

BUILDING for EXCELLENCE

On March 6, 2024, voters in Rockland County will be asked to approve the construction of a new, 52,000 square foot, two-story building to support current and future growth of Rockland BOCES Career and Technical Education and STEM programs in West Nyack. The new construction will also allow for additional classroom space in our renowned Jesse J. Kaplan School for students with exceptional needs.

Enrollment in our **Student Services (Special Education), Career and Technical Education (CTE) and Early College High School (P-TECH)** programs continues to soar. The borrowing proposed in the referendum addresses our highest-need, student-facing capital project and plays an important role in enhancing our programs, expanding facilities and supporting the education of our students.

KEY PROJECT ATTRIBUTES:

- Addition of four, large classrooms in the Jesse J. Kaplan School following relocation of the existing Culinary Arts facility
- One commercial and one standard kitchen for the Career and Technical Education Center (CTEC) Culinary Arts program
- Two specialized Culinary Arts classrooms
- 15 STEM classrooms (11,300 square feet) for continued growth of Hudson Valley P-TECH
- Cafeteria: approximately 5,000 square feet with storage area for tables and chairs
- Regulation-size gymnasium/basketball court and fitness area

PROJECT COST:
\$47.9 million

AVERAGE COST TO ROCKLAND COUNTY PROPERTY PER MONTH:
\$2.36*

*Average based on a property assessment of \$500,000
