

Ignite a passion for service

Dear Families at The King's Academy,

When I learned that Christian humanitarian organization World Vision now partners with Christian schools, I was intrigued. Servant Leadership is a core value at TKA, and World Vision exemplifies this in its care for vulnerable people.

We see evidence of beauty and brokenness all around us. Some children have plenty and are filled with dreams, and millions of other children in places like Guatemala face extreme hunger. They go without regular meals, drink dirty water, and are forced to leave school for a lack of resources.

Renewing what is broken is difficult. But - it is not a task we are embarking on alone. With God's help, we can. I am proud that TKA is now partnering with World Vision to sponsor kids in Guatemala to provide this lasting change.

My request: would you prayerfully consider joining me and other families at TKA and sponsor a child? For \$39 a month, sponsorship provides an example to our students about how we show God's love for vulnerable people, deepening students' faith. In Guatemala, sponsorship tackles poverty at its roots, including water, food, shelter, schooling and more.

My goal is for 30 kids to be sponsored by TKA families. This is bringing our mission to life. It is not a quick fix, but it is each of us becoming a spirit-filled agent of renewal in the world.

In Christ,
Jack Ferrante, Junior High Principal

Exclusive Opportunity for TKA Students

With our partnership with World Vision, TKA will participate in a program called World Vision Ignite. Through curriculum, experiences and relationships, we will equip our students to become global leaders with Jesus-inspired actions.
