Passcode: 316764

1. **Call to Order/Introductions**
   The meeting was called to order at 4:02 by Superintendent Corey Willenberg Twenty-five people attended the meeting via Zoom. The OUHSD administration was introduced to the group.

2. **Overview of the Stipulated Agreement with the Department of Justice and the Supportive School Climate Committee**
   Dr. Willenberg gave a brief overview of the stipulated agreement with the California Department of Justice. Dr. Willenberg told the group OUHSD was entering the fourth year of the five year agreement. He explained the goal of the Supportive School Climate committee.

   Summary of Monitors Review
   Dr. Willenberg gave an overview of the four visits this year by monitor Dr. Rubalcaba. Dr. Rubalcaba has conducted trainings, site visits and office hours. He will return to OUHSD in January. He will be attending PBIS meetings via Zoom this year.

   OUHSD Data
   Dr. Willenberg reviewed the OUHSD data for November 2023. The data is attached to the minutes.

PHS/CDS Data

PBIS/Lead Brad Lund presented the data for November and the first four months of school to the group. Prospect High has had 54 referrals since the first day of school. Seniors have accounted for 52% of the referrals. Staff has identified that Mondays and Thursdays account for the highest percentage of referrals. The implementation of Yonder pouches has resulted in a reduction of cell phone or technology referrals. Vaping and absenteeism are the biggest areas of concern at Prospect. CDS has an enrollment of 8 students. There have been thirteen referrals since the first day of school.

OHS Data

Assistant Principal Doug Criddle presented data for Oroville High School. Technology is the biggest problem on campus. Administration has identified that most of the referrals they receive happen during periods 1, 3 and 6. Tuesday and Thursdays are when most of the referrals are generated. 9th graders have the highest number of referrals and the most common reason is for technology issues. OHS has noticed a reduction in structured days and an increase in lunch interventions and community service. For November there were five suspensions that account for fourteen days. The demographics of the students suspended during November were 2 Hispanic students, 1 white student, 1 African American student and 1 American Indian student. The data slides are attached to the minutes.

LPHS Data

Assistant Principal Shanna Lee presented data for Las Plumas High School. After reviewing the data, it was determined that the Freshmen and Sophomores are the group at the greatest risk. Black and Latino students' risk ratios are greatly affected by a small student population. Defiance and technology were identified as the most significant issues. Socioeconomic students have the highest impact on absenteeism. Homeless and SPED students have the highest risk for absenteeism. LPHS identified the targeted services for students identified with high needs. The interventions are contacting the parent, lunch intervention, Check in/Check out, implementing restorative practices, using reflection sheets, conducting home visits, community service, SST's drug/alcohol and tobacco counseling, anger management and counseling. For the month of November, there were seven seven suspensions for twenty-five days. The demographics of the students suspended were 5 white students, 1 American Indian student and 1 Asian student. The data is attached to the minutes.

Questions/Concerns?

There were questions and statements from the group regarding the stipulated agreement, the data presented and requests for sharing the data a few days prior to the next meeting.

The meeting was adjourned at 5:04 pm. The next meeting is scheduled for February 5, 2024 at 4pm via Zoom.

PHS - Enrollment 92

The staff of Prospect High School is excited to share its data for September-December 4th of 2023. As of today, Prospect High School staff have submitted 54 referrals over the first 70 days of school for a daily average of approximately .675. Seniors have accounted for 52% of the referrals (31), 11th graders 35% (21) and 10th graders 11% (7).

The number of referrals written thus far are strikingly similar for each day of the week: 23% on Monday 15% on Tuesday 20% on Wednesday 18% on Thursday and 22% on Friday. Moreover, a preponderance of the referrals that have been written cite behaviors that are occurring after lunch from approximately 12:30 PM to 2:00 PM. It should also be noted that 83% of the referrals are occurring in the classroom with behaviors ranging from inappropriate language to disruption and 47 of the 54 referrals are for the same 8 students.

CDS - Enrollment 8

The staff of the community day school has thus far shown incredible growth from the year prior by all accounts. In fact, referrals are down from 86 at this time in December of 2022 to currently 13. Of the 13 referrals, 12 have taken place. in the classroom and one off-campus.

Referrals by grade level at CDS include five referrals for 11th graders, referrals for 10th graders, and five referrals for ninth graders (due to economies of scale and the regular relatively low class size at CDS (8 students), we are excluding proportional percentages). Two students have accounted for eight of the aforementioned 13 referrals and the daily referral count is relatively consistent with five occurring on Monday, two occurring on Tuesday, four occurring on Wednesday to occurring on Thursday and zero occurring on Friday. The referrals range from technology violations (cell phones) to disruption.

I commend both the PHS and CDS staff for their fantastic data. The calm on both campuses is directly attributable to everyone's fidelity to the PBIS process.

