Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Brownsboro Independent School District (District), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Brownsboro Independent School District as of August 31, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures including examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charges with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules related to pension and other post-employment benefit activities be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the other information section of exhibits presented in the table of contents but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Members of the Board
Brownsboro Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Brownsboro Independent School District (District), as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 15, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is listed in the schedule of findings and questioned costs as item 2023-1.

Report on Internal Control – Continued

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Members of the Board
Brownsboro Independent School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Brownsboro Independent School District's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the type of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud, or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

Internal Control over Compliance with the Uniform Guidance – Continued

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weakness, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Purpose of This Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Expenditures Over Appropriations

Criteria:	Texas Education Code, Section 44.002 through 44.006 established the legal basis for budget development in school districts. No funds may be expended in any manner other than as provided in the adopted budget. The Texas Education Agency has adopted regulations that require compliance at the functional expenditure lever.
Condition Found:	The District over expended functional expenditure categories during the year and at the year end.
Questioned/Cost Basis:	None
Instances/universe:	Expenditures of the legally required budgeted funds are distributed into twenty (20) functional expenditure categories. The District over expended six (6) of the functional categories.
Effect:	The District appears to not have been in compliance with the Texas Education Code, Section 44.002 through 44.006.
Recommendation:	The Board should, as a routine matter, discuss and make budget amendments during the normal course of the financial report reviewed monthly. Anytime items come before the Board that were not included in the original budget adopted, consideration for an amendment should be addressed.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED AUGUST 31, 2023

This section of Brownsboro Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the year ended August 31, 2023. Please read it in conjunction with the District's basic financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

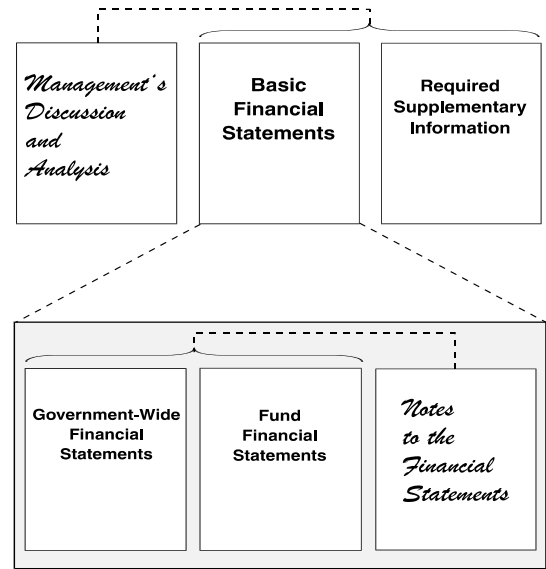

- The District's Net Position was \$ 22,084,645 at year end.
- During the year, the District's expenses were \$ 1,603,419 less than the \$ 37,610,018 in taxes and other revenues for governmental activities.
- Expenses in the current year increased 13.92% over the prior year while revenues increased only 6.45%.
- The General Fund reported a fund balance this year of \$ 12,614,878, a decrease of \$ 241,632 from the prior year.
- The District sold \$ 22,355,000 of general obligation bonds for improvements and renovations to District facilities.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about the activities the government operates like businesses, such as the print shop.
- Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the District's Annual Financial Report

The basic financial statements also include notes that explain some of the information in the basic financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the basic financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's basic financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position—the difference between the District's assets and liabilities—is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base and student population.

The government-wide financial statements of the District include the governmental activities. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- Governmental funds—Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explain the relationship (or differences) between them.
- Proprietary funds—Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. We use internal service funds to report activities that provide supplies and services for the District's other programs and activities.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED AUGUST 31, 2023

- Fiduciary funds—The District is the trustee, or fiduciary, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's combined net position was \$ 22,084,645 at August 31, 2023.

- Table A-3 presents the cost of selected District functions as well as the selected functions' net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.
- The cost of all governmental activities this year was \$ 36,006,599.
- However, the amount that our taxpayers paid for these activities through local property taxes was only \$ 12,989,501.
- Some of the cost was paid by those who directly benefited from the programs, \$ 582,792, or
- By grants and contributions, \$ 7,075,588.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled \$ 38,629,615, which represents a 1,772,431 increase over the prior year revenues of \$ 36,857,184. This increase reflects increased property taxes collected during the year, as well as federal grant funds.

