Prerequisite: English II and IEP team decision.

ENGLISH LANGUAGE ARTS: PARALLEL WORLD LITERATURE AND COMPOSITION......YEAR COURSE (12)

Students will be exposed to a variety of texts which include novels, short stories, poetry, and film which are considered relevant to the human race throughout the world. Through specialized instruction, students will understand the historical, social and literary context and relevance of texts. Students will increase, develop and strengthen writing abilities in a variety of academic genres. Students will increase their ability to understand the connections of standard English usage and conventions in formal assignments. Students will increase their interpersonal communications skills through a variety of activities, group projects, and speaking and listening exercises in the classroom.

<u>Prerequisite:</u> American Literature and IEP team decision.

This is a course designed to parallel the Physical Science course. Students will explore a variety of topics associated with Physics and Chemistry. These topics include properties and structures of matter, physical and chemical changes in matter, laws of motion, work, and energy. Students will be required to read informational text and write in this course.

Prerequisite: IEP team decision

Social Studies: Parallel Government......Year Course (11-12)

Students will examine the foundations of government in the United States of America, the State of Missouri, and local government. They will participate in learning activities that will help them understand the three branches of government and how they work. Included in their learning experiences are in-depth study of the U.S. political system and the role of citizens in this process. The Government course meets the State of Missouri's requirement for a civics course. Students will also focus on IEP goals in the areas of reading, writing, organization, and study skills. Course expectations include successfully passing a state required examination on the provisions and principles of American Civics as well as completion of the Missouri End of Course assessment.

| PRACTICAL ARTS: COMMUNITY WORK EXPERIENCE | , , |
|---|--------|
| ELECTIVE: CAREERS 1&2 | |
| (10-12) This course is designed for students with an IEP, age 16 and older who have goals reflecting a need for work experience in a competitive setting, and who are eligible as clients of Vocational Rehabilitation (VR). Students will explore potential careers using a variety of resources. Students will learn how to find and maintain employment, and earn competitive wages. <u>Prerequisite:</u> Enrolled in Work Experience Program. <u>Note:</u> Elective Credit. | l |
| ELECTIVE: LEARNING STRATEGIES-Math, Literacy and/or Social and Emotional Skills | |
| (9-12) Students will explore what it means to be a learner, what learning looks like, why it is important, and how learning can impact a person's life. As students explore the fundamentals of learning, students will be exposed to a wide variety of strategies that can be applied to their core and elective courses. Students will also work on developing stronger social/emotional, reading, writing, organizational, study, and task related skills. <u>Prerequisite:</u> IEP team decision. | |
| Learning Strategies: Literacy SkillsYEAR COURSE (9-12) | |
| The purpose of this course is to enable students with disabilities to acquire and generalize strategies and skills acros the academic community and to employment settings to achieve goals based on reading, writing, speaking and listening skills addressed in the student's individual education plan (IEP.) This course is designed for students with disabilities who need intensive individualized interventions in reading, writing or listening/speaking skills. This course may address academic skills deficits enabling students to learn strategies to access the general curriculum and close educational gaps. Prerequisite: IEP Team Decision | |
| Learning Strategies: Math Skills | |
| Students will learn, demonstrate, and use learning strategies and study skills with a focus on math. Emphasis will be given to academic areas of concern. Students will be exposed to a wide variety of strategies that can be applied to their core and elective courses. Students will also work on developing stronger reading, writing, organizational, study and task related skills. Student's IEP goals will be addressed. Prerequisite: IEP Team Decision | |
| Learning Strategies: Social/Emotional/Study Skills | |
| This class will offer critical thinking and decision making skills necessary to analyze and respond to ever-more complex situations and to recognize, understand, and appropriately manage their own emotions, self discipline and regulation. Students will Learn how to control impulsive behavior, accurately identify choices, assess the consequences of actions, and make responsible decisions and strengthen task focus skills. The class will be taught | |

using evidence based curriculum such as strong teens, brain wise and activities that build school success.

(9-12)

This support transition program is a multi-disciplinary program designed to build a strong academic and emotional foundation which will empower students to use their strengths to overcome barriers to academic success and actualize their full potential. Using a social-emotional curriculum, this course offers a safe and supportive environment where students can explore the issues that might be contributing to their academic difficulties. Students must meet certain entry criteria as determined by the U-Zone building team. Prerequisite: UZONE team recommendation.

Students get hands-on experience in a variety of jobs at a local business through a volunteer program. They also experience job-related activities such as completing applications and interviewing and exploring independent living skills such as banking and budgeting. Students are required to get a Hepatitis A shot before beginning. A uniform is required: white polo-style or button-up shirt, black slacks, and black shoes for males; white blouse or polo-style top, black slacks or dress of appropriate length, and black shoes for females. Transportation is provided. This class requires a block of time involving three class periods (1, 3, 4). Credits are elective. <u>Prerequisite:</u> Completion of at least one year of high school, teacher recommendation, and IEP decision.

COMMUNITY BASED INSTRUCTIONAL PROGRAM PART I......YEAR COURSE 2.0-3.0 CREDITS (9-10)

This course is offered in a block in the beginning of the school day. The goal is to help students gain work and social skills in a real work setting. Students volunteer their time during the school day to learn skills alongside employees. They will also participate in weekly trips in the community to gain social, academic, community, and life skills. Students will work on functional and work-related academics along with self-advocacy and social skills. They may also take extra classes in the afternoon that build on the skills from the morning instructional block. A uniform may be required. Credits may be electives or core.

Prerequisite: IEP team decision.

COMMUNITY BASED INSTRUCTIONAL PROGRAM PART II......YEAR COURSE 2.0-3.0 CREDITS (11-12)

This course is offered in a block schedule at the beginning of the school day. The goal is to help students gain work and social skills in a real-world vocational setting. Students volunteer their time during the school day to learn job skills alongside actual employees. They will also participate in weekly trips throughout the community to gain social, academic, community access, and life skills. When in the classroom, the students will work on functional and work-related academics along with self-advocacy and social skills. In addition, students may take elective or core classes in the afternoon to help build on the skills from the morning instructional block. Prerequisite: IEP team decision.
