Communicable Disease Management:

The Colorado Department of Public Health & Environment has provided various guidelines for communicable disease management. We at Moffat Consolidated School District #2 follow these guidelines to keep our students and community safe. Certain diseases are mandated to be reported to Public Health to prevent further spread of the disease, to ensure ill people receive the appropriate treatment, to identify the source and risk factors, and to evaluate prevention strategies. The link will bring you to the Public Health guidelines for schools on the management of communicable disease.

Wellness Policy:

The Wellness Policy addresses what Moffat School District #2 is doing to provide a healthy environment and can be found on the school website. The guidelines for when a child is to sick to attend school will help you determine when to keep your child(ren) home so that a healthy environment can be maintained.
