2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

As members of the Juvenile Court and Community Schools (JCCS), we are committed to high expectations, social justice, and equity for all students. We value diversity and strive to eradicate institutionalized racism and discrimination in all forms. Our priority is to raise the achievement of all students through the elimination of the racialized opportunity gap that negatively impacts our students of color. We accomplish this through the delivery of culturally and linguistically responsive standards-driven instruction, courageous and advocacy-oriented leadership, and relevant professional learning. All JCCS community members stand personally committed and professionally accountable for the achievement of this mission.

The Juvenile Court Schools provide educational opportunities for students waiting for disposition or adjudication through the San Diego County Court systems. As the Court School, our school name is San Diego SOAR (Success, Opportunity, Achievement, and Results) Academy. Our faculty and staff work in collaboration with the San Diego County Probation Department and other partner agencies that assist and seek to improve and strengthen the instructional programs and daily operations at both school sites. While it may be necessary for the court to adjudicate a student within a secure facility or a structured program, there remains an emphasis on education, rehabilitation, and restoring relationships within trauma-informed programs. Each program is designed to assist our students in developing discipline, values, and a work ethic that will guide them toward becoming productive citizens who are also ready for their next academic, vocational, college, or career placement.

Facilities Overview:

Twenty-four-hour maximum-security facilities:

San Diego SOAR Academy is a co-educational facility located at the Youth Transition Campus. SOAR Academy at East Mesa is a secure placement for co-educational youth located in Otay Mesa and near the international border. Post-disposition commitments/programming are based upon assessments completed by the San Diego County Probation Department.

Programming at the YTC

- Urban Camp is a placement for young men and women between the ages of 13-19. Students are in placement between three to nine months.
- Young men adjudicated to the HOPE program are in placement between six and fifteen months.
- The YOU program is for adjudicated young women who will be in placement between six and fifteen months.
- YDA- Young women who are post-disposition with a secure track commitment. These students were formally sent to the California Department of Justice. These students may be in placement until their 25th birthday.

2023-24 School Description and Mission Statement

Programming at East Mesa

- Students have a pre-disposition status
- Students who have a post-disposition status who are waiting to enter a program at the YTC
- Students who are post-disposition with a secure track commitment. These students were formally sent to the California Department of Juvenile Justice. These students may be in placement until their 25th birthday.

The Court Schools operate a year-round educational program for students. 30 teachers are fully certificated, credentialed, and highly qualified per the State of California. In addition, 70 staff members support the Court Schools. This staff includes general education teachers, education specialists (special education), Career Technical Education teachers, school counselors, classroom assistants, special education teacher assistants, English Language Learner assistants, student transition specialists, school office assistants, student support specialists, registrars, and school principals.

Students are enrolled in courses as per the student's personal learning plan. Each classroom provides a full inclusion learning environment for students of different grade levels, at promise, multilingual, and/or with disabilities. The majority of our students are enrolled in grades 9 through 12. Our goal as educators is to provide each of our students with quality, equitable academic and vocational experiences to equip them for a successful re-entry into the community. We believe it is incumbent upon our staff to implement strategies for a safe learning environment; promote meaningful learning experiences; conduct ourselves professionally and ethically; hold all individuals accountable; implement data-based decision-making systems; maintain effective communication; and model collaborative practices. Professional development opportunities enable staff members to differentiate instruction, assist students in accomplishing their personal learning goals, and recover and complete credits that lead to a high school diploma or a California High School Equivalency Credential upon passing the HiSET.

Court School goals are aligned with the goals of the San Diego County Office of Education's Local Control and Accountability Plan (LCAP):

Goal 1. Ensure excellence in teaching and learning, so each student is prepared to succeed in college and career.

Goal 2. Cultivate educational partner engagement to support excellence in each student's success.

Goal 3. Develop coherent and transparent systems for operational excellence to support each student's success.

Goal 4. Support the integration and transition of students who are at-promise (formerly at-risk), expelled, English learners, incarcerated, and foster youth to be prepared to succeed in college and career.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. 2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All textbooks and instructional materials used within San Diego County Court Schools are aligned with the state standards and frameworks and in grades K through 8 have been selected from the state-adopted list of standards-based materials. San Diego County Court Schools follow the State Board of Education’s adoption cycle for core content materials. JCCS holds a public hearing annually to determine that each JCCS program has sufficient and quality textbooks or instructional materials, pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are provided their own textbooks in core subjects for use in the classroom and to take home to complete required homework assignments. Additional information regarding state-adopted instructional materials can be obtained from the JCCS office.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	2	4	38	36	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2022-23 Career Technical Education Programs

The SDCOE JCCS Career Technical Education department provides CTE classes and grant-funded career readiness opportunities for high school youth. In our Court Schools students can select from CTE programming based on their supervised facility. At Youth Transition Campus students take a work readiness course and can select from CTE Culinary Arts, CTE Building Maintenance and Construction, or CTE Graphic Arts, with additional programming in CTE Fire Science and CTE Horticulture at times. At GRF students are offered work readiness courses, and CTE Graphic Arts and Production. The CTE Department is in the process of reinstating CTE Culinary Arts and CTE Building and Construction at East Mesa Juvenile Detention Facility.

CTE teachers work in partnership with other departments to provide an aligned curriculum. The CTE program is evaluated by the number of students enrolled, the number of students completing courses, and industry credentials earned. This is measured through our yearly data gathering in CONAPP. JCCS CTE also offers Drivers Education for qualifying students and the Workability I grant for interested students who qualify to receive grant-funded services including paid internships, work-based learning, mentoring, and supportive services.