Expenditures of governmental fund types totaled \$ 39,433,251 for the year. This is an increase of \$ 5,042,919 from the prior year total of \$ 34,390,332. The increase is due to generic increases in operating expenses. In addition, increases in salaries and pandemic learning loss programs contributed to the increase. The early construction costs related to improvements and renovations related to the new bond issue also contributed to the rise in expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised its General Fund budget several times. With these adjustments, actual expenditures were \$ 451,174 above General Fund final budget amounts. The largest negative variances are reflective of higher than anticipated expenditures incurred in instruction, cocurricular activities and school leadership functional categories. Accounting for leases under GASB 87 attributed to the excess in the instruction category.

Resources available were \$ 942,855 above the final General Fund budgeted amount. Local revenues as well as state revenue exceeded the levels anticipated by management for the year.

ECONOMIC FACTORS

Local property tax rates are restricted by state statute, without local elections, to \$0.97 for maintenance and operations. District voters approved a tax cap of \$ 0.13 in a prior year to maximize allowed state funding (maximum allowed by state statute) to achieve needed local and state funding. The state funding was changed to provide state funds to replace the lost local property tax revenue. The State Legislature passed HB3 which included various changes to the property tax rate setting process thus limiting school district's opportunities for tax modifications and compressing the rates charged to taxpayers. The additional changes required under HB3 could impact the District's financial operations, including cash flows.

Student population has remained at a steady historical growth rate in the District. The economic outlook for the area is for growth to be relatively slow. Housing has not expanded at the rate of other north central Texas communities. These economic conditions allow the District to maintain constant funding and staffing levels.

The State has increased funding levels for the 2019-2022 biennium, which will affect the revenue levels of the District. The level of funding per attendance credits increased significantly. The level of funding per attendance credits increased significantly. With these increases, the state imposed requirements to spend at least 30% of the new funding on salaries to personnel with at least 75% of the 30% to be for teachers and other designated classes of employees. With these increases in funding, the District anticipates monitoring expenditure levels to ensure financial stability remains strong.

The global outbreak of coronavirus disease 2019 ("COVID-19") presents various global risks. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. Management of the District is actively monitoring the global situation on its financial condition, liquidity, operations, supplies, vendors, and industry. Given the evolution of the COVID-19 outbreak and the global responses to curb its spread, the District is not able to estimate the effects, if any, of the COVID-19 outbreak on its results of operations and financial condition.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2023

A. Summary of Significant Accounting Policies

The basic financial statements of the Brownsboro Independent School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units in conjunction with the Texas Education Agency's *Financial Accountability System Resource Guide (Guide)*. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees (Board), a seven member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and as a body corporate has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity" as defined by GASB in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

2. Basis of Presentation – Basis of Accounting

a. Basis of Presentation

Government-wide Statements – The statement of net position (SNA) and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities (SOA) presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements – The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Capital Projects Fund – The District accounts for capital improvements resulting from the issuance of tax supported general obligation bonds in this fund. Any excess proceeds remaining will be used to retire the debt issued.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2023

A. Summary of Significant Accounting Policies (Continued)

In addition, the District reports the following fund types:

Special Revenue Funds – The District accounts for resources restricted to or designated for specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a special revenue fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods. The Board can commit specific types of resources to specific purposes which are included as special revenue funds.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of general long-term Debt principal, interest and related costs.

Fiduciary Funds – These funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or other governments. These include private-purpose trust and Custodial funds. Private-purpose trust funds account for resources, including both principal and earnings, which must be expended according to the provision of a trust agreement, and are accounted for in essentially the same manner as proprietary funds. Custodial funds are purely custodial and thus do not involve measurement of results of operations.

b. Measurement Focus – Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements – These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available.

The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital lease are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

A. Summary of Significant Accounting Policies (Continued)

3. Budgetary Data

The official budget was prepared for adoption for the general, food service and debt service funds. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1.
- b. A meeting of the Board is called for the purpose of adopting the proposed budget with public notice given at least 10 days prior to the meeting.
- c. Prior to the expenditure of funds, the budget is adopted by the Board.

After adoption, the budget may be amended through action by the Board. Budget amendments are approved at the functional expenditure level. All amendments are before the fact and reflected in the official minutes of the Board. Budgets are controlled at the function level by personnel responsible for organizational financial reporting. All budget appropriations lapse at the year end. Budget amendments throughout the year were not significant.

4. Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget.

End-of-year outstanding encumbrances that were provided for in the subsequent year's budget are:

General Fund	\$	-0-
Special Revenue Fund		-0-
Debt Service Fund		-0-
Total	\$	-0-

5. Financial Statement Amounts

Cash and Investments

The District pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as a part of the District's cash and temporary investments.

For the purpose of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

Fund Balance

Governmental funds utilize a fund balance presentation for equity. Fund balance is categorized as nonspendable, restricted, committed, assigned or unassigned.

