

Share of Suspensions Versus Share of Students Served by Race for Female and Male Students, Preliminary End of Year 2018-19

Female Students

Male Students

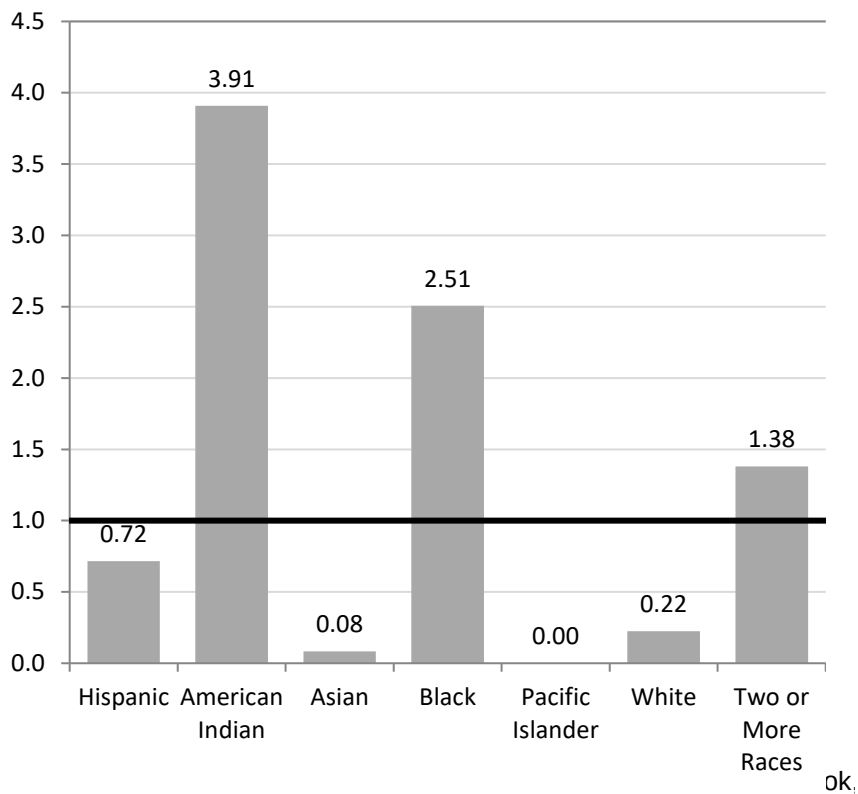

How Do Suspensions Correspond to Students Served?

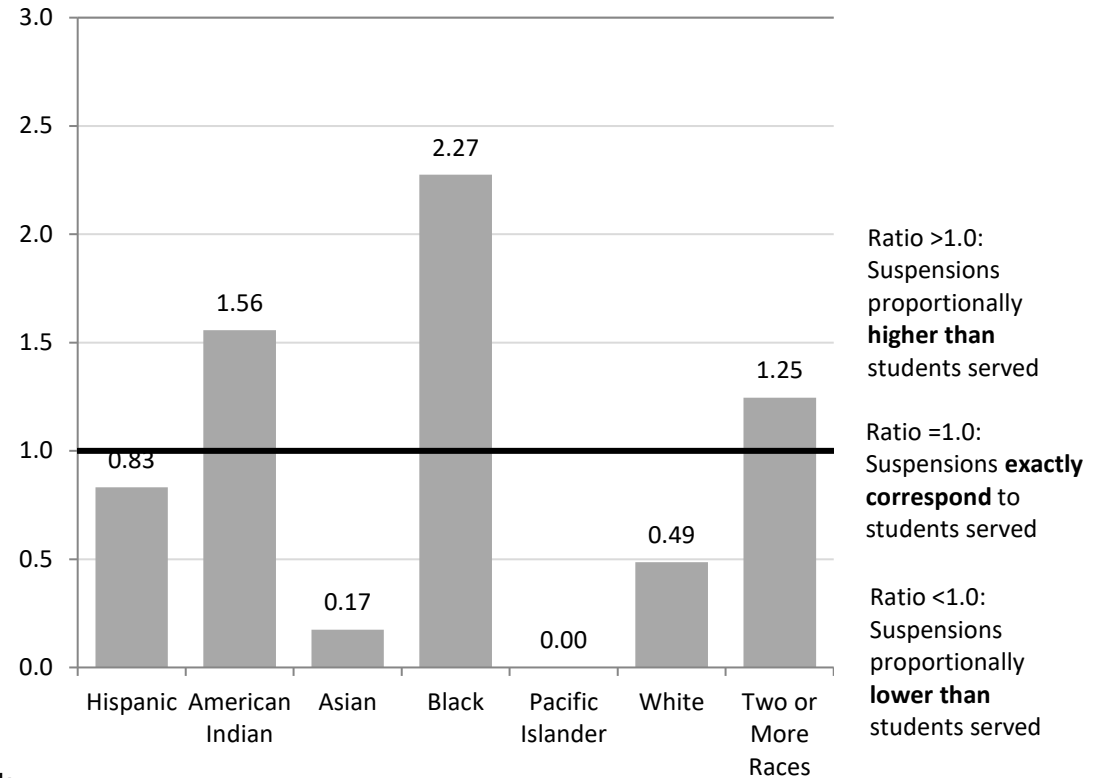

Ratio of Share of Suspensions To Share of Students Served By Race for Female and Male Students,
Prelim. End of Year 2018-19

If racial predictability in suspensions was eliminated entirely, all groups would have a ratio of 1.0.

Female Students

Male Students

Ratio >1.0:
Suspensions
proportionally
higher than
students served

Ratio =1.0:
Suspensions **exactly**
correspond to
students served

Ratio <1.0:
Suspensions
proportionally
lower than
students served

†PreKindergarten students are not included in this report (numerator or denominator).
