**SC 772.1**

The Superintendent or designee shall be responsible to annually notify parents and guardians of the procedures for requesting notification of planned and emergency applications of pesticides in school buildings and on school grounds.

Appropriate personnel involved in making decisions relative to pest management shall participate in update training.

**5. Guidelines**

Pest Management strategies may include education, exclusion, sanitation, maintenance, biological and mechanical controls, and site appropriate pesticides.

An integrated pest management decision shall consist of the following five (5) steps:

1. Pest species identification.
2. Estimate pest populations and compare to established action thresholds.
3. Select the appropriate management tactics based on current on-site information.
4. Assess effectiveness of pest management.
5. Keep appropriate records.

An Integrated Pest Management program shall include the education of staff, students and the public about IPM policies and procedures.

**SC 772.1**

When pesticide applications are scheduled in school buildings and on school grounds, the District shall provide notification in accordance with law, including:

1. Posting a pest control sign in an appropriate area.
2. Providing the pest control information sheet to all individuals working in the school building.
3. Providing required notice to all parents and guardians of students or to a list of parents and guardians who have requested notification of individual applications of pesticides.
