

## **Mission:**

Guided by the framework of the ASCA National Model, the mission of the Davies High School comprehensive school counseling program is to equip students with the necessary skills to become functioning members of a global society. Together, we support access and equity for all learners, embrace and encourage diversity, and support strong collaboration in our school and community.

## **Vision:**

Davies High School comprehensive counseling program is committed to ensuring all students are provided with academic, career and social/emotional educational opportunities to assist them in reaching the standards and expectations required of successful 21st Century Skills. Through the collaboration of all involved, students will acquire the skills to become resilient, productive, informed, prepared, and culturally competent citizens of sound character capable of appropriately self-advocating for their needs and wants. During their time at Davies High School all students will grow to possess the mindset to work hard, be themselves, do the right thing and in turn carry these traits into their future.

## **Values:**

- Ensuring that all students have access to and are granted the opportunity to work with their school counselor.
- Modeling the behavior we expect our students to reflect.
- Using the team approach as a counseling department implementing a comprehensive school counseling program.
- Supporting our students, their families, teachers, staff, administration, and each other as we do our best each day to provide a positive and safe school climate.
- Strengthening our partnerships within our school, district, and community.
