Agora Barcelona
International Boarding

Agora Barcelona International Boarding

Agora Barcelona International School, part of the Globeducate educational group with over 60 schools worldwide, is located just 35 minutes from Barcelona, near Montserrat, and ranks among the top private schools in Spain according to Forbes Ranking.

At Agora Barcelona International School we offer the **boarding programme for international students between the ages of 12 and 18** so that they have the opportunity to enjoy the benefits of studying in Barcelona for a full academic year, term or semester.

Our mixed student residence on-site, has a clear focus on the personal and professional success of our students. In our center, **we not only offer high-quality academic education but also focus on the personal and emotional development of each student**. We have a highly qualified team that provides tutoring and close support, ensuring both academic success and the emotional well-being of residents.

At the school, **we maintain a low student-to-teacher ratio to personalize learning**. In addition to providing a solid academic foundation, we offer various extracurricular activities in sports, music, art, and sciences, promoting the holistic development of students.

Residents enjoy spacious and welcoming spaces, immersed in an international atmosphere, and tutored by experienced staff. Our tutorial action, both at school and in the residence, is essential to ensure comprehensive support for each student. We believe in the importance of cultivating values, essential work habits, and social skills.

We integrate the innovative **well-being project**, focusing on the physical and emotional health of children. This project is based on four pillars: emotional education and mindfulness to manage emotions, alternative sports to foster empathy, nutrition, and healthy habits to learn self-care, and first aid to handle everyday situations.

The brightest and most international future full of experiences in an exceptional environment awaits you.

Natalia Reig
Head of Boarding

Our school residence, located on the school premises, offers **the perfect balance of living in the midst of nature, having fun and making friends** in the peaceful setting of the Montserrat Natural Park.

The programme we offer allows students to live an international experience with peers of **different nationalities of great value for their personal and professional future**.

The school delivers a **multilingual programme** in English, Spanish, and Catalan. Our students can benefit from high-performance sports programmes, enabling them to combine their studies with sports training. At Agora Barcelona International Boarding they are **supported by qualified tutors available 24 hours a day**. They also have the assistance of a team of professionals responsible for supervising both their academic and after-school day to day as well as their extracurricular activities.

Students who wish to combine their studies with sports specialization have the ideal setting at Agora Barcelona International Boarding. Both male and female residents can not only pursue their international academic studies at the school but also receive specialized training from top experts in sports such as football, golf, tennis, or paddle. Within the same school premises, they can enjoy 40,000 sqm of sports facilities, including football fields, a heated indoor swimming pool, tennis courts, paddle courts, a sports hall, gymnasium, beach volleyball court, and a golf course.

Our students have 5 daily meals that we prepare in our own kitchen following a varied and balanced nutritional programme.

The **tutorial action** is one of the differentiating values of our center as it **ensures the academic success of our students**. Tutors, along with the psychoeducational department, address any difficulties that may arise in our students and share action strategies to implement solutions to the identified problems.

The five pillars of Agora Barcelona International School are the **International Baccalaureate® (IB)** as a model for the future, **multilingualism**, **STEAM** with sciences and arts, **sports and well-being**, and finally, the commitment to providing our students with the tools to grow as global citizens capable of changing the world.

We are a family-oriented school with native or bilingual teachers and a student-teacher ratio that allows for personalized learning in spacious classrooms and laboratories adapted to all educational needs. All of this is underpinned by a fundamental pillar: sports and well-being, which is very present in day-to-day activities.
