2012-13 ORIGINAL BUDGET SUMMARY

Multiple Measurements Rating (MMR), Focus and Priority Schools

The Minnesota Department of Education (MDE) applied for a waiver of the No Child Left Behind requirements. MDE was granted the waiver but it required the state to move to a growth model measurement for evaluating student achievement. Prior to the waiver, MDE calculated whether a district and schools were making Adequate Yearly Progress. Post waiver, MDE calculates MMR and a Focus Rating (FR) to determine student achievement. MMR is the measurement of the school performance in proficiency, student growth, achievement gap reduction and graduation rates. FR is used to identify focus schools. Based on schools scores, the school can be rated as Reward School (the highest 15% of Title I schools in the state), Focus School (the 10% of Title I schools making the biggest contribution to the state's achievement gap) and Priority School (the 5% most-persistently low-performing Title I schools in the state).

Sadly, Kennedy Elementary was rated as a Priority School and Roosevelt Elementary was rated as a Focus School. The Middle School and the High School received scores but not ratings because they do not receive Title I money.

As a result of the Focus and Priority ratings, the schools will be required to complete and implement Comprehensive School Improvement Plans (CSIP) by September, 2012. The planning and future implementation of this instructional plan played a big role in the 2012-13 Original Budget. The District is proposing many strategic changes that will impact instruction:

- Addition of Director of Teaching and Learning in place of the Director of Curriculum and Instruction
- Addition of Curriculum and Assessment Coordinator
- Addition of 2 English Language Learner (ELL) teachers using the new Literacy Aid
- Addition of 2 instructional coaches/interventionists using the new Literacy Aid
- Addition of a 0.5 FTE Assistant Principal at each elementary school
- Maintaining current teacher staffing.

Another large impact on the budget was the salary settlements for 2011-2013. The majority of the labor contracts settled for around 3% over the two years. The teachers union settled for 7.63% over the two years and increased their work day by 30 minutes in 2012-13.

Technology has been a big focus. A community group formed to partner with the District by raising money to provide 1:1 iPads to 11th and 12th graders. In addition, the District began the

creation of the technology capital list similar to the capital facilities list used for planning the use of operating capital funds. The budget reflects a shift in spending more of the operating capital funds on technology while still continuing up-keep of the facilities.

Additional budget impacts relate to funding or money received in FY 12 that will not be received in FY 13. These items include SW/WC Cooperative VEBA grant (only for new participants), revenue from a building sale and lawsuit settlement proceeds.

The state aid payment shift is expected to remain at 64.3%/35.7%. The District borrowed \$3,438,321 through the aid anticipation borrowing program to fill the cash gap in 2011-12. The District will repay the aid anticipation certificates in September, 2012. At the time of this budget, the District is not anticipating needing to borrow money until the winter aid anticipation offering if at all. The cash position will be monitored throughout the year and the appropriate steps will be taken.

The general education formula increased \$50 to \$5,224 per student which resulted in a \$229,519 funding increase for the District. The District also received \$215,000 of the new Literacy Aid which will be used to fund ELL teachers and instructional coaches/interventionists.

The 2% staff development set-aside requirement was repealed through FY 2013. The District values staff development and continues to set-aside 0.5% for staff development purposes, however, instead of allocating it to the sites the plan is to keep final approval centralized with the Director of Teaching and Learning.

Enrollment

The District uses a combination of data sources and systems to estimate enrollment. Enrollment data is entered into the Schoolfinances.com Enpro system. Weekly seat count is reviewed.

AMCPU's are calculated using the What-If system from the Minnesota Department of Education (MDE). The Minnesota Automated Reporting Student System (MARSS) data is reviewed.

The District is experiencing relatively flat enrollment with slight increases or decreases each year.

E-12 Student enrollment projection increased from 3,991 Average Daily Memberships (ADM) in the FY 2012 Revised Budget to 3,995 ADM's in the FY 2013 Original Budget. While ADM only increased 4 students, Adjusted Marginal Cost Pupil Units (AMCPU) increased 11 students resulting in increased general aid of \$59,138.

Fund Balance and Long-term Financial Projection

The District measures general fund unassigned fund balance as a percentage of general fund expenditures. The fund balance is determined once a year when the financial statements are prepared. At June 30, 2012, general fund net unassigned fund balance is projected at \$5,716,973 or 13.38% of expenditures.

Policy 740 – District General Fund Balance directs the District to maintain a 6% minimum fund balance. The Board and policy committee along with the business office are considering the sufficiency of a 6% minimum fund balance. Fund balance assists the District in managing cash flow needs, being prepared for unfavorable legislative actions and unplanned expenditures. A District with a fund balance that is too healthy could indicate that it is passing up opportunities to further the education of its students.

The budgeted general fund unassigned fund balance for June 30, 2013 is \$4,303,018 or 9.76% of expenditures. The District is deficit spending or using part of its fund balance to meet its expenditures. However, the District is still maintaining a fund balance above the limit of 6% or \$2,643,970.

The District is able to deficit spend and use fund balance to positively impact the education of students but continued deficit spending is not sustainable. In other words, the changes the District is planning to implement to help its struggling schools will not be able to be sustained for more than 2-3 years. The District finds itself in very challenging times instructionally. The use of fund balance is an opportunity for the District to make meaningful, planned instructional changes that will build a foundation for all students to grow educationally and start to close the achievement gap. In a year or two, the District will need to plan and implement financial changes to keep the District solvent.

