

# AASL STANDARDS

---

# STANDARD I:TEACHING FOR LEARNING

---

- Knowledge of learners and learning
- Effective and knowledgeable teacher
- Instructional partner
- Integration of twenty-first century skills and learning standards

# STANDARD I - EVIDENCES

---

Our school has been promoting STEAM in the classroom. To add to the resources available, we have the Makerspace in the media center. Teachers work along with the Media Coordinator to design projects that relate to their curriculum. Students may work independently or in groups. This may be in the form of projects or group challenges.

To keep to our teachers abreast on the most recent trends, I often attend professional developments and redelivery them to our teachers. This may be in the form of Schoolnet training, PowerSchool, or Discovery Education.

Grade levels meet weekly to discuss student needs, classroom resources, assessments and data. I attend the weekly meetings to discuss the instructional resources that may be available in print text or digital format. Often times, I refer teachers to Destiny Discover – ebooks.

# STANDARD 2: LITERACY AND READING

---

- Literature
- Reading promotion
- Respect for diversity
- Literacy strategies

# STANDARD 2 - EVIDENCES

---

To foster the love for reading and help our students work towards our School Improvement Plan for growth in Reading of 10 points or more, our school implemented the Tiger Literacy Challenge / Million Word Challenge. Students were exposed to more words and vocabulary which helped us exceed expected growth. I set up the program for teachers, administrators, and students and shared data and reports with administrators.

To support teachers with digital instructional resources, I designed and presented an In-service to introduce a new resource we recently acquired in our Media Center. The In-Service was for Digital Lightbox Books – Follet. The information I shared with teacher would allow students to take virtual tours as well as read to support the curriculum.

In-service Video – Digital Lightbox books

At the beginning of the school year, I presented information about reading and checking out books during the Library Orientation. I shared ways students could find the “Just Right” books that would help them enjoy reading. Students were given information about research (digital and print materials) that support the curriculum and classwork instruction.

Library Orientations for each grade level

# STANDARD 3: INFORMATION AND KNOWLEDGE

---

- Efficient and ethical information-seeking behavior
- Access to information
- Information technology
- Research and knowledge creation

# STANDARD 3 - EVIDENCES

---

To ensure all curriculum and technology information is passed along teachers/staff, our district instructional facilitators meet 1:1 to organize needed professional developments and best practices.

DLMC Opening Meeting – we are directed by the district instructional team personnel to prepare to redeliver necessary instructional strategies with teachers/staff at our school.

To promote the use of more digital materials versus print materials distributed in meetings and for information, I have encouraged our faculty to use Canvas and Google Classroom

Meeting with district level instructional and technology facilitator.

Meeting agenda and minutes

<file:///Users/monicawallace/Downloads/August%2015,%202018%20DLMC%20Minutes.pdf>

Administrators and teachers have begun to share information with faculty/staff through Google Classroom and Canvas Courses.

# STANDARD 4: ADVOCACY AND LEADERSHIP

---

- Networking with the library community
- Professional development
- Leadership
- Advocacy

# STANDARD 4 - EVIDENCES

---

Weekly Memos are sent out each month to keep faculty members aware of what to expect throughout the week. I set up displays within the library to showcase authors, special events and holidays.

Leadership meetings occur throughout the year for all departments to report out on how to successfully implement programs throughout the school.

To encourage literacy and reading throughout the school, I have visited classrooms to read stories and talk to students about reading for information and for fun.

Reading in the 2<sup>nd</sup> Grade Classroom

# STANDARD 5: PROGRAM MANAGEMENT AND ADMINISTRATION

---

- Collections
- Professional ethics
- Personnel, funding, and facilities
- Strategic planning and assessment

# STANDARD 5 - EVIDENCES

---

At the beginning of school year, we set goals in our Digital Learning Plan that we expect to accomplish during the course of or by the end of the school year. At the end of the year, we revisit the plan to help prepare the next school year.

To build on our library collections and manage orders for the year, we worked collectively to make note of specific titles that were popular in other collections. We also worked to solidify guidelines for Battle of the Books competitions.

The School Improvement Team meets monthly to discuss the needs of the school. As a member and recorder for our SIT, I record and share out minutes from the meetings. I also speak on behalf of the needs of the school's media program and sustainability.