Thank you,
Brian Spears

AVERAGE REFERRALS PER DAY PER MONTH

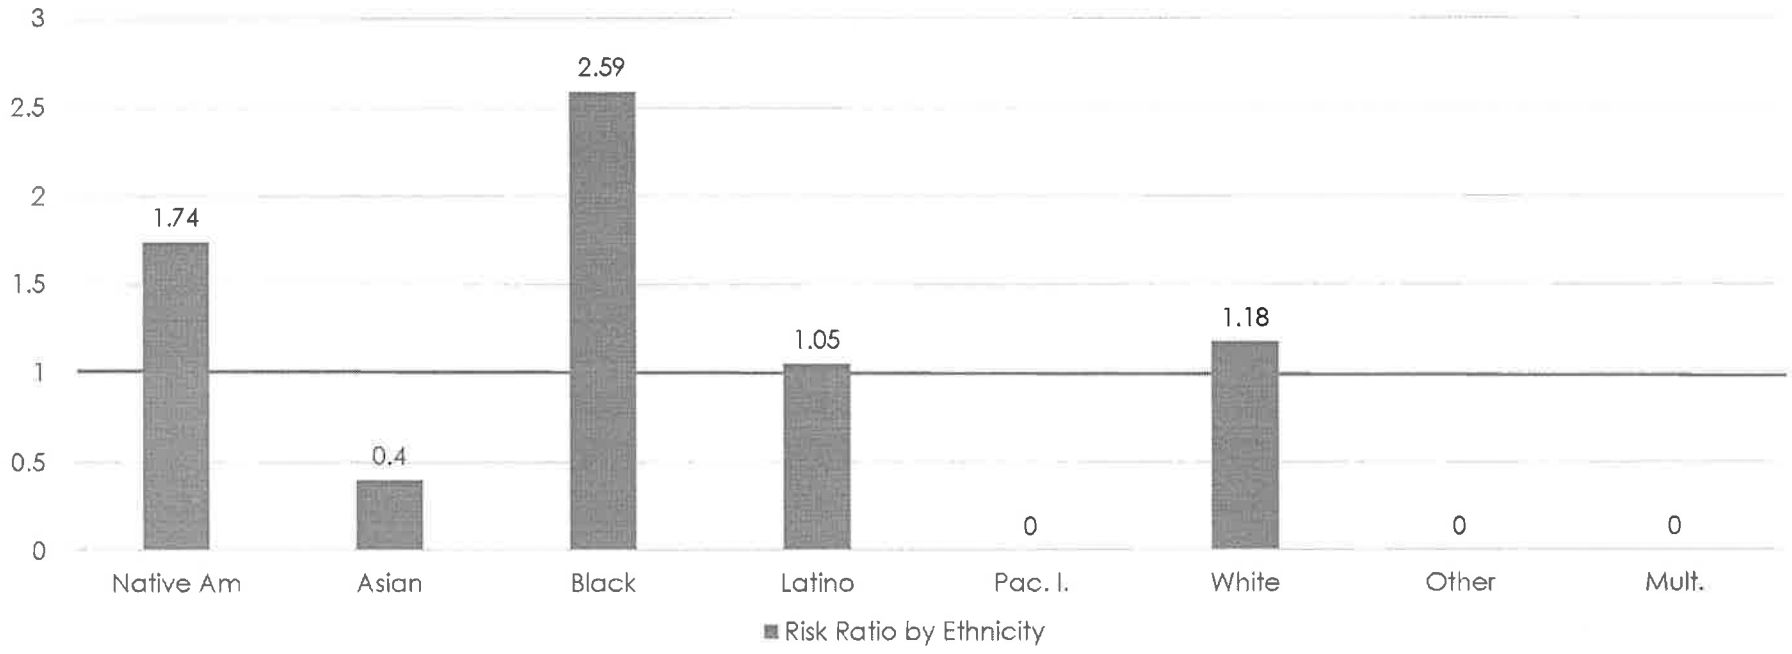

REFERRALS RISK RATIO BY ETHNICITY

SUSPENSIONS

SUSPENSIONS RISK RATIO BY ETHNICITY

FINDINGS

- Freshman and Sophomores represent the greatest risk.
- Black and Latino student risk ratios are greatly affected by a small number.
- Defiance and technology were identified as the most significant issues.
- Socio-economic Disadvantaged have the highest impact on Absenteeism.
- Homeless and SPED students have the highest risk for Absenteeism.

