A Future to Be Proud Of

### **Key Stage 1-2 Winner**

#### **My future is...**

My future is an egg.  
Right now, it's solid,  
Hard and full of potential.  
It rests waits to open.

My future is a staircase.  
The stairs just keep on going,  
Heading to the top  
To find the final prize.

My future is all locked up,  
As I fumble and fiddle around for keys.  
It's too hard to open.  
But I can reach the keys when I'm older.

My future is full of glee.  
I want to be a star,  
Or maybe just stay low.  
My future is a mystery.

My future is made by me,  
But it's wild like a fire.  
I mould it out of clay.  
But it won't always obey.

My future is a rollercoaster,  
Up and down, up, and down.  
My future is a light.  
Guiding me through the dark.  
My future is a piece of art,  
Painted bit by bit.  
My future is a car,  
Fast and slow, fast and slow.

Although I hope for a bright one,  
Nothing is a promise.  
But what I see is dreams,  
Waiting to unfold.
