	<b>708. PUBLIC USE OF SCHOOL FACILITIES</b>	1
<b>1. Purpose</b>	The Catasauqua Area School District has developed and maintains high quality, desirable facilities not otherwise available in the community, primarily for the education of the young people residing in the school district. However, it is the desire of the Catasauqua Area School District Board of School Directors to make these facilities available for use by the citizens of the school district and others, when such use will not conflict with the normal school program. This policy, therefore, has been developed to make possible the maximum additional return upon the community investment in school plants and equipment.	2 3 4 5 6 7 8 9 10
<b>School Code § 775</b>	The Catasauqua Area School District Board of School Directors holds a high expectation of all groups using the district facilities to treat the facilities with respect. This includes, but is not limited to, securing all facilities, leaving facilities in a clean and safe condition, and contacting school authorities if any damage occurs to the facility during their utilization. Damages that occur during timeframes assigned to particular groups will be charged to the group. Future use of facilities will be dependent upon reconciliation of charges and compliance with all applicable rules and regulations.	11 12 13 14 15 16 17 18 19
	All requests for the use of any school facility must be submitted using the appropriate online application form on <a href="http://www.cattysd.org">www.cattysd.org</a> . Such requests must be approved by the Director of Student Activities, in consultation with the Building Principal and the Director of Operations. A requester may appeal any denial or other adverse decision to the Board of School Directors.	20 21 22 23 24 25 26
	The Superintendent shall notify the members of the Board of School Directors of the school facilities use approvals granted under this Policy, including the charges imposed and collected, on a monthly basis.	27 28 29 30 31
