Student Technology Services

JEFFCO PUBLIC SCHOOLS

A little about me

- 26 years in technology
- 15 years in education
- Past 6 years as Director of IT Applications at BVSD
- Joined Jeffco 2 ½ months ago

- Dedicated to mission of public education
- Core belief in the power of partnership – together we can do anything
- Advocate the critical role that community voice plays in our success

The Vision

We seek to create a **combined service-oriented approach** to provide **streamlined student-based technology services** to the District.

This move will **clearly define the line between business owners and service owners/providers** in service to **strengthen governance** and **user voice** for decision making about digital tools and services.

Three Strands into One

- Application Development
- Student Systems Administration and Support (SME)
- Ed Tech
- Project and Task Management

- Partnership across IT, Teaching and Learning, Enrollment, etc

JEFFCO PUBLIC SCHOOLS

The Next Steps

1) Come together as a team
- Visioning, roles/responsibilities, processes
- Get work into the right channels
- Build skills and redundancy

2) Build alignment and partnerships
- Align everything with the strategic plan
- Across Ed Center and Schools
- Involve our community

3) Right-size systems
- identify redundancies
- take advantage of delivered functionality
- reduce and shift technical debt

JEFFCO PUBLIC SCHOOLS

Efforts underway

1) Infinite Campus Roadmap
- Regular upgrade schedule, 3x/year
- Decustomization effort
- Move to cloud

2) Lightspeed Analytics
- Identify education applications in use, look for cost efficiencies
- Assists keeping track of privacy policy changes
- Keep access to limited group of people

