Academic Requirements

Transfer Credit

Transfer credit from another institution will not be considered except in specific situations where students would be completing identical curriculum and coursework. Transfer credit consideration will be on a case-by-case basis by the Chief Academic Officer, academic program director and/or the campus Registrar. Program coursework may or may not transfer to other institutions. Students are advised to check the transfer policies of other institutions.

For veteran students, previous transcripts from all prior institutions, including military training, traditional college coursework, and vocational training will be evaluated and credit will be granted as appropriate. This is a requirement per 38 CFR § 21.4253 (d)(3).