Nonspendable fund balance – represents amounts that cannot be spent because they are either not spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted fund balance – represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed fund balance – represents amounts that can only be used for specific purposes imposed by a formal action of the District's highest level of decision-making authority, the Board. Committed resources cannot be used for any other purpose unless the Board removes or changes the specific use by taking the same formal action that imposed the constraint originally.

 YEAR ENDED AUGUST 31, 2023

A. Summary of Significant Accounting Policies (Continued)

Assigned fund balance – represents amounts the District intends to use for specific purposes as expressed by the Board or an official delegated the authority. The Board has delegated the authority to assign fund balances to the Superintendent.

Unassigned fund balance – represents the residual classification for the general fund or deficit balances in other funds.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

The following schedule provides information about the specific fund balance classification by fund:

	General	Capital Projects	Other Governmental	Total
Restricted:				
Textbook Fund	\$ -	\$ -	\$ (1,700)	\$ (1,700)
Child Nutrition Program	-	-	492,659	492,659
Retirement of Long Term Debt	-	-	2,028,633	2,028,633
Construction	-	23,596,893	-	23,596,893
Committed:				
Equipment	1,000,000	-	-	1,000,000
Campus Activity Funds	-	-	130,416	130,416
Other	700,000	-	-	700,000
Unassigned	10,914,878	-	-	10,914,878
Totals	<u>\$ 12,614,878</u>	<u>\$ 23,596,893</u>	<u>\$ 2,650,008</u>	<u>\$ 38,861,779</u>

Inventories

The purchase method is used to account for inventories of school supplies, athletic equipment and food products. Under this method, supplies and materials are debited as expenditures when purchased.

Prepaid Items

Certain payments to vendors reflect cost applicable to future accounting periods and are recorded as prepaid items. Prepaid items are recorded as expenditures when the items are consumed or occur.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$ 5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings and Improvements	15-50
Vehicles	5-10
Other Equipment	3-15

Right of Use Assets and Liabilities

GASB Statement 87, *Leases* created new financial statement accounts "Right of Use" assets and similar offsetting liabilities. A "right of use" asset accounts for the net present value of future payments attached to a leased asset. Common examples of "Right of Use" assets are copiers, printers and other types of equipment that the District does not take ownership of but uses under the lease agreement. The assets value will be amortized over the life of the lease using a straight-line method. The liability offsetting the "Right of Use" is presented as lease payable.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2023

A. Summary of Significant Accounting Policies (Continued)

Subscription-Based Information Technology Arrangements (SBITA)

GASB Statement 96, *Subscription-Based Information Technology Arrangements* created new financial statement assets and offsetting liabilities. A SBITA asset accounts for the net present value of future payments required for right of use subscription assets. To the extent relevant, the standards for SBITA's are based on the standards established by GASB Statement 87, *Leases*. A SBITA is defined as a contract that conveys control of the right of use of another party's information technology (software) as specified in the contract for a period of time in an exchange or exchange-like transaction. The asset will be amortized over the life of the contract allowing the use of the information technology over a straight line method. The asset is included in the financial statement caption right of use asset with the offsetting liability identified as SBITA payable.

Unearned Revenues

Unearned revenues include state funds received but have not been earned in the year. The balance will be earned in the future period and not reported as liabilities.

6. Deferred Outflows and Inflows of Resources

The District implemented GASB Statement Number 68, *Accounting and Financial Reporting for Pensions* and GASB Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefits and Other Pensions*. In addition to assets and liabilities, the government-wide Statement of Net Position and governmental fund Balance Sheet report separate sections for deferred outflows and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent the acquisition of net position/fund balance that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The District reports certain deferred inflows and outflows related to pensions on the government-wide Statement of Net Position. At the governmental fund level, earned but unavailable revenue is reported as a deferred inflow of resources.

The District also implemented GASB Statement Number 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which amends the transition provisions of GASB 68. GASB 71 requires that, at transition, governments recognize a beginning deferred outflow of resource for pension contributions made subsequent to the measurement date of the beginning Net Pension Liability. Implementation is reflected in the financial statements and the prior period adjustment.

7. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

8. Interfund Activities

Interfund activity results from loans, service provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfer" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

9. Vacation, Sick Leave, and Other Compensated Absences

District employees are entitled to certain compensated absences based on their length of employment. Sick leave accrues at various rates established by the State and adopted by the Board of Trustees. Sick leave vests, accumulates, and is recorded as expense as it is incurred. Sick leave is paid upon separation from the District.

A. Summary of Significant Accounting Policies (Continued)

10. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement System of Texas (TRS) and additions to/ deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expenses, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit term. There are no investments as this a pay-as-you-go plan and all cash is held in a cash account.

12. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from these estimates.

