

BELIEFS

- Every student should graduate confidently prepared for post secondary options.
- Every student has the ability to learn, grow, and be successful.
- In being trauma informed, culturally responsive advocates.
- In the importance of bridging the gap between school and community through intentional relationship building with our community partners and families.

VISION

Bethel High students continuously seek and embrace new and challenging experiences that broaden their perspectives, while cultivating a career aligned with individual talents and interests. Students have a deep sense of self-worth and are equipped with the necessary skills for lifelong learning. Their pursuit of personal success is intricately woven with a commitment to being responsible and productive community members, contributing positively to their home, workplace and global community.

MISSION

Bethel High School's Counseling Department believes in and promotes equity, access and success for every student. We encourage student self-advocacy and accountability, while fostering a school community that is committed to building excellence of character. Through the thoughtful use of data, we continuously assess and tailor our interventions to ensure the success of every individual. We actively engage in partnerships with community organizations to create a network of resources that enrich the overall well-being of our students. Our aim is to cultivate lifelong learners who not only excel academically but also possess the resilience, adaptability, and confidence to navigate real life challenges.
