## SUMMER AT DUNN

Entrepreneurship & Innovation

Los Olivos, CA | 1.805.686.0603 | [dunnschool.org](http://dunnschool.org)

# About Summer at Dunn

Summer at Dunn offers what you want most in a summer academic program: caring instructors, unlimited personal attention, gains in academic performance, and loads of fun with new friends from around the world!

Summer at Dunn provides an incredibly rewarding and safe residential summer experience for students ages 12 to 16. Students live in chaperoned dorms in the heart of Dunn's 55-acre boarding-school campus. The classrooms, dining hall, library, playing fields, tennis courts, swimming pool, gymnasium, art studios, music room, and more are all available to Summer Academy students.

Many students are returning participants because our program offers the balance of a challenging academic summer program, with all the fun available on California's Central Coast!

# Program Highlights

- Students learn business and entrepreneurship through hands-on, real world activities.
- They manage Jurgensen's Market and the Earwig Cafe, two real, profitable campus businesses.
- Students invest their business profits in the school's \$350,000 student managed investment account, analyzing for price, profitability and strong management.

# Weekend Activities

- Sports
- Pool Parties
- Surf Lessons
- Hiking
- Ropes Course
- Shopping in Santa Barbara
- Off-Campus Movies
- Student Talent Show
- Live Theater & Music
- L.A. Dodgers Game

## Our Program

Dunn's Entrepreneurship and Innovation program is recognized internationally as a unique real-world high-school business program. Our students manage real, profitable businesses, and can innovate, engineer, design, and create products with state of the art 3D printers, laser engravers, and other industrial tools available in the Dunn Innovation Center. Summer students at Dunn can compete in robotics competitions, investing challenges, and create their own businesses by listening to and solving customer problems.

While engaging with our unique business and innovation curriculum, students will be taught skills that colleges and employers demand: Creativity, Analytical Thinking, Collaboration, Complex Problem Solving, Leadership, and Adaptability. They will return home after their summer experience at Dunn with new friends, a nice tan and bursting with business ideas.

## A Typical Day

8 AM — Hot breakfast  
8:30 AM — Morning sports  
10:00 AM — Time for class  
NOON — Lunch in the Dunn Kitchen
