Where is the Course Registration info?

Complete the Following (prior to registering for classes)

1. Use our [Sample Student 4-year Program sheet](#) to check progress toward graduation requirements.
2. Review our online [Course Description Grid](#). Look at the detailed description of each course offering as well as the very important grade requirements needed for each class. You should also review the requirements and expectations for [AP/Honors courses](#).
3. Fill out the Course Registration Worksheet that was handed out during January presentation days. A duplicate will also be emailed during the first week of presentations. Get signatures from current teachers where indicated on the form (have the transcript with the worksheet so teachers can see previous grades). There are links to the worksheets for each class below. If you don't meet the requirements for a class, you will need to submit an [Appeal Form](#).
4. Important Note: We will verify grades for all advanced and AP classes to confirm that pre-requirements have been met. You must select classes in which you meet the requirements.
5. Parent review and signature.

Students will meet with their [academic counselor](#) who will call students out of class for an appointment. At this mandatory appointment the advisor will check the completed worksheet with signatures, verify prerequisites, and input course requests into PowerSchool.