13. New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued various new accounting standards to better meet the information needed for users of financial statements by improving accounting and financial reporting. The GASB does this by issuing statements that cover various issues identified as needing additional clarification or direction to maintain standardization and comparability of financial information. During the year, the GASB issued no new standards. The following statements with varying effective dates noted are to be implemented in the coming periods:

Statement 99: *Omnibus 2023* (Effective upon issuance with some effective FY beginning after June 15, 2023)

Statement 100: *Accounting Changes and Error Corrections* (Effective FY beginning after June 15, 2023)

Statement 101: *Compensated Absences* (Effective FY beginning after December 15, 2023)

14. Data Control Codes

Data control codes refer to the account code structure prescribed by the Agency in the *Guide*. The Agency requires the District to display these codes in its financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

15. Accounting System

In accordance with Texas Education Code, Chapter 44, Subchapter A, the District adopted and implemented an accounting system which at least meets the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. The District's accounting system uses codes and the code structure presented in the accounting code section of the *Guide*. Mandatory codes are utilized in the form provided in that section.

B. Deposits, Securities and Investments

Cash Deposits

The District's funds are deposited and invested under the terms of a depository contract. The contract requires the depository to pledge approved securities in an amount significant to protect the District's day-to-day balances. The pledge is waived only to the extent of the dollar amount of Federal Deposit Insurance District (FDIC) insurance. At year end, all District cash deposits appear to have been adequately covered by FDIC insurance or by pledged collateral held by the District or the depository in the District's name. The District's deposits appear to have been properly secured throughout the year.

Investments

The District's investment policies and types of investments are governed by the Public Funds Investment Act (PFIA). The Act requires specific training, reporting and establishment of local policies. The District appears to be in compliance with all the requirements of the Act.

The PFIA (Government Code Chapter 256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement and publicize an investment policy. That policy must address the following areas (1) safety of principal and liquidity, (2) portfolio diversifications, (3) allowable investments, (4) acceptable risk level, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the state maturity date of portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preference for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) banker's acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The PFIA governs the District's investment policies and types of investments.

The District's management believes that it complies with the requirements of the PFIA and the District's investment policies.

District investments include investments in Lone Star Investment Pool, certificates of deposit, and money market accounts. All investments are reported at fair value and are presented as cash and investments.

The following table lists the District's investments at year end:

	<u>Fair Value/ Amortized Cost</u>	<u>Weighted Average Maturity (Days)</u>
Governmental Activities:		
Investments:		
Market Money Deposit Account	\$ 2,195,762	N/A
Lone Star Investment	23,611,197	47
Certificates of Deposit	3,510,003	N/A
Special Account	74,234	N/A
Totals	\$ 29,391,196	

Lone Star Investment Pool

The Lone Star Investment Pool (Lone Star) is a public funds investment pool created pursuant to the Interlocal Cooperation Act, Texas Government Code, Chapter 791, and the PFIA, Texas Government Code, Chapter 2256. Lone Star is administered by First Public, a subsidiary of the Texas Association of School Boards (TASB), with Standish and American Beacon Advisors managing the investment and reinvestment of Lone Star's assets. State Street Bank provides custody and valuation services to Lone Star. All of the board of trustees' eleven members are Lone Star participants by either being employees or elected officials of a participant. Lone Star has established an advisory board composed of both pool members and non-members. Lone Star is rated AAAM by Standard and Poor's. Lone Star has no limitations or restrictions on withdrawals. The District is invested in the Corporate Overnight Plus Fund of Lone Star. Lone Star has 3 different funds: Government Overnight, Corporate Overnight and Corporate Overnight Plus. Government and Corporate Overnight maintain a net asset value of one dollar and the Corporate Overnight Plus maintains a net Asset value of 50 cents. The Government Overnight and Corporate Overnight Funds value all investments at amortized cost and are operated in accordance with GASB 79. The Corporate Overnight Plus Fund values all investments at fair value and is operated in accordance with GASB 72.

YEAR ENDED AUGUST 31, 2023

B. Deposits, Securities and Investments

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the Districts' name. At year end, the District was not exposed to custodial credit risk.

The largest combined balances of cash, saving and time deposit accounts amounted to \$ 23,219,624 and occurred in January 2023. The market value of bonds or other securities used to secure cash on the date of the highest combined cash balance was \$ 26,727,098. The total amount of FDIC coverage at the time of the highest combined balance was \$ 503,668, First State Bank, Brownsboro, Texas is the District's depository.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. District investments are limited to short term maturities to limit any potential interest rate risk. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. State statutes do not allow for foreign investments this eliminating foreign currency rate risk. The District was not exposed to foreign currency risk.

f. Fair Value Measurements

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or equivalent) as practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements require judgement and considers factors specific to each asset or liability.

