

# BOND UPDATE #235

1.5.24

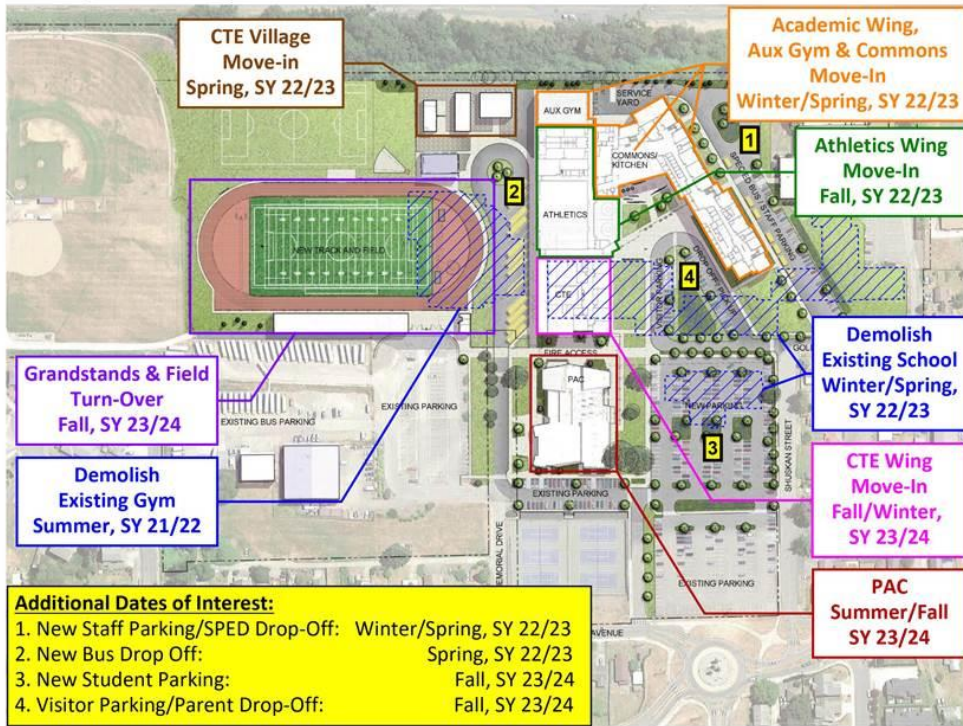

It has been wonderful seeing everyone back in our schools! I hope you all had a relaxing break. Here are our bond update items for this week.

Enjoy!  
Kristi

1. On Tuesday, our students and staff finally got to step foot in the new CTE Wing! It looks absolutely stunning, and perfectly matches the rest of the new campus. Computers and furniture are set, and classes have already begun.
2. Equipment for CTE classes such as wood and metal shop have been put in final positions, and final adjustments are being made in coordination with shop teachers.
3. Crews are performing the final landscaping work around the new CTE Wing and Performing Arts Center. This should be finished in the next couple of weeks.
4. Preparation continues for the demolition of the old CTE building on the south side of campus. Crews should be close to tearing it down around January 18.
5. Once the old CTE building is demolished, crews will start planting grass and adding fencing in that area. After that, work on the FHS campus will be substantially completed!
6. At the end of this week's update, you will find several photos of the Ferndale High School site with captions. You can also find more photos on the district website – including daytime pictures of construction taken every two hours, every day – at the following link: [Bond 2019 - Ferndale School District \(ferndalesd.org\)](http://ferndalesd.org)
7. Below is the FHS project timeline as of October 31. It shows how much of our bond funding we have spent so far and how far along we are in building the new campus.

- Below is a map showing the various components of the new FHS campus and when they'll be completed.

Hi Kristi,

Looks like we are missing update #235. The last update I received before this was #234 in mid-December. If there isn't a #235, should I just update the number to this one, or keep it as it is?