The following page presents the FY 2013 Original Budget by fund and category followed by an explanation of the change from the FY 2012 revised budget to the FY 2013 original budget.

FY 2013 Original Budget Compared to FY 2012 Revised Budget

General Fund Revenue increased \$559,796 from FY 12 Revised Budget

- <u>Local Revenue</u> decreased \$57,786. The District received the SW/WC cooperative VEBA grant in FY 12 for employees totaling over \$200,000. This decrease is offset by an increase to the Health and Safety levy based on approved projects.
- State Revenue increased \$1,267,730. E-12 Student enrollment projection increased from 3,991 Average Daily Memberships (ADM) in the FY 2012 Revised Budget to 3,995 ADM's in the FY 2013 Original Budget. The increase and the student grade level pupil unit ratings caused an increase in Adjusted Marginal Cost Pupil Units (AMCPU) of 11.43 which increases aid \$59,138. In addition, 2011 legislation increased the formula \$50 per student resulting in an increase of \$229,519. Literacy Aid is a new aid starting in FY 13 in the amount of \$215,000. Compensatory revenue increased \$482,067 as the District's free and reduced percentage increased from 51.4% to 53.9% and the compensatory formula increased \$50 per compensatory pupil unit. Gifted and talented aid and operating capital aid experienced a small increase. There was an increase of \$29,587 to deferred maintenance and integration aid due to the aid/levy split. As federal entitlements are reduced and programs are evaluated the District is covering the lack of federal funding with state funding. State special education funding is driven by reimbursable special education expenditures. As those expenditures increase so does the revenue. The estimated increase to state special education aid is \$216,105.
- <u>Federal Revenue and Other Revenues</u> decreased \$650,148. Federal Title (NCLB)
 entitlements are expected to be reduced in FY 13 and prior year carryover entitlements
 are smaller. In addition, the Microsoft Settlement funding ended in FY 12.

General Fund Expenditures increased by \$1,326,556 from FY 12 Revised Budget

<u>Salaries & Wages</u> increased \$1,745,959. The increases to salary and wages are two-fold. First, contracted salary settlements between 3% and 7.63% drove a large portion of the increase. Second, the plan to improve instruction of the District includes creating a Director of Teaching and Learning to replace the Director of Curriculum, adding a Curriculum and Assessment Coordinator, adding two ELL teachers, adding two

instructional coaches/interventionists and hiring a 0.5 FTE Assistant Principal at each elementary school. These increases are offset by retired staff being replaced with staff at a lesser salary.

- Employee Benefits increased \$320,511 due to the increase in salaries driving up trailing benefits and increases to the TRA contribution which is offset by a decrease to VEBA benefits since the District will not receive the SW/WC cooperative VEBA grant for employees to the same extent in FY 13.
- <u>Purchased Services</u> decreased \$496,651. Supplemental Education Services
 requirement through Title I was eliminated. The District still needs to set-aside money
 but is using it for interventionists in the Salary and Wages area. In FY 12, the District did
 additional capital projects as a result of proceeds from selling a building and the
 settlement of a lawsuit. The decrease is offset by the expected cost of leases for iPads.
- <u>Supplies and Materials</u> decreased \$137,117 due to the re-evaluation of gifted and talented spending, the end of the Microsoft settlement money and federal special education purchases being reduced due to a decrease of the entitlement. Also, some small textbook purchases are eliminated as a result of the move to iPads.
- <u>Capital Expenditures</u> decreased \$26,161. The decrease of capital facility spending was
 offset by an increase to technology replacement spending and the replacement of a
 District maintenance van.
- Other Expenditures decreased \$86,548 because indirect cost chargeback to Title
 programs may be eliminated to focus more money on instructional programming as
 federal funding is reduced. In FY 12, two years of assessments for the Roosevelt road
 were paid.

Food Service Budget Summary

Food Service revenue decreased \$157,481. At the time of this budget the District has applied for but not yet been awarded the Fresh Fruits and Veggies grant. The District also anticipates a slight reduction to food sales with the implementation of the new federal food mandates.

Food Service expenditures decreased \$264,506. At the time of this budget the District has applied for but not yet been awarded the Fresh Fruits and Veggies grant thus decreasing expenditures for salaries, benefits, supplies and food. Expenditures also decreased because the

cost for Phase II of the Middle School Remodel is less than the costs of the previous year's remodel at Roosevelt and Phase I at the Middle School.

Community Education Budget Summary

Community Education revenue decreased \$122,058 mainly due to the elimination of Supplemental Education Services and decreased participation of special education students in the early childhood programs.

Community Education expenditures decreased \$180,725 due to the elimination of Supplemental Education Services expenditures and a conscious decrease in spending in all other areas.

Other Funds

The Debt Service fund is used to pay for the District's outstanding bonds. This fund remains relatively steady as taxes are received and bond payments are made.

The Fiduciary Fund contains a small number of scholarships. The fund earns interest and awards a few scholarships each year.

The Proprietary Fund accounts for the District's Delta Dental program. The fund receives premium dollars and pays claims through a third party administrator.
