

## Willmar Public Schools Device Protection Plan

Willmar Public Schools recognizes that with the implementation of a 1:1 iPad initiative, there is a need to protect the investment made by both the District and the Student\Parent. Therefore, a protection plan is available to each family. The cost for this protection is \$40 per device per student in grades 7-12 and will be due upon receipt of your child's device.

This annual coverage begins upon receipt of the payment in the current school year and ends at the conclusion of each school year (or the termination date of enrollment). **If the iPad has already been issued, then a visual inspection of the iPad by the tech department will be needed to purchase the protection plan.**

All claims must be reported to the main office or tech department of your child's school

### COVERED

The protection plan offers complete coverage for the **first instance** of accidental damage (accidental drop, spill, etc.). All iPad parts are covered, including the iPad battery, internal and external components, glass, LCD screen, external buttons, microphone jack, etc. This includes parts and labor. Additional instances of accidental damage will incur a \$40 deductible.

### NOT COVERED

- Intentional damage is not covered. Intentional damage is that which is either observed or willfully have occurred or that which is determined by the type of damage to have been willful in nature.
- Loss and theft of the device is not covered.
- Damage to or loss of brick, cord, or case is not covered.

### Protection plan notes:

- Protection plan is non-refundable if student withdraws early.
- If the device protection option is not purchased, the student(s) and their parent(s)/guardian(s) will be responsible to pay for all damages to the issued iPad. A non-protection plan device damage will range from \$75-\$325.
- If student enrolls after January 1<sup>st</sup>, the protection plan will be \$20.
- Removing the supplied case from the iPad will void this plan.
