

Identity Management

Once your organization upgrades to the Frontline Insights Platform, you can begin to utilize new and improved system functionality! These new upgrades allow you to log in to all your Frontline applications with a single username and password and to access any Frontline application via a single URL.

GETTING STARTED

On the date your district upgrades, you will receive an invitation email to create a Frontline ID account.

This new account replaces your former login credentials and allows you to collectively access all your different Frontline applications via a new, single username and password.

Click **Create a Frontline ID** within the invitation email.

This selection takes you to a Sign In page where you must create login credentials in accordance to Frontline requirements.

CREATING AN ACCOUNT

Your new username must contain 1 alphabet character and at least 4 total characters. (You can potentially use your email address, first initial and last name, or a different, district-preferred combination.)

The password must have 1 alphabet character, 1 number or special character, and 8 total characters.

Include an email address to provide a means for password recovery/verification and click the checkbox to accept the terms and conditions.

Once you are finished, click **Create Frontline ID**.

The system will prompt you to confirm your email as a final verification step. Once completed, the system enables access with your new username and password and requires these credentials for any future logins.
