

SPRING GROVE LIONS CLUB

SCHOLARSHIP PROGRAM

The Spring Grove Lions Club announces its thirty first annual scholarship program for students residing in the Spring Grove Area School District who are graduating from high school this school year. All high school seniors are eligible for this award regardless of the school they attend. Approximately \$1,000 in scholarships will be awarded by the club this year.

Students wishing to enter the scholarship program must write an essay of no more than three (3) typed double spaced pages on the topic, **How I Can Use My Studies as a(n) _____ to Advance the Goals of Lionism.** Each entry must have a cover page that includes the applicant's name, home address, phone number, high school, and the post high school institution the applicant is planning to attend. The essay must **not** include the applicant's name or any identifying information on the essay itself. All essays will be read and evaluated by the Spring Grove Lions Club Scholarship Committee and their decision will be final. All entries will become the property of the Spring Grove Lions Club and cannot be returned. Entries must be postmarked before midnight, **April 8, 2024** and received by the committee by **April 12, 2024**

Judging will be based on how well the essay addresses the required topic, clarity of thought, grammatical correctness, and overall appearance. **Special attention needs to be focused on an understanding of what Lions clubs do to help those in need around the world.** Information about Lions International can be found on the internet at www.lionsclubs.org/. Questions concerning the scholarship program or the essay may be addressed to Mike Sterner at the address below. Results of the judging will be forwarded to the winning applicant's school in time for their graduation ceremony. Every applicant will be advised of the committee's decision on or before May 10, 2024. Formal acknowledgment by the Spring Grove Lions Club will take place during one of its summer meetings.

Applications and questions should be addressed to:
