

Vacation Homework Packet

Name: _____

Grade: _____

Date: _____

Vacation Homework Expectations

The AGCS K-6 Administrative Team believes no homework can replace a student being present in class. We strongly encourage families not to take extended vacations during the school year. With that being said, we understand that a school year vacation may be unavoidable.

A vacation should not be bogged down with homework assignments or worksheets, yet we want students to keep their brain “active” while away from school. We expect reading to take place on a daily basis along with the completion of the reading log. The activities suggested in the Vacation Packet are optional. We are providing you with the additional activities to be used at your discretion. The supplemental work is multi-aged and can be used for all children in grades K-6. Feel free to adapt the suggestions as needed.

*Upon your return to school, submit the reading log along with any other completed materials. Please contact your child’s teacher who can provide you with any major assignments that were missed.

Activities

Reading:

- Completion of a daily reading log. Read as much as you want. Reading can take the form of parent reading to child or child reading to parent.

- o If appropriate books are not available you can read stories online. Online stories can be documented on the reading log.
- o Websites:
 - <http://www.magickeys.com/books>
 - <http://www.andersenfairytale.com>
 - http://www.ccls.org/cwo/Find_a_Resource/Kids (click on Tumble Books)
 - Raz Kids (grade K-4)

Writing:

- Keep a daily journal. Write and draw your favorite moments from the day. Don't forget to capitalize and punctuate!
- Alphabet Book. Using a notebook, label each page with a letter of the alphabet. Draw or write about the things you see and do on your vacation that begin with each letter of the alphabet.

Math & Literacy Skill Games:
