Responses must be submitted in the format outlined in this section. Each response will be reviewed to determine if it is complete prior to actual evaluation. Failure to provide accurate, up-to-date responses to any and all portions of the RFP may result in disqualification without prejudice. E. EVALUATION GUIDELINE FOR COMPETITIVE SEALED PROPOSALS

1. Purpose:

To evaluate, score and recommend the most qualified proposer who is capable of providing the best value to the owner. The committee approach for evaluating proposals provides opportunities for discussion of the listed criteria and expedites the selection process.

2. Review Process:

Evaluation criteria are defined in the RFP. Each committee member should assign a numerical value to each criteria section for each proposer.

The review committee, as a whole, will review all proposals. This review process is repeated until qualifications from all proposers have been reviewed. The committee will then begin the process of individually scoring qualification criteria 1 through 7 as outlined in the RFP. Each committee member will mark their scores on an individual score sheet (see example, attachment 2)

After the committee completes scoring each Proposer's qualifications, the sealed bids will be opened by the architect, read aloud and recorded on a bid tabulation sheet. The bid form can be found in the contract specifications. In evaluating the Proposer's bid, the base bid amount may be reduced by deductive alternates, if any, taken in consecutive ascending order. Additive alternates, as selected by the Owner, **will** be used to determine the low bidder. If multiple individual and combined bids are requested, the Owner will accept the combination of individual or the combined bids that are deemed by the Owner to be in his or her best interest. The Owner reserves the right to accept any Bid, to reject any or all Bids, or to negotiate Contract Terms with the various Proposers, when such is deemed by the Owner to be in his or her best interest.

Bid scores will then be calculated for each proposer. Each proposer's calculated bid score will then be added to each committee members' qualification scores and totalled. Final Proposer scores from each committee member will be tabulated, added together and averaged to arrive at the final ranking. The proposal receiving the highest total score will be the successful proposer.

F. EVALUATION CRITERIA

1. Firm History & Information (10 points)

Briefly describe your firm's organizational structure and history. Include the following information:

- Cover letter [limited to two (2) letter-size pages] at the beginning of the proposal. The cover letter shall include a project title, company information (including name, address, e-mail address, and telephone and fax number), names, email addresses and telephone and fax numbers of persons authorized to provide any clarifications required. The letter should express your organizations commitment to the following topics:
- Why you believe your firm is aptly suited to perform Construction services for Troup County School System.

2. Relevant Experience (20 points)

Provide a list of all relative and similar projects completed in the past five (5) years within 100 miles of Troup County and specifically identify the four (4) most recently completed Construction projects on the list. Include the following information:

- Project name and location

Each respondent shall attach a project staffing plan including the following:

- Initial staffing showing the percentage of time each staff member is to be assigned to the project

- team.
- A one-page resume including education, experience and any other pertinent information shall be included for each team member assigned to the projects.
- A list of relevant projects that each team members has participated in during the past five (5) years. Indicate the team member's title and reference contact for each project.
- Describe your method of prequalifying and generating interest from qualified subcontractors.

4. Financial Information (10 points)

This category should be a measure of the proposer's financial strength and ability to fund the School System's need to manage the project.

Provide a financial statement for the firm, or firms and the annual volume of projects completed.

Provide a compliance letter from your bonding company showing consent to provide 100% Performance and Payment Bonds for your services as a Contractor.

Has the firm maintained sufficient reserves to complete the project? A higher Current Ratio (Current Assets/Current Liabilities) shows a company's relative strength for short-term liquidity. Ratios in the Commercial Construction industry typically range from 1.3 to 1.5.

Does the firm have excessive debt-equity positions? This is also a good indicator. Debt-to-equity ratios tend to be from 1.5 to 2.2. A higher ratio means a company has used more debt to generate revenues and maintain their business.

Each respondent shall provide a certificate of insurance detailing their firm's present coverage and limits. Insurance agent shall certify that they are licensed to perform business in the State of Georgia. The certificate of insurance should be addressed to Troup County School System and be dated within 30 days of the bid date.

5. Project Approach and Schedule (20 points)

In school construction, opening on time is of paramount importance.

This category should not only compare each firm's estimate of time to complete this project, but should be linked to their track record of estimate versus actual time on previous jobs as demonstrated in their proposal.

Provide a brief outline and description of your firm's approach for these projects. The description should include, at a minimum, your approach to the following topics:

1. Schedule Control
 - a. Include a schedule for this project including pre and post construction activities.
 - b. Schedule Recovery
2. Budget
 - a. Change Order Management
3. Safety Program

4. Quality Control
5. Post Completion Activities

Briefly describe your greatest concern regarding delivery of this project.

6. Claims History (5 points)

List all litigations, arbitrations, and mediations in which the firm has been involved in the past five (5) years and indicate the disposition of each such claim, the name of the owner, and the nature of the claim.

7. Bid Form (25 points)

First, the goal of the “Competitive Sealed Proposals” selection process is to pick a General Contractor based primarily on qualification criteria (75 points) rather than solely on the bid (25 points) in order to have a qualified and compatible team member.

Secondly, significant consideration is given to the fact that the owner has limited resources and is concerned with the total cost of the project to Troup County School System.

The low bidder will receive the most points in this category (25 points). To determine each higher bidder’s score, divide the low bid by each ascending bid. That number is then multiplied by the total possible points to get each bidder’s score for this category.
