PIMS Data Collection

PIMS INFORMATION

Data on student status and performance is collected by the Pennsylvania Department of Education (PDE) for the purposes of satisfying federal and state mandates and reporting requirements and improving education for all students in the Commonwealth. This collection of data is designated as the Pennsylvania Information Management System (PIMS). A key purpose of maintaining student level data is to provide access to statistical information that improves the education-related decisions of teachers, administrators, policymakers, parents and other education stakeholders.
