"It is the function of the school to take the children as it finds them, with all their diversity of race, religion, intelligence, and other background, and to provide them with a planned series of experiences which over a period of years will result in their development into intelligent, good, cultured, and efficient citizens. In fulfilling this purpose, the school through its curriculum will attempt to develop each individual according to his interests, needs, ability, and talents, not only for his own personal happiness and self realization but also for the improvement of society through his own cooperative activity in the interest of all."

To Good Friend
John Z. Shadle

It's been a lot of fun
playing baseball
with you this year.
So glad of luck.
Barry Sharrow

In their first year at Humboldt, Coaches Dick Krueger and Art Peterson made a fine record. Student fans were always assured of a thrill, whether the game happened to be football, basketball, or hockey. They responded with enthusiasm to their cheer leaders' cries of "Yeah, team!"

Best of Luck & Wisher to a
swell bid. Be sure to give
the girls a break this summer

FOOTBALL

Although they were victorious in only the first game of the season, members of the 1946 football squad displayed a gallant spirit. Even though the team was molded from only a handful of returning veterans, the boys faced heavier, more powerful, and more experienced teams with great courage and sportsmanship.
