HPPA has a New Cell Phone Policy

Please remember that cell phones are not permitted!

As an IB school, we have been reflecting on how we can continue to improve our support of student learning. Beginning Second Semester (January 29, 2024), HPPA will implement a New Cell Phone and Personal Electronics Policy. Along with this letter you will find a copy of this policy.

We are working to be clear and consistent as we work with students and the possession and use of personal electronic devices. Students are expected to put ALL personal electronic devices in their backpack upon entering campus.

Please take some time to read through the new electronics policy. If a student is seen with a personal electronic device (i.e. cell phone, headphones, gaming system, personal tablet, etc.) on their body or within their belongings (outside of the backpack/locker), the student will be asked to give the device to the staff person. On the first offense, the device will then be turned over to the Behavior Intervention Person until end of the school day. Should the student have a second device offense, the device will be turned over to Principal Dutrieuille and Assistant Principal Childs until the family/guardian comes to school to pick up the device.

Any time a parent/guardian is in need of contacting their child between the hours of 8:15AM-3:00PM, please call the office number, 651-293-8970. If it is an emergency, a parent/guardian will be connected to their child. If it is not an emergency, a message will be delivered to your child.

Thank you for your continued support in your student's IB education.

-iPads are not allowed into the Cafeteria (district policy)

New Policy: NO PHONES OR PERSONAL ELECTRONICS BELL TO BELL. 8:15-3:00

Offenses:

- First Offense- BIP keeps until end of the day
- Second Offense- Parent has to pick up from Admin.
- Offense tracking form (BIP's will use/keep)

- Create a Slides document for Foundations teachers to roll out

- Mr. Dutrieuille will make all call announcements for implementation and early weeks of implementation
