Psychotropic Drugs

The Amity Board of Education prohibits all school personnel from recommending the use of psychotropic drugs for any student enrolled within the school system. For purposes of this policy, the term "recommend" shall mean to directly or indirectly suggest that a child use psychotropic drugs.

Psychotropic drugs are defined as prescription medications for behavioral or social-emotional concerns, such as attentional deficits, impulsivity, anxiety, depression, and thought disorders, and includes, but is not limited to, stimulant medications and anti-depressants.

However, school health or mental health personnel, including school nurses or nurse practitioners, the District's Medical Advisor, school psychologists, school social workers, and school counselors may recommend that a student be evaluated by an appropriate medical practitioner.

The District shall follow procedures for identification, evaluation, placement and delivery of services to children with disabilities or suspected disabilities provided in state and federal statutes that govern special education.

The Superintendent of Schools or his/her designee shall promulgate this policy to district staff and parents/guardians of students annually and upon the registration of new students.

(cf. 5141.4 - Reporting of Child Abuse and Neglect)