C. Property Taxes

Property taxes are levied by October 1, in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the October 1 levy date. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed. Property tax revenues are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

C. Property Taxes (Continued)

Property taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Section 33.05, Property Tax Code, requires the tax collector for the District to cancel and remove from the delinquent tax rolls a tax on real property that has been delinquent for more than 20 years or a tax on personal property that has been delinquent for more than 10 years. Delinquent taxes meeting these criteria may not be canceled if litigation concerning these taxes is pending.

The District levied taxes on property within the District at \$ 0.942900 to fund general operations and \$ 0.280000 for the payment of principal and interest on long-term debt. The rates were levied on property assessed totaling \$ 1,069,261,510. The District contracts with a tax attorney for the collection of all delinquent taxes. Delinquent taxes are subject to both penalty and interest plus a 20% delinquent tax attorney collection fee.

Bonds

The District has issued various series of general obligation bonds to fund facility construction and improvements. Bonds mature at various times with varying rates of interest. The bonds issued require the District to levy an ad valorem tax annually to retire the current maturities. The District is required to make semi-annual interest payments along with annual principal payments.

On March 2, 2023, the District issued "Brownsboro Independent School District Unlimited Tax School Building Bonds, Series 2023," totaling \$ 22,355,000 for construction, renovations, and improvements to District facilities. These bonds incur an average interest cost over the life of the bonds at a rate of 3.4581% and mature annually with semi-annual interest payments. The bonds will fully mature in 2043.

The following bonded debt issues are outstanding at year end:

Description	Interest Rate	Original Value	Outstanding Amount
Unlimited Tax Refunding Bonds, Series 2017	2.00% to 4.00%	\$ 8,710,000	\$ 7,760,000
Unlimited Tax Refunding Bonds, Series 2020	4.00% to 5.00%	12,175,000	7,480,000
Unlimited Tax School Building Bonds, Series 2023	3.4581%	22,355,000	22,355,000
Totals			<u>\$ 37,595,000</u>

The District refunded \$ 550,000 of Brownsboro Unlimited Tax Refunding Bonds, Series 2017 on August 15, 2023. The District used available resources to deposit required funds into an irrevocable trust with an escrow agent to provide for debt service payments on the refunded debt. The refunding meets the requirements of an in-substance defeasance and the debt has been removed from the District's Long term debt. The maturities of refunded debt will be called on various dates with all maturities refunded on the final call date of February 15, 2027.

As a result of the refunding, the District decreased its debt service requirements by \$ 77,000. The refunding was authorized to reduce debt requirements on previously issued debt. The refunding resulted in an economic gain (difference between the present value of the debt service payments of the old and new debt) of \$ 66,208.

Maturity requirements on bonded debt at year end are as follows:

Year Ending August 31	Principal	Interest	Total Requirements
2024	\$ 1,780,000	\$ 1,713,200	\$ 3,493,200

E. Long-term Obligations (Continued)

There are a number of limitations and restrictions contained in the general obligation bond indentures. The District appears to be in compliance with all significant limitations and restrictions as of year end.

Direct Borrowings

The District issued various agreements identified here as direct borrowings. These direct borrowings include financing arrangements including maintenance tax notes.

The direct borrowing terms require annual principal and interest payments over the life of the agreements. The agreement is for 10 years, with final payment date of February 2029.

The following schedule lists the outstanding direct borrowings at year end:

Description	Maturity Date	Interest Rate	Original Value	Outstanding Amount

Right of Use - Leases

The District executed various agreements identified here as leases. Leases are obligations that represent the net present value of the obligations to be paid over a specified term and do not transfer ownership.

The District executed agreements for the use of copiers at various locations throughout the District. The various agreements require monthly payments over the term of the agreement. The lease obligations incur an implicit rate of interest as 10.00%. The detailed schedule of the life and outstanding lease obligations is below:

Description	Interest Rate	Maturity Date	Agreement Date	Original Value	Outstanding Amount

F. Defined Benefits Pension Plan

1. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the System.

2. *Pension Plan Fiduciary Net Position*

Detailed information about the System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required information. That report may be obtained on the internet at http://www.trs.texas.gov/pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2022 ACFR for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2022, and 2021.

Net Pension Liability	2022	2021
Total Pension Liability	\$ 243,553,045,455	\$ 227,273,463,630
Less: Plan Fiduciary Net Position	(184,185,617,196)	(201,807,002,496)
Net Pension Liability	\$ 59,367,428,259	\$ 25,466,461,134
Net Position as percentage of Total Pension Liability	75.62%	88.79%

3. *Benefits Provided*

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There is no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (1) above.