3) Hazel Health

Hazel Health Update

JEFFCO PUBLIC SCHOOLS

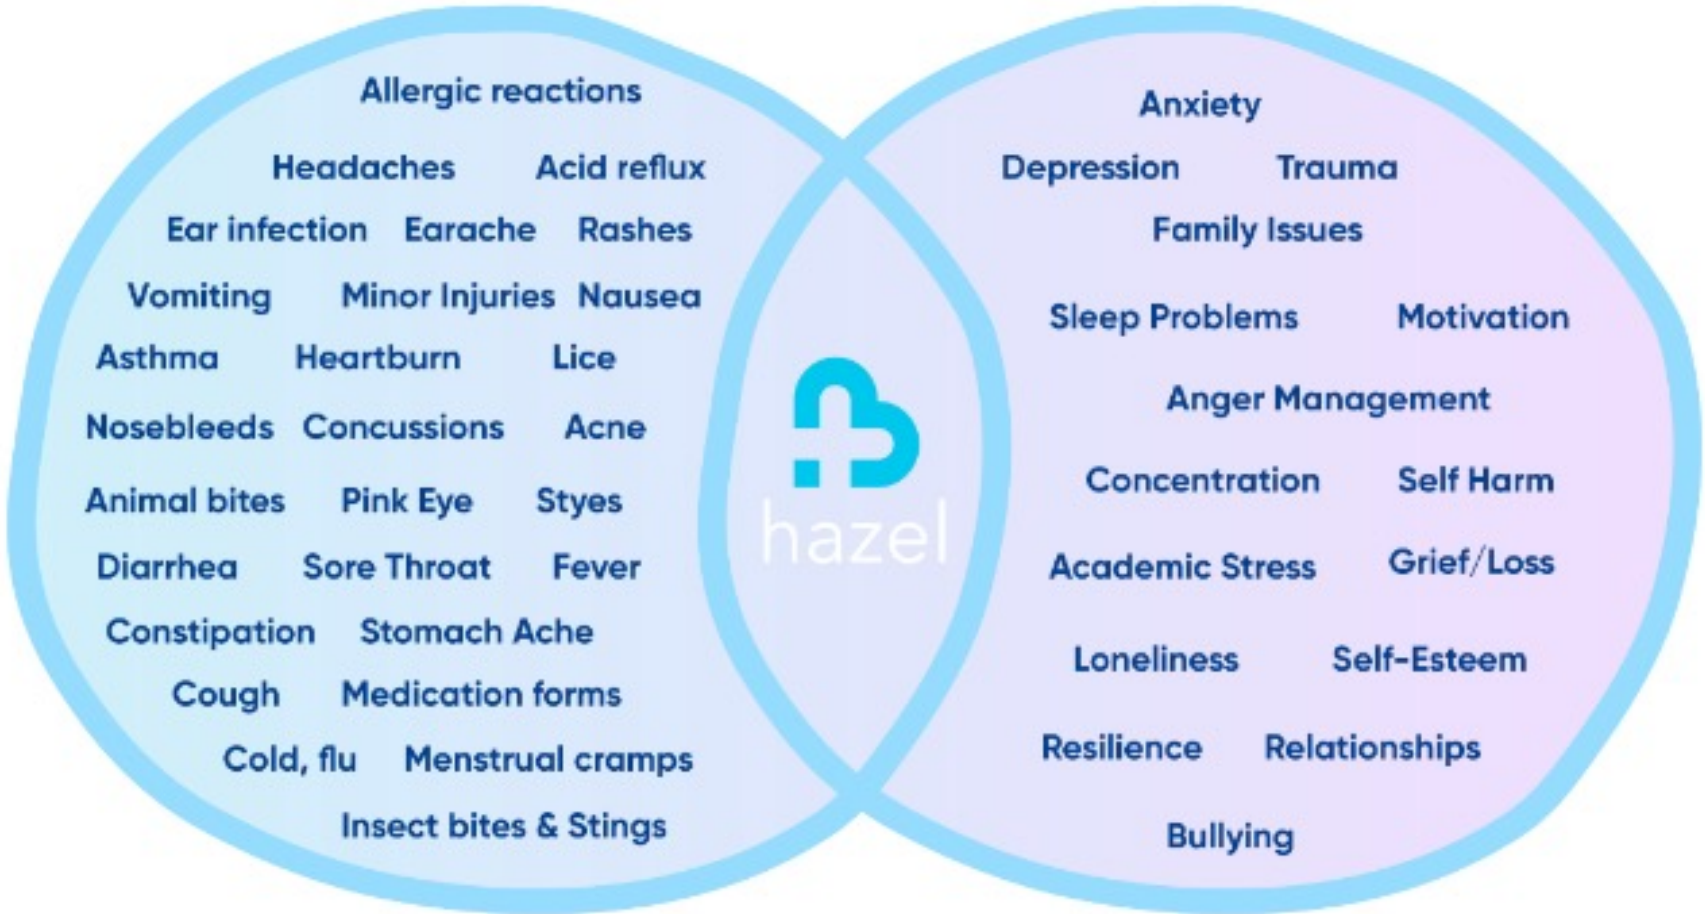

Background

- On June 2nd the Jeffco Student Success department and Hazel Health presented a plan to move forward with providing tele-health to students.
- Hazel Health was chosen by a competitive bid process (RFP #26025) and was approved as Jeffco's provider on the June 2nd meeting.
- Jeffco needs a telehealth provider because:

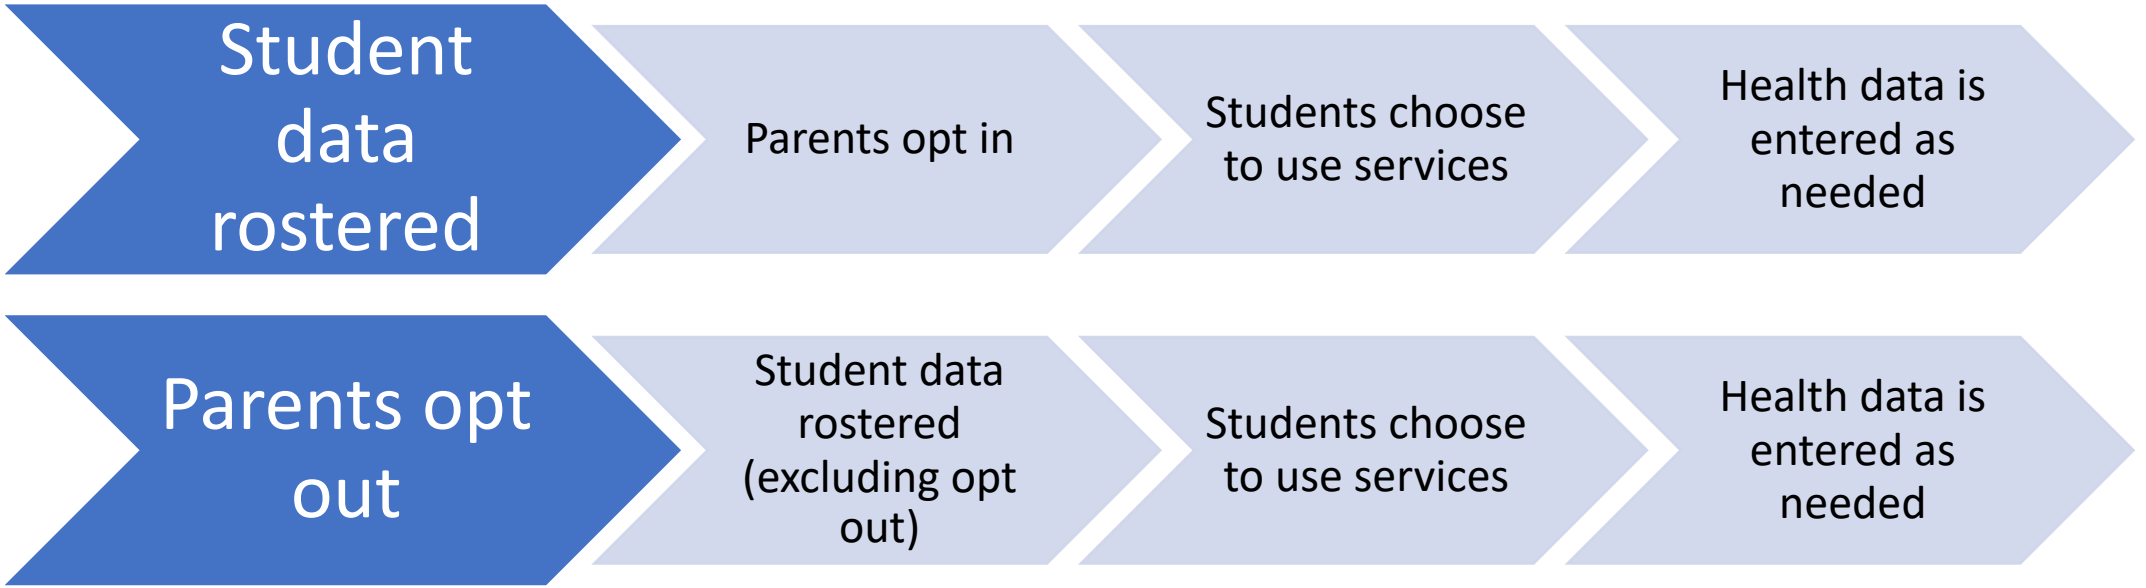

--- Colorado is facing a shortage of nurses and mental health providers in schools.

--- Our educators have asked us to add additional mental health supports in response to the impacts of the pandemic.

Services Provided

Proposed Processes
