In November, we hosted the President's Reception and Ribbon Cutting Ceremony for our newly remodeled library and Student Life Enhancement Project. Amidst the excitement of the evening, I took a moment to reflect on the impact of the work we had done to raise the funds to renovate this space for student learning.

With the support of hundreds of donors, which included parents, alumni, foundations and other friends of the school, we were able to reclaim underutilized space in the former library, create two new classrooms to accommodate our growing student enrollment and build a new study space for students that is now used at capacity throughout the day. I am grateful for everyone who supported this project and seeing our students use that space daily should affirm for all of us the continued importance of our work in renovating and remodeling the spaces across our campus.

Our work on the next phase of the Student Life Enhancement Project continues this summer as we repave our parking lot, make concrete repairs on the gym promenade, make improvements in our cafeteria and install new scoreboards and scorer's table in our gym. I hope you will continue to support our work with your contributions as we work to create the best student experience for our students.

We are blessed to have amazing supporters such as yourself. Thank you for believing in this school community and in our work with our students. Your support, whether for capital projects or tuition assistance, allows our Catholic, Marianist education to be accessible for so many young people.

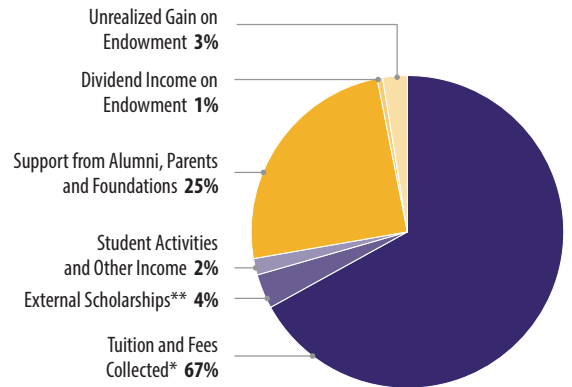

Go Crusaders!
