### DIRECTIONS

Smart Source serves as a comprehensive inventory of practices and policies to guide Colorado schools and districts in their health and wellness efforts. Your responses to the questions on Smart Source are not scored in any way and are intended to be used by your school to identify gaps and inform improvements. Please respond to each item as accurately as possible.

Schools that complete the Smart Source inventory as a team achieve higher accuracy on their responses and more meaningful results. We strongly recommend that you meet with or, at a minimum, gather input from various school staff noted in the descriptions under each section header throughout the tool.

This document contains all items included on the online tool for combined schools, from both elementary and secondary versions. Certain questions only apply to one of these school levels and will be designated with an italicized note. Additionally, some questions are only relevant based on answers to previous questions—these are also noted in italics at the top of each item.

For use in survey administration, we recommend schools download and print the Smart Source paper tool respective to their school level, available through the online tool.

## GENERAL HEALTH POLICIES AND PRACTICES

The questions in this section refer to the systematic strategies schools have in place to broadly impact health in schools. These strategies focus on the sustainability of health and wellness efforts, as well as using data to inform and improve school health policies and practices. The principal could help provide answers to these questions.

<p>1) Is there one or more than one group (e.g., school health council, committee, team) at your school that offers guidance on the development of policies or coordinates activities on health topics?  <input type="checkbox"/> Yes  <input checked="" type="checkbox"/> No</p> <p style="color: red; font-weight: bold;">We have four teams 1) ILT and 2) Collaborative Problem Solving 3) SAC and 4) Student Council/Bullyproofing</p>

## LOCAL WELLNESS POLICY

Questions in this section are specific to the Local School Wellness Policy final rule requiring that a wellness policy is established to create a school environment that promotes student health and learning. School districts and charter schools must update their local wellness policy and assess implementation in each of their schools at least once every three years. This section of the Smart Source tool is designed and endorsed by the Colorado Department of Education Office of School Nutrition (CDE OSN) to serve as that assessment to meet these requirements.

To answer the questions below, please reference your school district or charter school's local wellness policy which should be publicly available and likely posted on your district or charter school board policy page (it is most often coded as ADF). Please note: if your wellness policy has additional documentation (i.e., ADF-R, guidelines, regulations, exhibits, etc.), feel free to consider those in your responses as well. Your responses will be used by your district or charter school to meet the federal law during the food service department's review by CDE OSN. Please answer the questions below to the best of your ability. Your responses to the questions below will not reflect negatively on your district or charter school. The completion of this section fulfills the assessment requirement and your responses will not be scored or evaluated.

1) To ensure accurate responses in this section, it is important that you reference your district or charter school's local wellness policy. Please agree to the following statement before advancing:

- I have reviewed my district or charter school's local wellness policy and will use this information to inform responses.

2) Federal regulation requires local wellness policies to address the seven elements below. Since the effective date of your district or charter school's local wellness policy, which of the following best describes the actions of your school toward meeting the goals as defined in the policy?

	No action taken (have not yet addressed goals in local wellness policy)	Making plans to implement related activities	Implementing <u>some</u> related activities	Implementing <u>all</u> related activities
a) Nutrition education	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