Texas Government Code Section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the TRS's actuary.

4. *Contributions*

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of TRS during the fiscal year.

F. Defined Benefits Pension Plan (Continued)

Employee contribution rates are set in state statute, Texas Government Code, Section 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code Section 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	<u>Contribution Rates</u>	
	2022	2023
Member	8.00%	8.00%
Non-Employer Contributing Entity (State)	7.75%	8.00%
Employers	7.75%	8.00%
Current Year Employer Contributions		\$ 661,084
Current year Member Contributions		\$ 1,446,786
Measurement Period NECE On-Behalf Contributions		\$ 945,043

Contributors to the plan include members, employers, and the State of Texas (State) as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement TRS an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- A Public Education Employer contribution surcharge of 1.7% of the member's salary beginning in fiscal year 2022, gradually increasing to 2% in fiscal year 2025 on all covered payroll.

5. *Actuarial Assumptions*

The total pension liability in the August 31, 2022, actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry-Age Normal
Inflation	2.30%
Discount Rate	3.91% as of August 31, 2022
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05%, including inflation
Ad hoc post-employment benefit changes	None

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2023

F. Defined Benefits Pension Plan (Continued)

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021. For full description of these assumption please see the actuarial valuation report dated November 12, 2021.

Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2022 are summarized below:

Asset Class	Target Allocation %**	Long -Term Expected Geometric Real Rate of Return***	Expected Contribution to Long Term Portfolio Returns

F. Defined Benefits Pension Plan (Continued)

6. *Discount Rate Sensitivity Analysis*

The following presents the District's share of the net pension liability of the plan using the discount rate of 7.00% as well as what the District's share of the net pension liability would be if it were calculated using a discount rate that is 1 – percentage point lower (6.00%) or 1 – percentage point higher (8.00%) than the current rate:

	1% Decrease	Discount Rate	1% Increase
District's proportionate share of the net pension liability	\$ 15,701,494	\$ 10,093,394	\$ 5,547,766

7. *Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At year end, the District reported a liability of \$ 10,093,394 for its proportionate share of the System's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 10,093,394
State's proportionate share that is associated with the District	12,023,412
Total	\$ 22,116,806

The net pension liability was measured as of August 31, 2021 and rolled to August 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contribution to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

On August 31, 2022, the employer's proportion of the collective net pension liability was 0.0170015684%, which was an increase of 0.0031632545% from its proportion measured as of August 31, 2021.

Changes Since the Prior Actuarial Valuation

The actuarial assumptions and methods have been modified since the determination of the prior year's Net Pension Liability. These new assumptions were adopted in conjunction with an actuarial experience study. The primary assumption change was the lowering of the single discount rate from 7.25% to 7.00%.

Pension Expense

For the current year, the District recognized pension expense of \$ 2,678,443 and revenue of \$ 1,149,302 for support provided by the State.

The District reported its proportionate share of the system's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources at year end:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experiences	\$ 146,353	\$ 220,055
Changes of actuarial assumptions	1,880,728	468,730
Differences between projected and actual investment earnings	997,195	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	2,017,175	263,961

G. Other Post-Employment Defined Benefit Plans

1. *Plan Description*

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.052

2. *OPEB Plan Fiduciary Net Position*

Detail Information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required information. That report may be obtained on the internet at http://www.trs.texas.gov/pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

3. *Benefits Provided*

TRS-Care provides health insurance coverage for retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes, including automatic COLAs.

The premium rates for retirees are presented in the following table:

TRS-Care Monthly Premium Rates		
	<u>Medicare</u>	<u>Non Medicare</u>
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

4. *Contributions*

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer (public school) contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual employer contribution rate is prescribed by the State Legislature in the General Appropriations Act. The following table shows contribution rates and amounts provided to the TRS-Care plan by type of contributor.

Contribution Rates		
	<u>2022</u>	<u>2023</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding remitted by Employers	1.25%	1.25%
Current Year Employer Contributions		\$ 170,370
Current Year Member Contributions		\$ 117,551
Measurement Year NECE On-Behalf Contributions		\$ 241,814

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS-Care OPEB program). When employers hire a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$ 535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$ 83 million in fiscal year 2022 from the Federal Rescue Plan Act (ARPA) to help defray Covid-19 related health care costs during fiscal year 2022.

