

7th grade newsletter

On November 15 the 7th grade crew went to the Adam State Library. We went to look at the books on our topics to get information for the History Fair. Our history topic was Turning Points in History. Most of us got a lot of information on our topic. After Adam State we went to McDonalds to eat. After we stopped at McDonalds we started to head back to the school. When we got back to school we got to play in the gym for the rest of the time that we had at school.

On October 19 2023 The first quarter a girl named Kirsten Logan Came and gave out relationship advice.

She told us that we need to keep safe and make good choices. Told us to not be so nosey and trust each other

Christopher

This month basketball games have started. The 7th grade team has played many schools including Monte Vista, Alamosa, Sanford, and a few more. Although they haven't won yet, they're keeping their spirits high. They have many guardians, students, and staff cheering them on this season. We believe in you guys! For anybody wondering the charge to get in the game is \$2.00 for everyone. They have many delicious concessions such as candy, chips, drinks and more. We hope you can stop by and watch a game sometime! By Miana Flores

A couple weeks ago a carnival took place in our cafeteria and gym. With a lot of hard work the carnival was set up by Mrs. Kelly's Leadership class. Cup pong, beanbag toss, and prize fishing were in the cafeteria. Basketball games, spikeball, and limbo were in the gym with a few other games. They set up concession stands with multiple choices of snacks and delicious treats. The price for the tickets was only a dollar per ticket. Many people have concluded that the carnival was quite fun.