Thank you! 😊

## **BOND UPDATE #236**

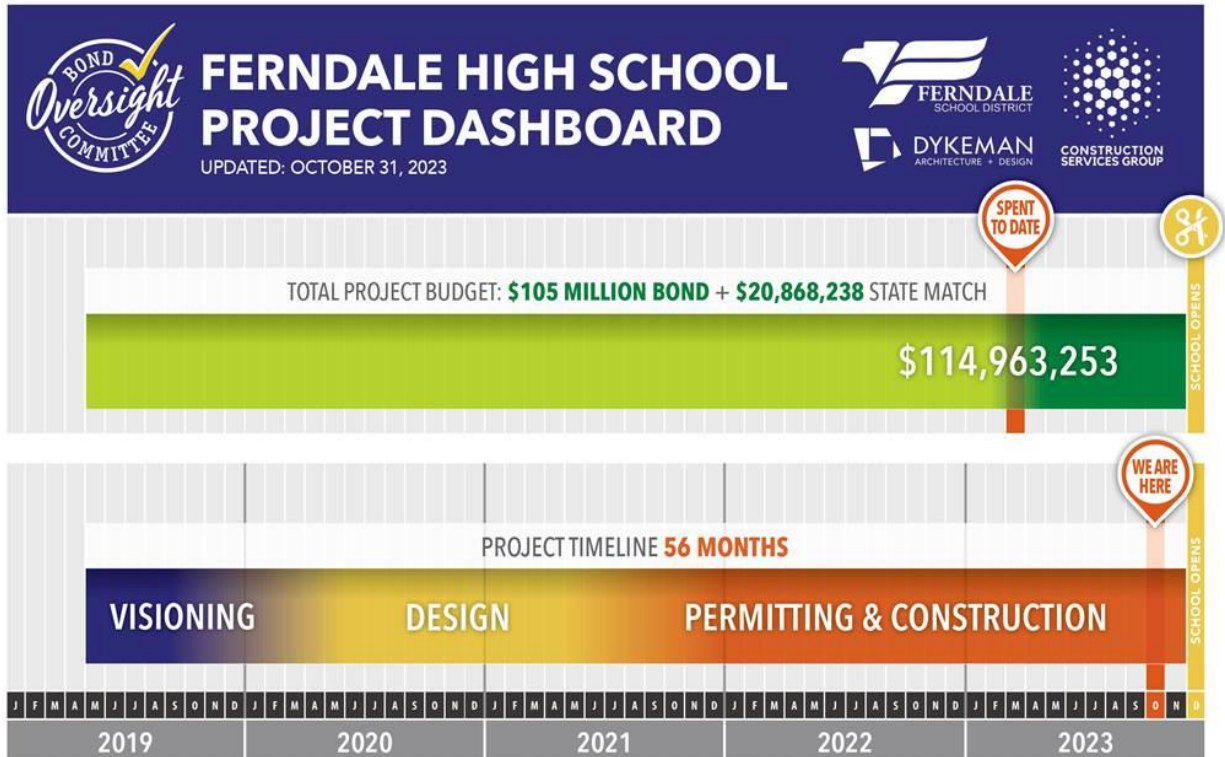

### **1.12.24**

Here are our bond update items for this week.

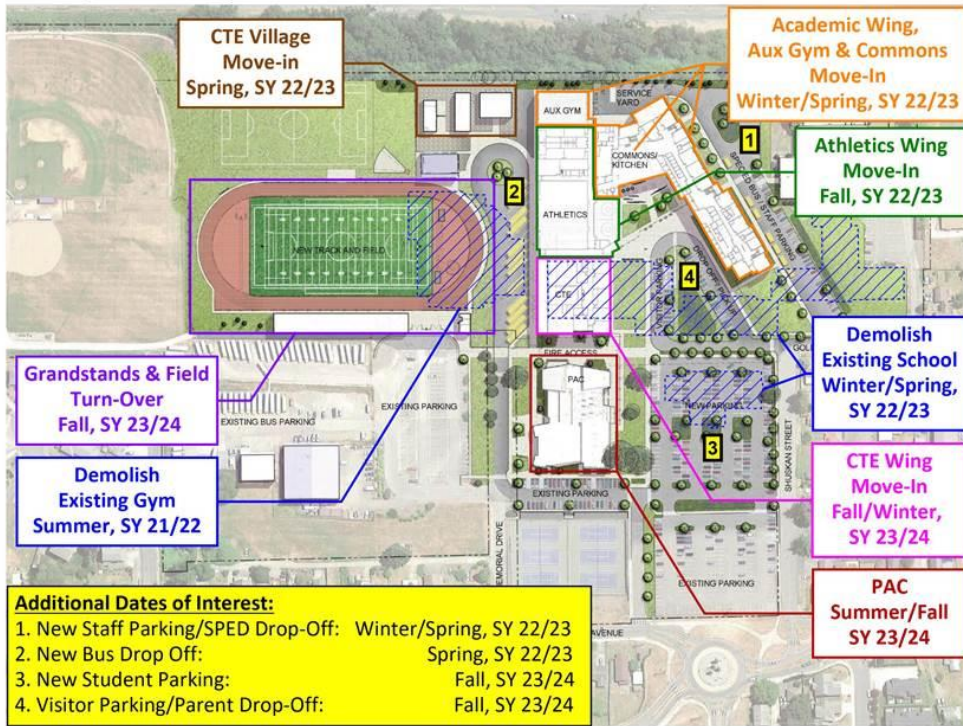

Enjoy!  
Kristi

1. New Golden Eagles banners have been installed around the school – both inside the Athletic Wing and outdoors.
2. Landscaping work is very close to completion.
3. Prep work for the old CTE Building's demolition continues. The building will start coming down next week.

4. Crews have completed the last few concrete sidewalk crossings around campus.
5. The final gates around the property are all being installed. This work is nearly finished.
6. At the end of this week's update, you will find several photos of the Ferndale High School site with captions. You can also find more photos on the district website – including daytime pictures of construction taken every two hours, every day – at the following link: [Bond 2019 - Ferndale School District \(ferndalesd.org\)](https://www.ferndalesd.org/Bond-2019-Ferndale-School-District)
7. Below is the FHS project timeline as of October 31. It shows how much of our bond funding we have spent so far and how far along we are in building the new campus.

8. Below is a map showing the various components of the new FHS campus and when they'll be completed.
