Electronic/Print Media

Because of the intense interest in public education, print and electronic media sometimes request to visit schools for stories about programs and current events. In accordance with such activities, district policy requires parental approval be obtained before the media may take close up pictures of students, or use a student's photo in non-school publications. Please indicate by checking the appropriate box whether you will allow your child to be interviewed and photographed by the print and/or electronic media.

District Media

In the interest of promoting the successful programs of Wake Preparatory Academy and improving outside communications, the district is increasingly using and distributing photographs and video footage of students in our schools. This agreement constitutes permission to use photographs and video footage of the student named below in presentations about our schools, programs, and people which may be distributed to Wake Preparatory Academy. All photographs and video footage shall remain the sole property of Wake Preparatory Academy. I understand that no compensation will be made to me for this use.

World Wide Web & Internet Publishing

Wake Preparatory Academy recognizes the limitless potential for research, information and communication provided by the Internet and World Wide Web. Therefore, Wake Preparatory Academy encourages the creation of school and district Web pages for publication on the Internet. However, all Web publications are subject to the following terms:

- Student work may be published only as it relates to a curricular-related or school activity.
- All Web page documents may include only students' first names.
- No confidential student information shall be published or linked to a Web page, unless authorized by the district.
- No names may be associated with pictures.