5. *Actuarial Assumptions*

The actuarial valuation was performed as of August 31, 2021. Updated procedures were used to roll forward the total OPEB liability to August 31, 2022. The actuarial valuation was determined using the following actuarial assumptions.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 YEAR ENDED AUGUST 31, 2023

G. Other Post-Employment Defined Benefit Plans (Continued)

The actuarial valuation of TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, rates of retirement, termination, and disability including general inflation and salary increases are identical to those used in the respective TRS Pension valuation. These assumptions were developed in the experience study performed for TRS for the measurement period ended August 31, 2017. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2021 TRS pension actuarial valuation that was rolled forward to August 31, 2022:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability	

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the mortality projection scale MP-2018.

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry-Age Normal
Inflation	2.30%
Discount Rate	3.91% as of August 31, 2022
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05%, including inflation
Ad hoc post-employment benefit changes	None

Health Care Trend Rates

The initial medical trend rates were 8.25% for Medicare retirees and 7.25% for Non-Medicare retirees. There was an initial prescription drug trend rate of 8.25% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 13 years.

Discount Rate

A single discount rate of 3.91% was used to measure the total OPEB liability. There was an increase of 1.96% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutory required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB Liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2021 using the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds.

6. *Discount Rate Sensitivity Analysis*

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% greater than the discount rate that was used (3.91%) in measuring the net OPEB liability as well as what the net OPEB liability would be if it were calculated using a discount rate of 1% less than the rate used.

	1% Decrease	Discount Rate	1% Increase
District's proportionate share of the net OPEB liability	\$ 6,813,881	\$ 5,778,985	\$ 4,940,586

7. *Healthcare Cost Trend Rates Sensitivity Analysis*

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate (8.25%), as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of the net OPEB liability	\$ 4,761,909	\$ 5,778,985	\$ 7,097,492

8. *OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB*

At year end, the District reported a liability of \$ 5,778,985 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 5,778,985
State's proportionate share that is associated with the District	7,049,453
Total	\$ 12,828,438

The net OPEB liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the total OPEB Liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

At August 31, 2022, the District's proportion of the collective net OPEB liability was 0.0241354129%, which was an increase of 0.0020143169% from its proportion measured as of August 31, 2021.

Change Since the Prior Actuarial Valuation

The following were changed to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 1.95% as of August 31, 2021 to 3.91% as of August 31, 2022. This change decreased the Total OPEB Liability.

Changes of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

OPEB Expense

The amount of OPEB expense recognized by the District in the reporting period was (\$ 1,494,898) and revenue of (\$ 1,000,374) for support provided by the State.

The District reported its proportionate share of TRS-Care's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources at year:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experiences	\$ 321,291	\$ 4,814,413
Changes in actuarial assumptions	880,254	4,014,895
Differences between projected and actual investment earnings	17,214	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	2,314,569	376,049
Total as of August 31, 2022 measurement date	\$ 3,533,328	\$ 9,205,357
Contributions paid to TRS subsequent to the measurement date	170,370	-
Total at fiscal year end	\$ 3,703,698	\$ 9,205,357

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expenses as follows:

Year Ending August 31	Amount
2024	\$ (1,151,788)
2025	(1,151,726)
2026	(906,661)

Thereafter	(1,164,087)

H. Medicare Part D Coverage

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended August 31, 2023, 2022 and 2021, the subsidy payments received by TRS-Care on behalf of the District were \$ 98,175, \$ 76,078, and \$ 79,688, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statement of the District.

I. Risk Management

Health Care

During the year, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$ 310 per month per employee and employees, at their option, authorized payroll withholdings to provide dependents coverage under the Plan. All premiums were paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

I. Risk Management (Continued)

The contract between the District and Blue Cross Blue Shield of Texas is renewable September 1 of each year and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for Blue Cross Blue Shield of Texas are available for the year ended December 31, 2022 and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records

Workers Compensation

During the year, the District met its statutory worker's compensation obligation through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory worker's compensation benefits to its member's injured employees.

The fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$ 2 million. The Fund uses the service of an independent actuary to determine reserve adequacy and fully funds the reserves. As of August 31, 2022, the Fund carries a discount reserve of \$ 50,647,775 for future development on reported claims and claims that have been insured but not yet reported. For the current year, the fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022 are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance Austin.

The District was formerly in the East Texas Educational Insurance Association Workers' Compensation Self Insurance Joint Fund. The District will continue to be responsible for claims incurred during their membership period. At year end, the District's claim liability was estimated at \$ 93,755 including an allotment for incurred but not reported claims.

Other Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2023, the District purchased commercial insurance to cover these liabilities. There were not significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

J. Litigation

The District appears to have no pending litigation as of August 31, 2023.

K. Commitments and Contingencies

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at year end, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

The effects of the coronavirus-19 (COVID-19) pandemic continues to affect the District's operations including funding for student attendance and operating programs and cost. Continued funding allowances including additional federal funding will cease in future periods. The operational costs associated with these additional revenues will be evaluated along with the need for these services. The cost of the additional federal funded programs may exceed the available resources and require the District to either eliminate or curtail their existence.

