

Advanced Courses

- ▶ While it's a good idea to challenge yourself with accelerated courses like Honors or Advanced Placement, think very carefully about these year-long commitments . . .
 - ▶ Talk to teachers
 - ▶ Find out how much homework and outside of class reading is required; consider the pace, the rigor and time commitment
 - ▶ Evaluate your other activities (clubs, athletics, family, work, volunteering, spiritual, etc.)
 - ▶ If you move from an advanced level class to a regular level class after the semester drop deadline, a “W” will be posted on your transcript
