Administering Medication – Opioid Overdose Prevention (Emergency Administration of Naloxone)

The Amity Regional School District No. 5 (District) Board of Education (Board) is committed to enhancing the health and safety of individuals within the school environment. The District will identify specific locations for the storage of Naloxone and protocols for its administration in emergency situations to assist individuals suspected to be experiencing an opioid overdose.

Definitions

Drug overdose means an acute medical condition, including, but not limited to, severe physical illness, coma, mania, hysteria or death, which is the result of consumption or use of one or more controlled substances causing an adverse reaction. The signs of opioid overdose include unresponsiveness; nonconsciousness; shallow breathing with rate less than 10 breaths per minute or not breathing at all; blue or gray face, especially fingernails and lips; and loud, uneven snoring or gurgling noises.

Naloxone (Narcan) means a medication that can reverse an overdose caused by an opioid drug. As a narcotic antagonist, Naloxone displaces opiates from receptor sites in the brain and reverses respiratory depression that usually is the cause of overdose deaths.

Opioid means illegal drugs such as heroin, as well as prescription medications used to treat pain such as morphine, codeine, methadone, oxycodone (OxyContin, Percodan, Percocet), hydrocodone (Vicodin), fentanyl, hydromorphone (Dilaudid), and buprenorphine.

Delegation of Responsibility

The School Medical Advisor shall provide and annually renew a standing order for the administration of Naloxone to students, staff members or other individuals believed or suspected to be experiencing an opioid overdose on school grounds or at a school-sponsored activity. The standing order shall include at least the following information:

1. Type of Naloxone (intranasal and auto-injector)
2. Date of issuance
3. Dosage
4. Signature of the school physician/School Medical Advisor

The standing order shall be maintained in the Superintendent's office and copies of the standing order shall be kept in each location where Naloxone is stored.

The school nurse shall be responsible for building-level administration and management of Naloxone and management of Naloxone stocks. Each school nurse and any other individual(s) authorized by the Superintendent shall be trained in the administration of Naloxone.

The Board supports professional development of all staff members who request training in Naloxone administration.

Acquisition, Storage and Disposal

Students

Administering Medication – Opioid Overdose Prevention (Emergency Administration of Naloxone)

Naloxone shall be safely stored in the school nurse's office or other accessible location(s) designated by the school nurse in accordance with the drug manufacturer's instructions.

The school nurse shall obtain sufficient supplies of Naloxone pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh Naloxone stocks and maintain records thereof in accordance with internal procedures, manufacturer's recommendations, and any applicable Department of Public Health guidelines.
