

# *School Day*

## MATH

---

# MENU

---

Memorize a dance (pattern and sequence)

Board games:

Chutes & Ladders (counting forward), UNO( number recognition)

Go Fish, Mancala, Dominos, Sudoku, etc.

Create story problems and have a family member solve

Bake something following or doubling the recipe

Practice skip counting

IStation and IReady MyPath ([my.aps.edu](http://my.aps.edu))

Prodigy

Sort in groups by size color, shape, money

Find shapes around the house

Create a winter scene using shapes

Take an inventory of items in pantry and create a graph

Take an inventory of items in your pantry and create a graph

Examples: how many boxes, cans, bags, etc.

Measure how much time it takes an ice cube to melt inside verses outside

Count how many snowflakes you can catch on your tongue

\* Measure the volume snow before it melts and after it melt. Hypothesize if it will be the same or different.