O. Subsequent Events

Management has evaluated all events or transactions that occurred after August 31, 2023 up through January 15, 2024, the date the financial statements were issued.

P. State Aid Reconciliation

The State provides various types of funding for local school districts as provided for in state statute. The following reconciliation presents funding earned by the District in each category presented. Because of the State's delay in reconciling the funding to local districts, the summary below represents an estimate of earnings. The settle up with the State will occur some 9 to 10 months following the fiscal year end.

Funding is earned for: 1) Available – annual allocation based on prior year enrollment; 2) Foundation – annual allocation based on student attendance, property tax collections and valuations, and special student population; 3) Instructional Facilities Allotment – based on property wealth; and 4) Existing Debt Allotment – based on eligible debt, student attendance and property wealth. Various other sources are received but not reconciled here as these are the major sources of funding.

Q. Change in Accounting Principle

The Governmental Accounting Standards Board (GASB) issued Statement 96, *Subscription-Based Information Technology Arrangements*, with an effective date of fiscal year beginning after June 15, 2022. This required the District to implement the provisions of the Statement during the year. The Statement requires the recognition of longer than 12 month agreements to utilize other types of subscription based technology. As such there are new financial statement captions on the government wide financial statements. For the fund financial statements, the net present value of the payments is recognized as an expenditure in the initial year of the agreement with subsequent payments represented as debt retirement payments. The Statement requires retroactive restatement of assets and liabilities with the difference modifying the beginning net position.

R. Compliance, Stewardship and Accountability

Expenditures over Appropriations

The following functional categories have expenditures in excess of allowable appropriations:

	Budget	Actual	Excess
General Fund:

S. Interfund Balances and Activities

Interfund Receivables and Payables

The composition of interfund receivables and payables as of year end, is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Capital Project Fund	\$ 14,304

Transfers Between Funds

Transfers between funds during the year consisted of the following:

Transfers From	Transfers To	Amount	Reason
General Fund	Food Service Fund	\$ 37,444	Cover Negative Balances
General Fund	Capital Projects Fund	5,037	Preliminary Constructin Cost
Total		\$ 42,481	

T. Deficit Fund Equity

At year end, the instructional materials allotment fund had a deficit fund equity balance of \$ 1,700. The District will monitor this fund activities to ensure future year transactions will not exceed available resources. This and any further deficit will be absorbed into the general fund of the District.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED AUGUST 31, 2023

A. Budget

The official budget was prepared for adoption for all Government Fund Types. The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to August 31 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings.

Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse on August 31, and encumbrances outstanding at the time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

B. Defined Benefit Pension Plan

1. Changes of Assumptions Since the Prior Measurement Date

Actuarial assumptions and methods have been modified since the determination of the prior year net pension liability. These new assumptions were adopted in conjunction with an actuarial experience study. The primary assumption change was the lowering of the single discount rate from 7.25% to 7.00%.

2. Changes of Benefit Terms Since the Prior Measurement Date

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

C. OPEB Healthcare Plan

1. Changes of Assumptions Since the Prior Measurement Date

The single discount rate changed from 1.95% as of last year to 3.91% at August 31, 2022. Lower participation rates and updates to the health care trend rate assumptions were also factors then decreased the District's proportion of the total OPEB liability.

2. Changes of Benefit Terms Since the Prior Measurement Date

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

The accompanying notes to the Schedule of Expenditures of Federal Awards are an integral part of this statement.

BROWNSBORO INDEPENDENT SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2023

A. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal activity of the Brownsboro Independent School District and is presented on the modified accrual basis of accounting. Expenditures are recognized in the accounting period in which a fund liability occurs. Funds are considered earned to the extent of expenditures made.

The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

B. Summary of Significant Accounting Policies

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental fund types are accounted for using a current financial resources measurement focus. All federal expenditures were accounted for in the General Fund and Special Revenue Funds which are governmental fund types. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant.

C. Food Distribution

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and used. No provision has been made for amounts on hand on August 31, 2023.

D. Indirect Cost

The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

E. Reconciliation of Federal Revenue with Financial Statements

The District records amounts received from the federal government or other recipients of federal grant as federal revenue in the financial statements. This reconciliation identifies the difference between the financial statement revenues and the schedule of expenditures of federal awards:

Total Federal Expenditures (Exhibit K-1)	\$	5,771,805
School Health and Resource Services (SHARS)		412,172
Head Start - ESC Region 7 Reimbursement		99,430
Federal Revenue (Exhibit C-3)	\$	6,283,407