DETERMINATION

- Freshman in high needs have been broken up into 4 groups that receive bi-weekly group counseling.
- Specific students identified as high needs are provided targeted services
  - Contact parent
  - Lunch Intervention **(targeted group/one on reflection with counseling)**
  - Check in/Check out
  - Restorative practice
  - Reflection Sheet
  - Home visit
  - Community Service
  - Referral to SST
  - **Tier 2 SEL Group – targeted based on need done during SEL time**
  - Drug/Tobacco/Alcohol Course
  - Anger Management Course
  - Behavior contract
  - Truancy contract
  - Counseling: Teacher/Staff/TCM /Social Worker/Admin

DETERMINATION CONTINUED

- Increased or continued training for:
  - Freshman behavior expectations
  - SEL for emotional and behavior issues
  - Culturally responsive teaching
  - Relationship building
  - Civil discourse dialogue learning
- An updated Healthy Kids Survey

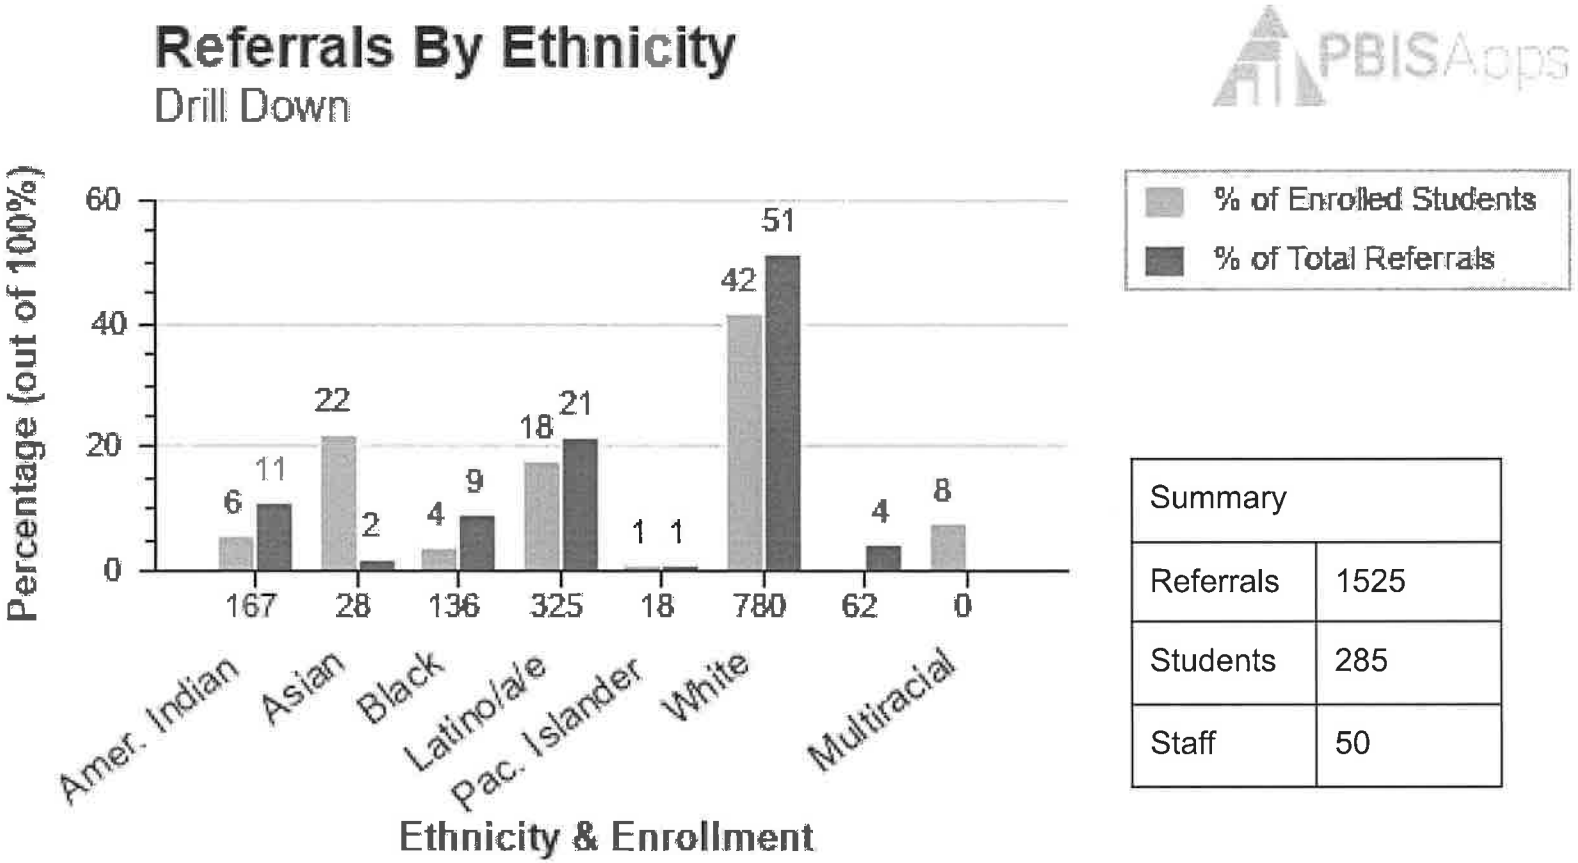

FROM THE SOCIAL WORKER

- 102 staff referrals
- 33 student self referrals
- 45 between 6 groups (5 freshmen groups, 1 social skills group)
- 14 anger management
- 21 have been referred to Drug and Alcohol Counseling
