Hello ELC Parents,

We are in the middle of Week 2 and, although there have been many amazing things happening, we are still trying to work through a couple of processes.

Carline

There is a significant increase in the number of cars in carline this year, with cars starting to line up sometimes as early as 2:15 --- **30 minutes before dismissal.** To make sure our carline dismissal runs as smoothly as possible, please adhere to the following items listed below as closely as possible:

- Try not to arrive much sooner than 2:45.
- Do not get out of your car while you are in carline to buckle your child in his/her seatbelt.
    - If your child cannot buckle him/herself, you will need to pull over to the "Buckle Spots" which are directly across from caline.
- If you are in the front of the line and your child hasn't arrived to the gym to be dismissed, you will be directed to pull into the "Buckle Spots" to wait for him/her.

Afternoon Pickup

Afternoon dismissal begins at 2:45. Unless your child has an appointment or needs to be picked up early for a specific reason, you should not pick your child up until 2:45 - via carline. There are several children who are getting picked up **routinely** at 2:30 or even earlier. Your child is still receiving instruction at that time and is missing out if he/she is routinely being picked up early.

Thank you for your cooperation with these matters, helping make ELC a very safe and happy place for your child.

Mrs. Johnson
K-2 Principal