The CTE Advisory Council is facilitated by the CTE Department and includes local industry partners from building and construction; green technology; horticulture; culinary arts; public service; entrepreneurship; graphic arts; graphic design; information and communications technology; arts media entertainment; audio technology; education, child Development, and family services (ECDF)/ integrated life management; non-profits; the local workforce investment board; event management; San Diego County Museums, Arts partners throughout the County, and is always looking for additional partners. All CTE teachers and staff participate in all Organizational All Staff and Council meetings.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Our Student and Family Engagement (SAFE) team provides regular workshops related to student attendance, legal issues faced by students, parenting, and informational parent meetings. SAFE also connects families with community-based organizations to increase access to medical/dental treatment, housing, mental health, food pantries, transportation, childcare, and legal support to enhance our students' and families' overall health and well-being. Parents are strongly encouraged to participate as members of the School Site Council, English Learners' Advisory Committee, Local Control and Accountability Plan, California Community Schools Partnership Program, and other focus groups. The school has jointly developed with parents a written parental involvement policy. This involvement policy specifies:

Policy involvement for parents

Joint accountability for student attendance

Shared responsibilities for high-student academic achievement

Building capacity for involvement

Accessibility

Parent workshops and participation in committee work have been facilitated via online platforms, with in-person meetings available, to ensure continuity of communication on educational resources and student progress, support available to families, and school/district planning.

2023-24 School Safety Plan

The Comprehensive School Safety Plan is being reviewed, updated, and approved by school staff, stakeholders, and parents and will be approved by the San Diego County Board of Education in March 2024. The plan includes school environment; Emergency Operations Plans; child abuse reporting procedures; suspension and expulsion procedures; procedures to notify teachers of dangerous pupils; discrimination and harassment policy; safe ingress and egress; schoolwide dress code; and rules and procedures on school discipline. The Comprehensive School Safety Plan is a public document and is available for review in the school offices and in SDCOE's JCCS office.

Professional Development

During the 2022-23 school year, San Diego County Court School (SOAR Academy) teachers, support staff, and administrators took part in a plethora of professional learning (PL) to ensure every student is prepared for college, career, and community success. Based on our multiple measures of student achievement data, a strong emphasis continues to be placed on content-area knowledge and pedagogical skills to improve student outcomes in English language arts (ELA) and mathematics. We continue to work with the SDCOE Leadership and Learning Services (LLS) on our core content area curriculum. In addition, we continue to have an even greater focus on training faculty and staff for more integrated English Language Development (ELD) in both ELA and other content areas; this year continued with a focus on language function in all content areas. These PLs included ongoing specialized training on the ELD standards and strategies of implementation to ensure the greatest impact for English Learners (Equity for Language Learners Collaborative- ELLIC). We continue supporting the implementation of Language Tree; a program used to support our time for designated English Learner Development. To ensure a broad level of development, trainings continue for the faculty and staff who would share in its implementation. Furthermore, the ongoing teaching of the units of study in ELA, the online Study Sync curriculum, and the Expository Reading and Writing Curriculum (ERWC) are continued for our curriculum and instruction in integrated ELA. To further support this work, our staff continues engaging in specialized EL work through our LLS partners, in the years 2023-24. We are also continuing reading intervention support for students by training teachers to work inside of classes and individually with students in need; these supports were through PLs for teachers and staff as well as in-class coaching sessions. This year writing was added to the reading intervention to further expand its reach with students. Our goal is to continually integrate Reading Intervention supports in all areas of the classroom experience. This support was broadened in 2020-21 to assist all content area teachers and in 2021-22 to include support staff as well. In the 2022-23 school year, we were able to increase this support heavily for our core content areas and any teacher who wanted greater assistance. Teachers and staff continue to receive annual training on meeting the needs of our students with disabilities in the most effective methods and with any needed accommodations.

The 2022-23 school year continued with a year full of powerful content learning through our Division Curriculum Committees (DCC) and our work to create an Ethnic Studies Course ahead of the scheduled State deadline of the 2026-27 school year. All JCCS Math teachers participated in professional learning offerings throughout the year to ensure understanding and best practices in teaching the adopted curricula. This school year, the Science teachers continue to receive training to best utilize the Discovery Ed curriculum. Support for our work in sound decision-making for our students continues to be a focus where teachers are utilizing the California Healthy Youth Act for all students entitled “Rights, Respect, and Responsibilities” curriculum. Our History/Social Studies DCC continues to work with History in creating meaningful engagement in our curriculum for US and World History in addition to Government and Economics. We are actively finding opportunities to support our mission of attaining the Seal of Civic Engagement for all students. Finally, we are excited to begin our work in a new ELA/ELD DCC and this will come with extensive professional learning as well.

All JCCS employees continue to reinforce Positive Behavior Intervention and Support while using restorative practices to develop common language, philosophies, and practices to support students and families and to increase positive school culture while working to decrease exclusionary practices. Our District Equity Leadership Team (DELTA) continues to create and implement systems of support for students’ academic and behavioral needs. For behavioral support, San Diego County Court Schools (SOAR Academy) participated in Positive Behavior Intervention and Support (PBIS) training for a solid fourth year of a five-year implementation. To this end, SOAR Academies earned a silver award for the fidelity of their efforts at PBIS implementation. Support for tiered support, implementation with fidelity, and developing classroom systems to support the needs of each student through PBIS is ongoing. All teachers continue to have access to one-on-one and small group coaching with our cadre of instructional coaches to work on self-identified areas for instructional support. Additionally, all San Diego County Court teachers and staff receive monthly professional learning including both excellent teaching and learning strategies, academic content, and our work in a positive school culture (MTSS/PBIS/RP). This includes powerful opportunities to learn and grow in instructing our students in areas of development through Social Emotional Learning. Finally, since July 2004, JCCS has participated in the South County Induction Consortium, formally known as Beginning Teacher Support and Assessment, to support newly credentialed teachers.
